Form of medical certificate for candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

The attention of the Medical Board is specially directed to the following :—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity unfitting him or likely to unfit him for the service. It should be understood that the question of fitness involves the future as well as the present, and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service. Before filling up the form it should be ascertained from the

candidate whether he has been previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.

Candidates applying after the prescribed date will have to pay a fine of Rs. 2 for each week's delay. Under no circumstances will the admission fee be refunded. 5. The Inspector of Schools on being satisfied will issue a passport for admission to the test examination. No candidate will, however, be admitted unless he is identified to the satisfaction of the headmaster of the school at which he appears.

6. The headmasters of the institutions named above should direct candidates who appear at their schools to fill up the application form for permission to appear at the Matriculation Examination in their presence. These applications will be forwarded to the office of the Inspector of Schools. The Inspector of Schools will then countersign the applications of those candidates who pass the test and forward them to the candidates direct for transmission to the Registrar with the fees for the examination.

In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

Examination must forward with their applications their I. A. or F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as "University students." 4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 7th January 1924, together with other papers mentioned in rules 2 and 3, after which no application will be received.

5. The examinations will be held on dates to be notified by the University. Application with the countersignature of the undersigned and fees for the examination must reach the office of the Registrar on dates to be fixed by the University and must be sent to that office by the candidates direct.

No. 1926L., dated Calcutta, the 28th July, 1923.—With reference to the footnotes to the Report of the Select Committee on the Bengal Tenancy (Utbandi Amendment) Bill, 1923, published in the *Calcutta Gazette* of the 25th July, 1923, and in continuation of this office notification No. 1845L., dated, the 23rd July, 1923, it is notified that Maharaja Kshaunish Chandra Ray Bahadur, M.L.C., has appended the following Note of Dissent to the Report :—

THE BENGAL TENANCY (UTBANDI AMENDMENT) BILL, 1923.**Note of dissent by Maharaja Kshaunish Chandra Ray Bahadur.**

I sign this report subject to this note of dissent. I take it as admitted on all hands that the system of Utbandi benefits both the tenants and the landlords. The Bill proposes to extend fully the advantages of the tenants and accelerate the acquisition of occupancy right and take away whatever privileges the landlords have. It is just and fair that the latter should be compensated for the loss. I propose, therefore, that the premium to be paid for the conversion should be at least 5 times the amount fixed as uniform annual rent. Most of the Judicial officers have recommended very rightly a higher rate of premium than that provided in sub-section (9). In fact, the landlords do realise sometimes as much as 10 times for such conversions; while even for temporary Utbandi tenancy for a term of 3 to 5 years, premium to the extent of even 2 years' rent is realised from tenants. This income is a recurring one, while under the proposed law the premium will be paid once for all. The *solatium* of even 5 years' rent is a poor one if the fact that it will be spread over a term of 3 years be taken into account. Calculating the present worth it comes to less than 89 per cent. and the premium of 5 times the rent really dwindles to less than 4½. This is surely not too much in view of the fact that in reality the conversion will be really the first regular settlement of the zamindars' khas lands or at any rate making a tenant-at-will a regular occupancy raiyat and so the zamindar should not be deprived of what he ordinarily gets by such settlement.

No. 1927L., dated Calcutta, the 28th July, 1923.—With reference to the Report of the Select Committee on the Calcutta Municipal (No. II) Bill, 1923, published in the *Calcutta Gazette* of the 25th July, 1923, and in continuation of this office notification No. 1847L., dated the 23rd July, 1923, it is notified that Rai Dr. Haridhan Dutt Bahadur, M.L.C., has since signed the report subject to the following Note of Dissent:—

THE CALCUTTA MUNICIPAL (No. II) BILL, 1923.

Note of dissent by Rai Bahadur Dr. Haridhan Dutt, M.L.C.

Clause 3.—According to the constitution proposed in clause 3, the Special Committee which will be appointed to consider the Budget Estimates for 1924-25, will consist of 21 members including the Chairman. This, in my opinion, will make the Committee too unwieldy. The Committee which was constituted in 1888 consisted of 18 members, of whom 12 represented the Corporation and 6 represented the areas which were then amalgamated. I would retain the same number and proportion between the Corporation and outside representatives.

Clause 7.—On principle it is difficult to justify differentiation in the matter of taxation between the city proper and the areas proposed to be amalgamated. I am, however, prepared to waive the question of principle, and on the ground of expediency, to agree to a rebate for the first three years. I object to any concession beyond that as the statutory liability for expenditure will commence after 3 years from the commencement of the Act. I also object to the rebate being allowed for the whole of the amalgamated areas. Portions of them are highly developed and I see no reason why they should not pay the full rates. I would therefore restrict the provision up to 1926-27 and would limit the concession to such localities in each of these outside areas as the Corporation may prescribe. I realise that it will be discretionary and not obligatory on the Corporation to allow any rebate, but the intention is that the Corporation should exercise this discretion in favour of the amalgamated areas.

Clause 8.—The Select Committee have decided that the qualifying year for the municipal franchise should be that ending with 30th September and they have gone further and omitted the proviso which laid down that the names of owners and occupiers must appear in the Assessment Book. I apprehend serious practical difficulties in the preparation of the electoral rolls in time on this basis, but as the matter has been threshed out at very great length both in the Corporation and in the Select Committee, it is unnecessary for me to elaborate the arguments.

Clause 9.—The object of this provision is to give power to the Local Government to pass necessary orders to meet any difficulty that may arise in the assessment and the imposition of consolidated rates in the added areas during the first year of the new Act. The convenience of this provision is obvious, but it is rather unfortunate that a provision enabling Government to rectify defects in legal enactments by executive order should be necessary. The explanation for the present amending Bill and for a provision of this kind is to be found in the hurry with which the Calcutta Municipal Act of 1923 was dealt with in the Select Committee and in the Council.

NOTE.—Rai Bahadur Dr. Haridhan Dutt, M.L.C., has signed the report on the 24th July, 1923, after the report has been sent to press for publication in the *Calcutta Gazette*.

NOTIFICATION.

No. 1930 L., dated Calcutta, the 30th July, 1923.—With reference to the footnotes to the Report of the Select Committee on the Calcutta Suppression of Immoral Traffic Bill 1923 (A Bill for the suppression of Immoral Traffic in the town and suburbs of Calcutta and in the port of Calcutta) published in the *Calcutta Gazette*, dated the 25th July, 1923, and in continuation of this office notification No. 1836 L., dated the 21st July, 1923, it is notified that Mr. Krishna Chandra Ray Chaudhuri, M.L.C., and Mr. F. E. E. Villiers, M.L.C., have appended the following Notes of Dissent to the Report :—

**Note of Dissent by Mr. Krishna Chandra Ray Chaudhuri,
M.L.C.**

I accord my whole-hearted support to the principle underlying the Bill, viz., suppression of immoral traffic in the city of Calcutta, by striking at the root of supply, but strongly object to the extraordinary powers proposed to be conferred on police officers under sub-section (2) of section 4 to arrest, without warrant, persons accused of solicitation or abetment of solicitation as defined in sub-section (1) of section 4.

I admit that certain safeguards are provided, *e.g.*, arresting officers are not to be below the rank of sub-inspectors or sergeants and they are to be empowered by name by the Commissioner of Police. In practice, however, the informers will be, in the majority of cases, constables and jamadars on their rounds, and there is grave risk to the women of the town and their helpers, viz., touts, *gharry-wallas* and taxi drivers, of being blackmailed and their falling a constant prey to the *zulum* of the subordinate police. Likewise young maid-servants and poor but respectable widows going outdoors will be exposed to the risk of being illegally arrested at the instigation of malicious persons and thus branded for life.

In any case I cannot approve of the loss of liberty of even unfortunate women, driven to immoral occupation by sheer economic pressure, for a somewhat trivial offence such as solicitation. After all, prostitution is not illegal in this country, and any violent interference with their calling, such as arrest without warrant, will be a serious blow to the liberty of a section of the public plying their legal profession known as "the necessary evil."

I propose, in case the above views are not acceptable to the members of the Council, the following additional safeguards, viz., arrest of offenders without warrant against whom a reasonable complaint has been made or a credible information has been received—information founded on definite fact and not on mere surmise.

I do not anticipate that the number of offenders sent up for trial under the section under comment will be very large, and therefore such an extraordinary measure as the arrest of ignorant women of the town, condemned to lives of shame, owing to circumstances (social and economic) over which they have little or no control and in many cases enticed to town by professional procurers, should receive serious consideration of the legislature.

Note of Dissent by Mr. F. E. E. Villiers, M.L.C..

1. All legislation having as its object the suppression of immoral traffic proceeds upon one of the two following principles :—

- (a) That commercialized immorality is an evil which can and must be stamped out at all costs.
- (b) That, while recognizing it as an evil, great doubts exist as to whether it can be stamped out and legislation is therefore confined to discouraging the vice so far as possible and to safeguarding the public against the most patent results of immorality such, for example, as venereal disease.

2. The Bill under consideration attempts the second alternative by an endeavour to effect control in three main directions : firstly, by striking at the pimp and procurer and thereby limiting the supply ; secondly, by providing for the removal from brothels of girls under 16 years of age and lastly by protecting youths from temptation by punishing solicitation.

3. With regard to the first two, I am in entire sympathy and would indeed be prepared to go even further than the present proposals. I am, however, unable to agree with the majority report so far as it deals with the third method and my main reasons for disagreement are as follows :—

- (a) that reasonable protection is given against solicitation under the existing law ;
- (b) that the change suggested by clause 4 of the Bill tends to produce most vicious results by the encouragement of blackmail ; and
- (c) that apart from any question of blackmail the proposals contained in the clause constitute a definite menace to the liberty of the subject.

4. The main contentions brought forward in support of the argument that solicitation is an evil which needs more drastic treatment are, first, that it is a public nuisance and, second, that it leads to immorality and that its suppression will lead to a diminution of vice.

5. All that need be said in regard to the first contention is that if it is a public nuisance then the existing law provides means for dealing with it as such.

Regarding the second contention, as to solicitation leading to immorality, it must be remembered that so far as Europeans in this country are concerned, they are mostly men with characters already formed ; and this being so, except in rare cases, the ordinary European is seldom incited to immorality merely through chance solicitation ; either he is moral or he is not.

I am told that this largely holds good in the case of Anglo-Indian youths ; there are cases where young men have been led astray by this means, but I believe this to be almost as much the exception in the case of Anglo-Indian youth as I know it to be in that of the European.

With regard to the Indian youth, I confess I am on less certain ground ; for while some Indians tell me that the pest of solicitation in certain quarters of the city is such as to be the cause of a considerable amount of immorality, others assure me that in this respect Indian youths do not greatly differ from their European and Anglo-Indian brothers and that as a community they are not led astray in any considerable numbers by this means.

6. As regards obtaining a conviction for solicitation, I fail to see how the new clause will improve matters ; either the Magistrate will demand the corroborative evidence of the outraged person or he will accept the uncorroborated evidence of the specially empowered sub-inspector or sergeant ; in the former eventuality we shall be no better off than under the existing law, since it is hardly likely that the person solicited, who has not taken voluntary action in the first instance, will come forward to give evidence.

In the case, however, of the Magistrate prepared to accept the uncorroborated evidence of the police witness, we are faced with the following conditions : that where the law has failed in the past to get convictions at the direct instance of the person solicited, it proposes getting one on the mere opinion (and it can seldom be anything more substantial than an opinion) of the sub-inspector or sergeant.

7. My objections on the other hand to this clause are far more than negative in that I believe that it will do definite harm ; the chances of blackmail in this connection are more than hypothetical ; and in making this statement I neither impute nor imply any charge of dishonesty or corruption against the Calcutta Police ; I merely view the matter from the standpoint that it is not reasonable or safe to act on the assumption that the Calcutta Police surpass in integrity the police of other countries or towns ; and cases of blackmail have undoubtedly occurred elsewhere.

In my opinion a still more serious danger is likely to arise from perfectly honest mistakes on the part of the police ; and the subsequent proving of her innocence will do little to mitigate the humiliation or lessen the irreparable damage done to the good name of an innocent woman, whether European or Indian, who has thus been unjustly arrested.

8. Finally, I look upon clause 4 as a definite menace to the liberty of the subject—and particularly to that section of the public whose interests it is our special duty to safeguard—namely, the Poor ; whose only places of recreation and of perfectly innocent meetings with their friends are those “in or within sight of a street or public place”.

9. I have therefore signed the Report of the Select Committee subject to this minute of dissent and shall ask leave to move an amendment that clause 4 of the Bill be omitted and that the law as it stands to-day be maintained whereby anyone soliciting for the purposes of immorality may be arrested only when a complaint has been lodged by the person solicited.

No. 193M., dated Calcutta, the 30th July, 1923.—With reference to the footnotes to the Report of the Select Committee on the Calcutta Municipal (No. II) Bill, 1923, published in the *Calcutta Gazette*, dated the 25th July, 1923, and in continuation of this office notification No. 1848L., dated the 23rd July, 1923, it is notified that Babu Surendra Nath Mallik, M.L.C., has appended the following Note of Dissent to the Report :—

Note of dissent by Babu Surendra Nath Mallik, M.L.C.

I beg to dissent from the Select Committee's report in the following particulars :—

In clause 7 of the Bill as amended by the Select Committee, the proposal is to enable the Corporation to grant concessions to the newly added areas for the year 1925-26, 1926-27, 1927-28, or 1928-29, *i.e.* for 4 years by assessing at a lower percentage. This concession is proposed to be given over and above that proposed to be given in the first year (1924-25) by not increasing the total existing liability of the rate-payers of these areas. This means a concession for five years.

Looking however to section 90 of the Calcutta Municipal Act, 1923, we find that the concession that has been made to the Calcutta Corporation by the Legislature is that the statutory liability of spending one lakh of rupees on execution of works of original improvement in each of the three added municipalities will not commence till the beginning of the third year after the commencement of that Act. This (drafted now as it is) means a concession for two years only and not even three years as was contemplated and agreed upon. I therefore think that the concession demanded by some of the members of the Select Committee to these newly added areas by way of their being assessed at a lower percentage ought not to extend beyond two years also and in that view I am of opinion that the figures "1927-28 or 1928-29" should be deleted from clause 7 of the Bill as amended by the Select Committee. This again will give the concession for three years, *viz.*, 1924-25, 1925-26 and 1926-27. Furthermore the longer the period for which a concession is given, the greater will be the delay in executing improvements in the added areas. It is but natural that the areas to be improved cannot both claim improvement and concession. Thus the achievement of the object in adding the areas to Calcutta will be delayed. In this view of the matter, the added areas cannot really gain by the concession but would simply be prolonging their unimproved condition.

I would also suggest that the words "or in any specified locality thereof" be inserted after the word "areas" and before the word "referred" in clause 7 of the Bill. Under the clause of the Bill, as it stands at present, the Corporation of Calcutta may give a concession to the whole of an added area (*e.g.*, the whole of the Gossipore-Chitpur area), but has no power to give a concession to a part thereof. It is quite possible that the Corporation may feel inclined to grant the concession to such parts of the area as are inhabited by the poorer section of the people, but not to the whole of the area. The legal difficulty in the way of the Corporation to carry out its intention may lead to a refusal to grant any concession. The result will be that nobody will benefit. The addition of the words, however, does not preclude the Corporation from granting a concession to the whole of the area if it be disposed to do so.

I may also say that if this idea is accepted by the Council, then I on behalf of the Corporation and for myself will be fully prepared to withdraw our objection to the year 1927-28 or 1928-29 in clause 7 as stated above so that a larger period of concessions might be granted to the really poor and deserving people of those three municipalities.

PRELIMINARY FORECAST OF THE JUTE CROP, 1923.

Consolidated Statement for Bengal, Bihar and Orissa, and Assam.

(This Forecast deals with estimates of areas only. Estimates of outturn are dealt with in the Final Forecast.)

Revision of area for 1922.—For reasons explained below the estimated area under jute in 1922 was probably an under-estimate and I have revised the aggregate figure for the three Provinces for 1922 to 1,800,000 acres, as against 1,455,806 acres, given in the Final Forecast in 1922.

Area in 1923.—The estimated area under jute in the three Provinces in the present season is 2,297,520 acres, an increase over the revised figure for last year of 497,720 acres or about 28 per cent. In consultation with the Director of Agriculture in Bihar and the respective District Magistrates in Bengal, the original estimates for Bengal and for Bihar and Orissa were raised by 10 per cent., which increment is included in the above figures. The Director of Agriculture in Assam preferred not to change his original estimate.

The consolidated figures are as follows :—

DEPARTMENT OF AGRICULTURE, BENGAL.**Preliminary Forecast of the Jute Crop in Bengal, 1923.**

(Note.— On an average of the five years ending 1920-21, the area under jute to which this forecast relates, represents 88·2 per cent. of the total area under jute in British India.)

Revision of area.—The preliminary forecast deals only with estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are, as in past years, based on information received through the Collectors from the panchayats and the agricultural officers. In the present year, however, owing to retrenchment, the staff of jute clerks, hitherto employed, has not been available.

In the last two years there have been considerable discrepancies between the forecast figures and those for actual deliveries of jute into Calcutta and Chittagong. For instance, in 1922 the forecast figures for the three Provinces were 42·37 lakhs of bales from an acreage of 14·56 lakhs, while deliveries were 56·11 lakhs of bales up to the end of May 1923. Of the latter quantity 1·25 lakhs of bales is regarded as "carry over" from the previous season of 1921-22, and the balance—viz., 54·86 lakhs of bales—was the produce of last year's crop. It seems certain that the estimates of area in 1922 were too low and I have therefore revised the combined acreage figures for 1922 to 1,800,000, of which 1,550,000 acres may be taken to represent the area of jute in Bengal.

Area sown this year.—As regards the estimates for the present year: The Bengal district returns for the present season show a total area of 2,009,467 acres, being an increase of 459,467 acres, or nearly 30 per cent., over the revised final figures for 1922. It should be said that, in consultation with the Collectors, the original estimates for this year have all been raised by 10 per cent. to the figures given above. The increased area is due to the high prices obtained last year.

Character of the season.—The distribution of rainfall has been exceptionally uneven. In Eastern Bengal it has been more or less normal throughout: and though there was a slight tendency towards concentration into heavy showers separated by intervals of hot dry weather, a large area was sown under conditions which have on the whole remained favourable. In Northern Bengal the early portion of the season was very favourable, and a large area was sown, but adverse conditions, in the form of excessive rain, have existed since the beginning of May. In the Burdwan and Presidency Divisions the rainfall has been exceptionally scanty throughout, and sowing has taken place on a limited scale only—especially in the Burdwan Division. In the Tosha district the early part of the season was dry, with favourable conditions succeeding.

Present state of the crop.—In Eastern Bengal the favourable conditions are responsible for a good crop. In Northern Bengal the excessive rain has adversely affected a considerable tract bordering on the Terai. Further south, however, the crop is more satisfactory. In the Desi districts the present condition of the crop is good, but the favourable development of the later sown portions of it will be dependent on the continuation of suitable weather conditions.

Stocks.—I am informed on all hands that stocks of old jute are very small.

Director of Agriculture, Bengal (Offg.).

24-Parganas ..	30,436	30,221	None	Barraekpore and Badrhat subdivisions - beginning of April; normal. Elsewhere -- middle of May; normal.	The weather was favourable in the begin- ning but it became unfavourable from May up to the first week of June. About six annas damage was done to the crop by drought. The condition of the early sown crop is good but that of late sown crop is not favourable. The monsoon rains are expected to improve the condition of the crop.
Nadia ..	27,222	59,552	Very little	Kushtea subdivision - begin- ning of May; normal. Else- where - beginning of June; a little late.	The increase in area is probably due to an expectation of a better market. The weather has been good excepting in the Kushtea subdivision where the crop suffered from a dearth of rainfall just after sowing. The present condition of the crop is good.
Murshidabad	7,412		Little	End of May; late	The increase in area is due to the high price of jute. The weather conditions which were unfavourable at the sowing time for want of rain delayed sowing very much, and its effects were not very favourable on the growth of the crop. The present condition of the crop is fair.
Jessore	26,651	53,192	Little	Beginning of May; normal	The increase in area is due to the high price of the crop and to rain at the sowing time. The weather has been favourable and its effects on the crop are satis- factory. The present condition is good.
Khulna	3,941	11,164	None	Last week of April; normal	The increase is due to renewed confidence in jute as a paying proposition. At sowing time there was rain but a period of drought which followed impeded the growth of the crop to some extent. The present condition is fair.

The increase in area is due to expectation of a higher price this year. The weather was not favourable at the sowing time owing to drought but has improved since owing to rain that fell towards the end of June. The growth of the early sown crop was hampered by drought. The present condition of the crop is fair.
Midnapore	4,030	5,644	Little at Ghatal and Sadar	Contal - Jan. late. Elsewhere -- May; normal.	The increase in area is due to high price and the extension of cultivation in the Tamluk subdivision. The weather has been fair. Some damage was done to the crop by drought at the sowing time.
Hooghly		11,717	None	Middle of May; late	The increase in area is due to high price of jute last year. The weather which was droughty at the sowing time has become favourable subsequently. Want of timely rainfall interfered with the growth of the crop. The present con- dition is fair.
Huwa	3,567	5,130	Little		The increase in area is due to high price. Drought prevailed at the sowing time. The present condition of the crop is good.

DISTRICT.	ESTIMATED AREA UNDER JUTE.		Whether much, little or no jute remains in the district from the crop of 1922.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
	Last year. (final figures.)	This year.			
	Acrea.	Acres.			
Rangpur	154,564	223,926	Very little	March—rather early	The increase in area is due to high price and favourable weather at the sowing time. The weather has been favourable and the condition of the crop is good.
Rogra	45,320	67,653	Very little	Alluvial tracts—latter part of March. Khlar tracts—beginning of May.	The increase in area is due to high price of jute. The weather was favourable at sowing time for alluvial tracts in general, but in the Khlar tracts the rainfall was uneven. In some places sowing could not be done in time due to want of sufficient rains, whereas in others it could not grow properly owing to heavy showers. The condition of the crop is, on the average, good.
Patna	74,754	90,452	None	Second week of April; normal	The increase in area is due to the high price of jute last year. The weather at the sowing time was very unfavourable and its effects were deleterious on the growth of the crop but has become reasonable. Some damage was done to the crop owing to drought and insect-pests. The condition now is fair.
Makia	6,500	11,660	Very little	Latter part of May; late	The increase in area is due to high price and transfer of area to jute from other <i>bhadoi</i> crops owing to late rains. The weather was unfavourable at first regarding the growth of the crop for want of rainfall but the recent rain has improved the condition.
Dacca	130,000	245,300	None	March normal	The actual figures reported from the different subdivisions came up to 202,977 acres which appear to be an underestimate and has accordingly been increased by 21 per cent. The increase in area is due to favourable weather at the sowing season, high price of jute and to absence of stock from last year's crop. The condition of the crop is good. Slight damage has been done to the crop by insect-pests.
Mymensingh	298,006	525,160	Nil	Latter part of March and first week of April; normal.	The increase in area is due to the high price of the crop combined with a fall in the rice-market. The weather has been quite favourable at the time of growth but the crop suffered a little from drought in early stages. The condition of the crop is good. Insect-pests are reported to have done a little damage in parts of Tangail. The recent rainfalls have been very beneficial to the growth and has made up the loss.
Faridpur	80,000		Practically none	Middle of April; normal	The increase in area is due to high price and favourable weather condition at the sowing time. Drought after sowing time interfered with the growth of the crop. Weather has become favourable since middle of May and the condition of the crop is fair.
Bakarganj	8,540	27,624	Little	April and May; normal	The increase in area is due to favourable weather at sowing time and high price of jute. Insufficient rainfall in May and June has retarded the growth of the crop to some extent. The present condition of the crop is, on the whole, fair.
Chittagong	200	200	Nil	Last week of May; normal	The weather has been reasonable and the condition of the crop is good.
Tippera	150,000	236,500	Very little	First week of May; normal.	The increase in area is due to the high price of jute. The weather was dry and unfavourable at the outset, but the rains since May last have improved the growth of the crop and its condition is good.
Noakhali	8,333	20,968	Nil	Early March	The increase in area is due to rise in the price of jute. The weather has been good. The present condition of the crop is good.
Total for Bengal	1,196,541	1,978,075			
Add for Cooch Behar	22,867	31,392	A little	Middle of March to middle of April; normal.	The increase in area is due to high price of jute and favourable weather condition in March and April enabling the cultivator to prepare his lands in time. The weather which was favourable at the outset turned unfavourable in the early stages of the growth of the plants owing to excessive rainfall causing damage and hindering their growth. The condition of the crop is not favourable.

NOTE.—The figures given above are the averages for all the rainfall registering stations in each district.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Preliminary Forecast of the Jute Crop of Bihar and Orissa, 1923.

(Note.—On an average of the five years ending 1920-21, the area under jute to which the Bihar and Orissa forecast relates represents about 7·5 per cent. of the total area under jute in British India.)

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable output either in percentage figures or in bales.

2. Acreage.—The estimated area sown during the current and four preceding years in round numbers is given below :—

Year.					Acreage.
1919	203,400
1920	178,800
1921	108,400
1922	160,000*
1923	181,800

* Revised.

3. Weather conditions.—In March light rain fell in the jute districts; the fall was below the normal everywhere. In April and May there was light rain; the fall was above the normal in Champaran and Purnea in April and in Purnea in May, but below the normal elsewhere. There was light to moderate rainfall everywhere in June; the fall was heavy in Purnea.

4. District returns.—The total area under jute, as reported by the District Officers, is estimated in round numbers at 165,200 acres as compared with 144,600 acres as shown in the corresponding forecast of last year and against 146,100 acres reported in the final forecast of last year. † The increase in the area sown this year is mainly in Purnea, where it is attributed to the further rise in the price of jute. But not only was sowing delayed in 1922 for want of rain, but enquiries showed that in Purnea district the area was actually reduced in that year owing to the non-co-operation movement. The favourable sowing season and failure of the non-co-operation movement must have greatly increased the area sown this year, independently of the rise in price, and the total area estimated in the current season is in my opinion probably quite 10 per cent. low.

5. Condition and prospects.—The condition of the crop is fair on the whole.

6. General.—The quantity of jute which remains in the jute districts from the crop of 1922 is reported to be little.

The statement below compares the area under jute in this Province this year with the preliminary and final figures of last year :—

The condition of the crop is poor for want of timely rainfall. The date of sowing was normal and has been completed in Sadr, but was late in Bhojpur for want of rain in some places.

The condition of the crop is not so good as last year. Sowings have been delayed and are still going on in some parts. The decrease in area sown this year is due to absence of rain at the proper time.
	Balasore	1,832,621	932,200	2,300	2,600		Very little.	Last week of June.	The weather was dry and not favourable for the sowing of jute early. Sowings are going on now and were late.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

Preliminary Forecast of the Jute Crop in Assam, 1923.

(Note.—On the average of the five years ending 1920, the area under Jute in Assam represents 4·3 per cent. of the total area under Jute in British India.)

1. Character of the season.—There has been rain in the Province generally since the beginning of the season. The heavy fall from April somewhat interfered with growth, but on the whole the weather and prospects of the crop are fair.

2. Area sown.—The total area under jute as estimated by the District Officers is 106,300 acres against 89,800 acres of last year. The increase is due to the rise in price of jute.

3. Stock.—Little jute remains from last year, except in Cachar and Lakhimpur.

Preliminary Forecast of the Jute Crop of Assam for 1923.

DISTRICT.	Normal.	AREA UNDER JUTE.		DIFFERENCE BETWEEN THE FIGURES NOW ESTIMATED FOR 1923 AND THE FINAL OF 1922.		Whether much, little or no jute remains in the district from the crop of 1922.	Date by which the sowing of the crop generally commenced this year and whether that date was early, normal or late.	REMARKS BY DEPUTY COMMISSIONERS.
		Final of 1922*	Now estimated for 1923.	Increase.	Decrease			
		Acres.	Acres.	Acres.	Acres.			
Onchar		300	200	300	100	Nil.	By the first week of April normal.	The high price of jute in the market is the cause of the increase in area. The weather was altogether dry at the sowing time, but since then there has been too much rain which retarded growth of the crop. Hence the outturn is expected to be poorer than that of last year.
Sylhet		17,900	10,300	14,900	4,600	Little	Last week of March: normal.	The increase is due to the comparative rise in the price of jute. The weather has been favourable, but the recent floods are reported to have damaged the crop to a certain extent. The outturn is expected to be normal.
Goalpara		50,000	30,300	35,600		Little remains in Sadar	First week of April: normal.	The price of jute last year was high and hence the increase in area. The condition of weather has not been favourable. Constant rainfalls, hail-storms and floods damaged the crop to some extent and the prospects are likely to be worse than last year.
Kamrup		12,700	9,300	10,200		Little remains.	Middle of April normal.	Increase in area is due to favourable weather at sowing time. Outturn is expected to be better than last year.
Darrang		9,300	10,800	10,700		Little remains in the Mangaldai subdivision.	Middle of March early.	The decrease in area is due to excessive rain at the time of sowing in the Beihali sub-circle. The character of weather was favourable and better outturn is expected than last year.
Nowgong		14,700	20,700			Very little	15th March: early	The increase in area is due to extension of cultivation by immigrants and indigenous people on account of the high price of jute. The effect of weather has been good to the crop and the outturn is expected to be better than last year.
Sibsagar		300	300	300		Little	5th April: normal.	The weather has been rainy all along. The heavy rain retarded growth to some extent. The outturn is expected to be fair.
Lakhimpur		200	100			Nil.	6th April: normal	The weather was favourable in the North Lakhimpur subdivisions but not so in the Sadar. The heavy rain has damaged the crop in some places in the North Lakhimpur subdivision. The present prospects of the crop are fair.

**RESOLUTION ON THE TRIENNIAL REPORT ON THE ADMINISTRATION OF
THE REGISTRATION DEPARTMENT FOR THE YEARS 1920, 1921 AND
1922.**

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Miscellaneous (Registration) Branch.

CALCUTTA, THE 27TH JULY 1923.

RESOLUTION—No. 1366Mis.

Minister in charge : The Hon'ble Mr. P. C. Mitter, C.I.E.

READ—

The Triennial Report on the Administration of the Registration Department for the years 1920, 1921 and 1922.

The Hon'ble Khan Bahadur Aminul Islam was in charge of the Registration Department throughout the triennium, with the exception of a period of about two months from the 18th October 1921 to the 23rd December 1921, during which he was on privilege leave, and the short periods during which he was on deputation as a Member of the Council of State, Rai Bahadur Gyanendra Nath Ray, Personal Assistant to the Inspector-General of Registration, acted for him on these occasions.

2. In the resolution on the preceding triennium's work, reference was made to the Madras system of departmental District Registrars which was introduced in May 1919 as an experimental measure in the districts of Mymensingh, Dinajpur, Chittagong, Midnapore and Murshidabad. The experiment, however, did not prove a success, and was discontinued in Mymensingh and Dinajpur in the years 1921 and 1922, respectively. Orders for its discontinuance in the remaining three districts issued after the close of the triennium.

3. The pay of practically the whole staff of the Registration Department was revised in the period under review.

A general revision of the pay of the menial staff was effected in 1920 after two temporary revisions, and a final revision involving additional annual expenditure of Rs. 24,000 and based on the report of the McAlpin Committee took effect from the 1st July 1921.

The scheme for the revision of pay of the ministerial establishments of district headquarters and rural registration offices, which was sanctioned by the Secretary of State in October 1916 and was introduced partially in 1919, was given full effect to in 1920 at an additional expenditure of Rs. 1,38,000 per annum. Here, too, the relief afforded by increased pay proved inadequate on account of the abnormal rise in prices, and time-scale pay was sanctioned for the ministerial establishment of the Registration Department on the lines of the recommendations of the McAlpin Committee, with effect from the 1st January 1922, at an additional annual expenditure of Rs. 2,01,480. Time-scale pay was also introduced in the offices of the Registrar of Calcutta and the Inspector-General of Registration, Bengal, at an extra annual cost of Rs. 6,046 and Rs. 12,419, respectively.

The scheme for the revision of pay of registering officers, which included a measure of reorganisation, also materialised during this triennium, and effect was given to it from the 1st December 1922 at an estimated cost in 1922 of Rs. 48,000, the total annual cost of the scheme being estimated at Rs. 1,92,000. According to this scheme the monthly pay of a Sub-Registrar has now been fixed at Rs. 80—6—140—6—200—10—250, with efficiency bars at Rs. 140 and Rs. 200.

4. In order to make good in part the deficit in provincial revenues the Bengal Stamp (Amendment) Act, 1922, was passed, under which the duty on certain instruments has been increased by 50 per cent. The Act, which was passed by the Bengal Legislative Council in March 1922, came into force on the 1st April 1922.

5. The ordinary work of the department showed a decided increase during the triennium. The number of offices rose from 408 to 415. Compulsory and optional registrations affecting immoveable property increased by 17·7 per cent. and 12·0 per cent., respectively. The total number of registrations in Books I, III and IV during the period under review was 5,702,434 as compared with 4,913,594, in the preceding triennium, showing an increase of 16·0 per cent. The receipts of the department during the past three years amounted to nearly 78 lakhs and the expenditure to nearly 44 lakhs, leaving a surplus of over 34 lakhs. As compared with the previous triennium, the receipts increased by 25·1 per cent., the expenditure by 32·5 per cent., and the surplus rose by 16·6 per cent.

6. Owing to the financial stringency no progress was made in the construction of suitable buildings for registration offices and Sub-Registrar's quarters. For the same reason, registration offices could not be properly equipped with furniture and record-racks, while expenditure on binding and re-binding of registers was cut down to an insignificant sum. If the records in certain offices are not to be irretrievably damaged, funds must be provided on a much more liberal scale for binding charges and the provision of racks.

7. The marked increase in the year 1920, both in the number of, and in receipts from, registrations, as compared with the two subsequent years, is attributable generally to the great economic strain in the country as an after-effect of the great European war, to the high price of agricultural produce, and to the land boom in Calcutta. These factors to some extent ceased to operate in 1922, and registrations fell off except in a few districts. In the Rajshahi Division, the floods and the non-co-operation movement appear to have had some influence. In 1922 there were roughly 17½ lakhs of registrations against nearly 21 lakhs in 1920, while receipts declined in 1922 from over Rs. 27½ lakhs (in 1920) to under Rs. 25 lakhs.

8. The total number of appeals under section 72 and applications under section 73, disposed of during the triennium, was 5,830 against 5,113 in the previous triennium, while the number of prosecutions under section 83 for false denial of execution and false personation fell from 202 to 116.

9. His Excellency the Governor, acting with the Minister for Education, desires to acknowledge with thanks the efficient administration of the department by the Hon'ble Khan Bahadur Aminul Islam and the valuable assistance rendered on all occasions by his personal assistant, Rai Gyanendra Nath Ray Bahadur.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Registration, Bengal, for information.

Ordered also that a copy of the resolution together with the report be submitted to the Government of India, in the Home Department.

Ordered also that a copy of the resolution be forwarded to the Hon'ble Khan Bahadur Aminul Islam for his information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Government of Bengal
(Ministry of Education),

J. N. ROY,
Secretary to the Government of Bengal.

**RESOLUTION ON THE REPORT ON THE WORKING OF THE ASANSOL MINES
BOARD OF HEALTH FOR THE YEAR 1922-23.**

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

RESOLUTION—No. 94T.-P.H.

DACCA, THE 22ND JULY 1923.

Minister in charge: The Hon'ble Sir S. N. Banarji, Kt.

READ—

The report on the working of the Asansol Mines Board of Health for the year 1922-23.

The Board, which was last reconstituted in November 1921, consists of 9 members, of whom 5 are nominated by Government, 3 by mine-owners, and one by royalty receivers. The District Magistrate of Burdwan is the *ex officio* Chairman.

Eight ordinary and 5 special meetings of the Board were held during the year.

2 The receipts of the Board from cess amounted to Rs. 93,492, of which Rs. 79,716 was collected from mine-owners and Rs. 13,776 from receivers of royalties. These cesses with an opening balance of Rs. 79,719 and miscellaneous receipts of Rs. 5,105 made up a total income of Rs. 1,78,316. The expenditure amounted to Rs. 1,02,055, leaving a closing balance of Rs. 76,261. The heavy closing balance is accounted for by the fact that the amount allotted under the head "Civil Works" for the construction of buildings was not exhausted during the year.

3. The year was remarkably healthy, and no serious outbreak of any epidemic disease occurred. Malaria was not much in evidence; there were only 332 cases of cholera with 173 deaths, against 1,200 cases with 583 deaths in the previous year, while small-pox cases numbered only 26 with no death as against 93 cases and 10 deaths of the preceding year. Vaccination and re-vaccination were performed in 19,923 cases against 21,978 in the preceding year.

The death rate was 18.49 and the birth rate 28.2 per mille against 22.0 and 24.3 respectively in the preceding year. It is satisfactory that during the last three years a steady increase has been maintained so far as excess of the number of recorded births over that of recorded deaths is concerned, as shown below:—

Year.			Births.	Deaths
1920-21	8,669	8,597
1921-22	7,995	7,255
1922-23	9,303	6,091

The rate of infantile mortality fell from 163 to 145 per thousand of births registered, and compares favourably with the provincial rate. The preparation of public health statistics will be facilitated by the registers regarding their labour force, which colliery managers have recently been required to open.

4. The report bears ample testimony to the fact that the Board are keenly alive to their responsibility in the matter of improvement of public

health in the mining settlement, and that they are ever ready to take measures to satisfy its sanitary requirements. For this purpose they not only maintain an adequate staff of officers, midwives and menials throughout the year, but they also employ special officers to carry on such work as anti-malarial investigation and inspection of school children. During the year under review the sanitary assistants of the Board delivered weekly lectures in primary schools on elementary hygiene and sanitation, while the Board's midwives paid house to house visits and gave simple instructions on the general principles of cleanliness and domestic hygiene to the women of the settlement. Efforts have been made with encouraging results to interest village panchayets within the area of the settlement in the elements of public health administration, such as the reporting of births and deaths, reporting the outbreak of epidemics, the reservation of water supplies and in vaccination.

5. The Minister for Local Self-Government desires to congratulate the Board on the efficient manner in which they have carried out their duties. In his view the work of the Board may well serve as an object lesson to other local authorities in their public health administration.

By order of the Government of Bengal

(Ministry of Local Self-Government),

S. W. GOODE,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Summer *Til* Crop of Bengal, 1923-24.

[NOTE.—On an average of the five years ending 1920-21, the area under *til* in Bengal has represented some 4·9 per cent. of the total area under *til* in British India.]

Character of the Season.—The rainfall in February left adequate moisture in the soil and was generally favourable for preparatory tillage. Later on drought and consequent lack of soil-moisture greatly affected germination and seriously interfered with the growth of the crop especially in the western districts. The rainfall in May and June benefited the late-sown crop to some extent, but was not sufficient to save the situation. On the whole the season has been unfavourable for the crop.

Acreage.—The total area sown this year with the crop is reported to be 113,300 acres as against 110,600 acres last year.

Outturn.—From the estimates furnished by the District Officers, the average outturn of the crop for the province works out at 65 per cent. of the normal this year against 59 per cent. last year. Taking the normal yield at $6\frac{1}{2}$ mannds per acre, the gross outturn for the province is estimated at 16,600 tons this year against 14,700 tons last year, or an increase of about 13 per cent.

The standard in subjects of Class I, except Mathematics, will be the Intermediate. The standard in Mathematics will be below the Intermediate as explained in Appendix I. The standard in the Optional subjects will be that of the B.A. (pass) of an Indian University. Candidates will be required to reach these standards in *each* of the four Obligatory subjects, but candidates who fail in only one Obligatory subject but make 6,000 marks or more in the aggregate will take their place in the list of qualified candidates according to the aggregate of the marks obtained.

3. *Place of examination.*—The examination will be conducted by the Educational Commissioner with the Government of India. The centre of examination for candidates from Bengal will be Calcutta.

4. *Examination fee.*—A fee of Rs. 5 is required from all candidates on submission of their application to the District Officer for nomination. The fee payable must be paid by means of postage stamps of the specified amount affixed to the application. A further fee of Rs. 60 is to be paid by candidates chosen for admission to the examination.

5. *Conditions of eligibility.*—Every candidate must be a British subject, and at the time of his birth his father must have been a natural-born British subject. The decision of the Government of India as to whether a candidate satisfies these conditions shall be final. Candidates must, *without exception on any ground*, be above 21 and under 24 years of age on the 1st August 1923.

Every candidate must possess a degree; but in special cases the Local Government may accept the Intermediate or Cambridge Senior qualification, provided in the opinion of the Local Government the candidates seem promising young men of sufficient general education and in all ways suitable for selection to the Indian Police.

Candidates must be of respectable antecedents and must submit references as to character and testimonials of good behaviour and of suitability for the Indian Police.

6. *Form of application.*—Application to compete at the examination must be made on a printed form to be obtained from the Chief Secretary to the Government of Bengal, Calcutta, or from any District Officer, and to be lodged with the necessary documents to the District Officer or Chairman, Calcutta Corporation (for candidates in Calcutta), not later than the 1st September 1923.

No applications received after that date can be considered.

7. *Canvassing.*—Any candidate attempting to canvas either by himself or through the agency of relatives, friends, patrons or officials will be disqualified.

8. *Medical examination.*—Those candidates who are successful in the literary examination will be required, shortly after the result of that examination is declared, to undergo a strict examination by Medical Board* in Calcutta as to their physique and capacity for active out-door work. Instructions as to the date and time of this examination will be issued by the Government of Bengal to successful candidates who will be required to pay a fee of Rs. 16 each for the examination.

9. *Appointment of probationers.*—The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks [provided that they obtain the minimum aggregate of 6,000 marks (*see* paragraph 2) and that they pass the medical examination and satisfy the requisite conditions in other respects].

10. *Riding.*—A knowledge of riding is not insisted on as an essential qualification before nomination. But probationers will be subjected to a riding test at the termination of their probationary period, failure to pass which will disqualify the candidate for confirmation in the service.

11. (a) *Uniform.*—It is an ordinary condition of appointment that a successful candidate shall provide himself, or be provided by his parents or guardians, with his uniform or the cost thereof. The Government of Bengal may make a contributory grant of Rs. 400 towards the cost of uniform.

(b) *Horse and saddlery.*—A successful candidate must, when required to do so by Government, provide himself with a suitable horse and saddlery at his own expense. The Government of Bengal will make to a newly-appointed officer a grant of a sum not exceeding Rs. 600 towards the cost of such horse and saddlery.

12. *Salary during probation.*—Probationers will receive initial pay of Rs. 325 a month. (*See* Appendix II.)

13. *Period of probation.*—Probationers will be required to qualify by passing the necessary departmental examinations [as well as the riding test (*see* rule 10) within two years of their selection].

14. *Liability of probationers to removal.*—Any probationer who may fail to pass the prescribed examinations within two years, or be found unfit for police duties, will be liable to removal from the service.

15. *Promotion after probation.*—No probationer will be eligible for promotion, either acting or substantive, until he has passed the prescribed departmental examinations, including the riding test.

* With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Police Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the points which are indicated in Appendix III.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment and that it is by no means intended to take the place of, or to influence in any way, the official examination.

NOTE.—Papers set for the Indian (Imperial) Police examination in India in previous years from 1911 are obtainable at a price of 8 annas per year from the Superintendent, Government Printing, India, Calcutta.

APPENDIX I.

COMPULSORY MATHEMATICS.

The course is as follows :—

- (1) *Arithmetic*.—The whole of Arithmetic. (The use of algebraical symbols and processes will be permitted.)
- (2) *Algebra*.—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protractor, a compass and a hard pencil.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

(Candidates will be provided with squared paper.)

SCHEDULE A.

- Bisections of angles and of straight lines.
- Construction of perpendiculars to straight lines.
- Construction of an angle equal to a given angle.
- Construction of parallels to a given straight line.
- Simple cases of the construction from sufficient data of triangles and quadrilaterals.
- Division of straight lines into a given number of equal parts or into parts in any given proportions.
- Construction of a triangle equal in area to a given polygon.
- Construction of tangents to a circle and of common tangents to two circles.
- Simple cases of the construction of circles from sufficient data.
- Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.
- Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.
- Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if—

- (i) a pair of alternate angles are equal, or
- (ii) a pair of corresponding angles are equal, or
- (iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles, then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and Rectilinear figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal ; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it ; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal ; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area. Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities :—

$$k(a + b + c + \dots) = ka + kb + kc + \dots$$

$$(a + b)^2 = a^2 + 2ab + b^2.$$

$$(a - b)^2 = a^2 - 2ab + b^2.$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord ; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (i) if two arcs subtend equal angles at the centres, they are equal ; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles or in the same circle), (i) if two chords are equal, they cut off equal arcs ; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre ; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal ; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary ; and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angle which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion : Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally ; and the converse.

If two triangles are equiangular, their corresponding sides are proportional ; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right angle triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

APPENDIX III.

EXTRACT FROM THE REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENTS UNDER THE GOVERNMENT OF INDIA.

[These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of state reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

N.B.—As regards candidates who have been wounded, a candidate who has lost one hand, fore-arm, or arm, or one leg below the knee, might be accepted, but the following classes of wounds must be regarded as disqualifications, viz., (1) Injury to head; (2) Loss of an eye; (3) Loss of leg above or through the knee.

General Physical Requirements.

I.—A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

II.—In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth:—

Age.	Height with shoes.	CHEST.	
		Girth, when expanded.	Range of expansion.
	Inches.	Inch.	Inch.
19 to 20 ...	62½ and under 65	35	2
	65 ditto 68	35	2
	68 ditto 70	35½	2
	70 ditto 72	36	2

	70 ditto 72	36½	2½
	72 and upwards	37	2½

III.—*Measurement of height.*—A minimum height of 5 ft. 4 ins. is imposed. The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without

* These appointments are not set apart exclusively for members of the Police Department, and the Government reserves discretion to fill them by the selection of any officers who are considered best fitted for them, whether in the department or outside it.

rigidity and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths.

IV.—*Measurement of chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached, it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded.

V.—The hearing must be good.

VI.—The speech without impediment.

VII.—The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VIII.—The chest must be well formed; the lungs and heart sound.

IX.—Rupture, hydrocele, varicocoele, varicose veins in a severe degree, or other condition likely to cause inefficiency, will disqualify a candidate, unless such condition is cured by operation.

X.—The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

XI.—A candidate must have no congenital malformation or defect likely to interfere with efficiency.

XII.—A candidate must not be the subject of chronic skin disease.

XIII.—Evidence of previous acute or chronic disease pointing to an impaired construction will disqualify.

Regulations as to Standard of Vision for the Indian Police Force.

1. Squint, or any morbid condition of the eyes or of the lids of either eye, liable to the risk of aggravation or recurrence, will cause the rejection of the candidate.

2. The examination for determining the acuteness of vision includes two tests; one for distant, the other for near, vision. Regulations.

1. The conduct of the examination is vested in the Committee of Legal Education (hereinafter referred to as the Committee) consisting of—

- (a) four Judges of the High Court to be nominated by the Chief Justice ;
- (b) the Advocate-General, Bengal ;
- (c) the Legal Remembrancers to the Governments of Bengal and Assam ;
- (d) the Senior Government Pleader in the High Court ; and
- (e) the Registrar, High Court (Appellate Side). The senior Judge of the High Court on the Committee will act as Chairman.

2. The Committee for the purpose of these regulations shall be assisted by a paid Secretary to be appointed by the Committee in consultation with Government.

3. Government will, from time to time, on the recommendation of the Committee, appoint Examiners in Law. Examiners shall ordinarily be selected from among gentlemen practising as advocates or vakils in the High Court, but the Committee may at its discretion recommend any other person whom it considers to be duly qualified.

4. The examination of candidates shall be held on such dates within the month of February or March in each year as shall be appointed and duly notified by the Committee.

5. The examination shall be held at Calcutta, Gauhati and Sylhet.

6. The examination shall be conducted in English, by written questions.

7. The questions shall be prepared by the Examiners and shall be so framed as to test the knowledge of the candidates in the subjects mentioned in the rules passed by the High Court for the qualification, admission and enrolment of Mukhtears in mufassal courts, and they shall be so drawn that a candidate may be able to pass by studying the regulations, enactments and text-books therein specified.

8. The number of marks to which each candidate shall be entitled for his answers to the questions shall be determined by the Examiners, subject to the control of the Committee.

9. No candidate will be allowed to take into the examination room any books, private memoranda or paper of any description, and any one detected in doing so will not be permitted to undergo examination. Any candidate found to be using unfair means while undergoing examination may be summarily ejected from the examination room, and refused admittance for the remaining portion of the examination.

All cases in which candidates use or attempt to use any unfair means in connection with the examination, or in which any person assists or attempts to assist any candidate by unfair means, shall be reported to the Committee. The Committee shall have power to pass any order which it may consider to be proper, including forfeiture of all benefit from any part of the examination already undergone, forfeiture of fees paid, and prohibition from appearance at the remaining portion of the examination, or at all or any future examinations.

10. When the examination shall have been concluded, the Committee shall submit to Government the names of those candidates who have passed, together with a report of their proceedings.

11. 12. Government will from time to time in consultation with the Committee, determine the amounts of the fees to be paid by candidates, and the emoluments to be received by the Secretary and the Examiners, and similar matters. On all points in which the interests of Government are affected, the Committee shall consult Government.

13. The Committee will from time to time determine the number of papers to be set, the number of questions to be comprised in each, the marks to be allotted to each paper, the marks required for a pass, and similar matters :

Provided that the amounts of the fees to be paid by candidates under rule 12, and the matters determined by the Committee specified in rule 13, shall be set out in the notification to be published under rule 4.

14. The examination of candidates for Mukhtearships held at Gauhati and Sylhet will be conducted, under the orders of the Committee of Legal Education, by a Superintendent to be appointed by the Government of Assam. Such Superintendent may be a judicial officer, or other officer of Government who may be available for the duty, provided that, as a general rule, District Judges and Subordinate Judges should not be so employed. NOTIFICATION.

Simla, the 26th July 1923.

No. 168.—The following Order in Council was published in the *London Gazette* on the 1st June 1923 and is hereby republished for information :

THE INDIA TREATY OF PEACE (HUNGARY) ORDER, 1923.

PRESENT :

THE KING'S MOST EXCELLENT MAJESTY.

Prime Minister.

Mr. Secretary Bridgeman.

Lord President.

Sir Frederick Ponsonby.

WHEREAS at Trianon on the fourth day of June, nineteen hundred and twenty, a Treaty of Peace (hereinafter referred to as "The Treaty") was signed on behalf of His Majesty :

AND WHEREAS by the Treaty of Peace (Hungary) Act, 1921, it was provided that His Majesty might make such appointments, establish such offices, make such Orders in Council and do such things as appeared to him to be necessary for carrying out the Treaty and for giving effect to any of the provisions of the Treaty, and that any Order in Council made under that Act might provide for the imposition by summary process or otherwise of penalties in respect of breaches of the provisions thereof :

AND WHEREAS the Treaty contained the Sections set out in the Schedule to this Order, and it is expedient that for giving effect thereto the provisions hereinafter contained should have effect :

AND WHEREAS by Treaty, grant, usage, sufferance or other lawful means His Majesty has powers and jurisdiction in territories and in regard to persons in India outside British India, and is pleased by virtue and in exercise of the powers vested in Him by the Foreign Jurisdiction Act, 1890, and all other powers enabling Him in this behalf to extend the provisions of this Order to such territories and persons :

NOW, THEREFORE, His Majesty, by and with the advice of His Privy Council, is pleased to order, and it is hereby ordered, as follows :—

1. The sections of the Treaty set out in the Schedule to this Order shall have full force and effect as law, and for the purpose of carrying out the said sections the following provisions shall have effect :—

- (i) There shall be established in India at such place as the Governor-General may determine a Local Clearing Office under the control and management of such person (hereinafter referred to as the Administrator) as the Governor-General in Council may appoint for the purpose and there shall be attached thereto such officers and servants on such salaries or other remuneration as the Governor-General in Council may determine.
- (ii) It shall not be lawful for any person to pay or accept payment of any enemy debt except in cases where recovery thereof in a court of law is allowed as hereinafter provided, otherwise than through or by leave of the Clearing Office established for the purpose of the Treaty in the United Kingdom or the Local Clearing Office established under this Order (which leave may be granted subject to such conditions including conditions as to the payment of fees, as the Clearing Office in the United Kingdom or the Local Clearing Office, as the case may be, may think fit to impose), and no person interested in any such debt as debtor or creditor shall have any communications with any other person interested therein as creditor or debtor except through or by leave of either of such offices. Any person contravening this provision shall on conviction be punished with imprisonment for a term which may extend to two years, or with fine, or with both :

Provided that—

- (a) in case of any company contravening this provision, every director, manager, Secretary or other officer of the company who is knowingly a party to the transaction shall be deemed guilty of the offence ;
- (b) a prosecution for such offence shall not be instituted except with the sanction of the Governor-General in Council.
- (iii) It shall not be lawful for any person to take proceedings in any court for the recovery of any enemy debt except in the circumstances provided under paragraphs 16, 23 and 25 of the Annex to Section III of Part X of the Treaty.
- (iv) The Local Clearing Office shall have power to enforce the payment of any enemy debt against the person by whom the debt is due, together with such interest as is payable under paragraph 22 of the Annex to the said section III and for that purpose shall have all such rights and powers as if it were the creditor ; and if the debt has been admitted by the debtor or the debt or amount thereof has been found by arbitration or by the Mixed Arbitral Tribunal or by a court of law in manner provided by paragraph 16 of the Annex to the said Section III, the Local Clearing Office may certify the amount so admitted or found due together with such interest as aforesaid and on application by it in the principal civil court of original jurisdiction of the place in which the debtor resides, the certificate shall be filed in such court and thereafter all proceedings may be taken thereon, as if the certificate were a decree obtained in that court for the recovery of a debt of the amount specified in the certificate and signed on the date of such filing, and all reasonable costs and charges attendant upon the filing of such certificate shall be recoverable in like manner as if they were part of such decree.
- (v) It shall be lawful for the Local Clearing Office to recover from any person by whom a fine is payable under paragraph 10 of the Annex to the said Section III the amount of such fine and for this purpose the Administrator may certify the amount of such fine and the person by whom it is due to the nearest Magistrate who shall have all power to recover the same as if it were a fine realisable under the Code of Criminal Procedure (Act V of 1898).
- (vi) If any creditor refuses or fails to give such notice or to furnish such documents or information as are mentioned in paragraph 5 of the Annex to the said Section III, he shall, on conviction before a Magistrate, be liable to a fine not exceeding one hundred rupees.
- (vii) If any person collusively gives notice of or admits any debt which is not due or furnishes any false information with respect to any debt, he shall on conviction before a Magistrate be punishable with imprisonment which may extend to three months, or with fine or with both.
- (viii) If His Majesty so agrees with any of the other Allied or Associated Powers, the provisions of this Order so far as they relate to enemy debts, shall apply to debts due to or from the nationals of that Power resident in any part of India in like manner as they apply to debts due to or from British nationals so resident.

(ix). All property, rights and interests within India belonging to nationals of the former Kingdom of Hungary at the date when the Treaty came into force (not being property, rights or interests acquired under any general license issued by or on behalf of His Majesty), and the net proceeds of their sale, liquidation or other dealings therewith, are hereby charged—

- (a) in the first place, with payment of the amounts due in respect of claims by British nationals other than British nationals ordinarily resident in the self-Governing Dominions and Egypt with regard to their property, rights and interests (including companies and associations in which they are interested) in the territories of the former Kingdom of Hungary, or debts owing to them by Hungarian nationals, and with payment of any compensation awarded by the Mixed Arbitral Tribunal, or by an Arbitrator appointed by that Tribunal in pursuance of paragraph (e) of Article 232 of the Treaty, and with payment of claims growing out of acts committed by the former Austro-Hungarian Government or by any Hungarian authorities since the twenty-eighth day of July, and before the twelfth day of August, nineteen hundred and fourteen, but so nevertheless that the amounts due in respect of such claims, debts or compensation to British nationals in India shall rank in priority to the amounts due to British nationals other than British nationals ordinarily resident in the self-governing Dominions, India and Egypt; and
- (b) secondly, with payments of the amounts due in respect of claims by British nationals in India with regard to their property, rights and interests in the territories of Germany, Austria, Bulgaria and Turkey, in so far as those claims are not otherwise satisfied:

Provided that any particular property, rights or interests so charged may at any time be released from the charge so created by order of the Governor-General in Council.

Provided further that where it is alleged that any property, right or interest is not subject to the said charge by reason of its belonging to a person who is not a national of the former Kingdom of Hungary within the meaning of this Order, the Administrator shall be entitled to make such charges as, subject to the consent of the Governor-General in Council, he may consider necessary to cover the costs incurred by him in investigating the allegation and in tracing and identifying the said property, right or interest.

(x). With a view to making effective and enforcing such charge as aforesaid:—

- (a) the Administrator shall have such powers and duties as are hereinafter provided;
- (b) no person shall, without the consent of the Administrator, acting under the general direction of the Governor-General in Council, transfer, part with or otherwise deal in any property, right or interest subject to the charge; any person who contravenes this provision shall, on conviction before a magistrate, be punishable with imprisonment which may extend to three months, or with fine, or with both;
- (c) every person owning or having the control or management of any property, right or interest in India subject to the charge (including where the property, right or interest consists of shares, stocks or other securities issued by a company, municipal authority or other body, or any right or interest therein such company, authority or body) shall, unless particulars thereof have already been furnished to the Custodian in accordance with the Indian Enemy Trading Acts, 1915-16, within two months from the date of the making of this Order by notice in writing communicate the fact to the Administrator and shall furnish the Administrator with such particulars in relation thereto as the Administrator may require, and if any person fails to do so or furnishes any false information he shall on conviction before a magistrate be liable to fine;
- (d) where the property charged consists of inscribed or registered stock, shares or other securities, any company, municipal authority or other body by whom the securities were issued or are managed shall on application being made by the Administrator, notwithstanding any regulation or stipulation of the company or other body, and notwithstanding that the Administrator is not in possession of the certificate, scrip or other document of title relating to the shares, stock or securities to which the application relates, enter the Administrator in the books in which the securities are inscribed or registered as the proprietor of the securities subject to the charge, and the Administrator shall, subject to the consent of the Governor-General in Council, have power to sell or otherwise deal with the securities as proprietor of which he is so registered or inscribed, and to require any person having in his possession any documents of title to any such stock, shares or other securities to deliver the same to him, and an acknowledgment of such delivery signed by him shall be a sufficient discharge to the person delivering the same;

- (e) where the property charged consists of property transferable on delivery, any person having the possession, control, or management of the property shall, on being so required by the Administrator deliver the property to him and the Administrator shall, subject to the consent of the Governor-General in Council, have power to sell or otherwise deal with the property so delivered to him ;
 - (f) where the property, right or interest subject to the charge consists of any sum of money due to a Hungarian national (not being an enemy debt within the meaning of article 231 of the Treaty) it shall be payable to the Administrator and shall be paid to him on demand, and the Administrator shall have power to enforce the payment thereof, and for that purpose shall have all such rights and powers as if he were the creditor ;
 - (g) a certificate by the Administrator that any property, right or interest is subject to the charge shall be sufficient evidence of the facts stated in the certificate and where any such application, requirement or demand of the Administrator as aforesaid is accompanied by such a certificate, the company, municipal authority or other body by whom the securities were issued or are managed, the person in possession of the property transferable by delivery, or the person by whom a sum of money is due, shall comply with the application, requirement or demand, and shall not be liable to any action or other legal proceeding in respect of such compliance, but if it is subsequently proved that the property, right or interest was not subject to the charge, the owner thereof shall be entitled to recover the same from the Administrator, or, if it has been sold, the proceeds of sale, but not to any other remedy ;
 - (h) the Governor-General in Council may by order vest in the Administrator any property, right or interest subject to the charge, or the right to transfer the same, and for that purpose sub-sections (1) to (4) of section 7 of the Indian Enemy Trading Act, 1916, shall, in relation to nationals of the former Kingdom of Hungary continue in force and shall apply as if property, rights and interests subject to the charge were property belonging to an enemy or enemy subject, and as if for references to the Custodian therein there were substituted references to the Administrator ;
 - (i) a Chief Presidency Magistrate or a District Magistrate may, on the application of the Administrator, require any person known or suspected to have in his possession or under his control any property right or interest subject to the charge (including any person known or suspected to owe a debt to a national of the former Kingdom of Hungary), or any person who claims that any property, right or interest belonging to him is not subject to the charge by reason of his not being a national of the former Kingdom of Hungary within the meaning of this order or any person whom he may consider capable of giving information with respect to the same to attend as a witness and to give evidence or produce documents before him or before such magistrate subordinate to him as he may appoint in this behalf. The Chief Presidency Magistrate or District Magistrate or other Magistrate so appointed shall, for the purpose of this sub-section, have all the powers of a criminal court under the Code of Criminal Procedure (Act V of 1898) ; and
 - (j) if any person called upon to pay any money or to transfer or otherwise deal with any property, rights or interests has reason to suspect that the same are subject to such charge as aforesaid he shall before paying, transferring or dealing with the same report the matter to the Administrator and shall comply with any directions that the Administrator may give with respect thereto.
- (xi) There shall be paid to the Administrator such surplus proceeds of property, rights and interests charged under section 1 (xvi) of the Indian Treaty of Peace Order, 1920, as may be allocated in accordance with section 1 (xvi) (b) of that Order to the payment of amount due in respect of claims by British nationals in India with regard to their property, rights and interest in the territories of the former Kingdom of Hungary.
- (xii) The Administrator shall, as respects property vested in or transferred to him under this Order, have all the rights and powers conferred upon or exercisable by an Official Assignee under the Presidency Towns Insolvency Act, III of 1909, whether with or without the permission of a committee of inspection or the leave of the court, and wherever the property is situate.
- (xiii) The Administrator shall apply the sums received by him in satisfaction of the claims, debts and compensation mentioned in sub-section (ix) of this section.

- (xiv) The Governor-General in Council may, by notification in the Gazette of India, make rules for all matters incidental to, or consequential on, the provisions of this Order and may by such rules prescribe forms for carrying into effect its provisions and prescribe the time (not being less than six months after the coming into force of the Treaty) within which proofs of claims in order to rank must be made and the manner of making and proving the same.
- (xv) The Local Clearing Office, out of the moneys collected by it and the Administrator, out of the property, rights, interests or proceeds thereof vested in or collected or received by him under this Order, shall retain such sums as, subject to the consent of the Governor-General in Council, the Local Clearing Office or Administrator may consider necessary to cover risks, expenses and commissions.
- (xvi) Proceedings by and on behalf of the Local Clearing Office and proceedings by the Administrator may be taken by and in the name of the Administrator, who may by the name of the Administrator (India) of Hungarian Property sue and be sued and costs may be awarded to or against the Administrator.
- (xvii) Every document purporting to be an order or other instrument issued by the Local Clearing Office and to be signed by the Administrator or other person authorized by the Administrator and every document purporting to be an order or other instrument issued by the Administrator and to be signed by him or other person authorized by him shall be received in evidence and shall be deemed to be such order or instrument without further proof unless the contrary is shown, and in any proceeding by the Local Clearing Office, or by the Administrator to recover a debt or fine, a report purporting to be signed by the Administrator or other person authorized by him shall be evidence of the facts therein stated.
- (xviii) A certificate signed by the Administrator that an order or other instrument purporting to be made or issued by the Local Clearing Office or by the Administrator is so made or issued shall be conclusive evidence of the facts so certified.
- (xix) The Administrator should be deemed to be a public officer and any documents forming part of the acts of the Local Clearing Office or the Administrator, shall be deemed to be public documents for the purpose of Chapter V of the Indian Evidence Act, 1872.
- (xx) All decisions of the Mixed Arbitral Tribunal constituted under section VI of Part X of the Treaty, if within the jurisdiction of that tribunal, shall be final and conclusive and binding on all courts.
- (xxi) For the purpose of enforcing the attendance of witnesses before the Mixed Arbitral Tribunal, wherever sitting, whether within or without His Majesty's Dominions, and compelling the production before the tribunal of documents a Secretary of the Government of India shall have power to issue orders which shall have the like effect as if the proceedings before the tribunal were a suit in a court and on the order were a formal process issued by that court in the due exercise of its jurisdiction, and shall be enforceable by that court accordingly, and disobedience to any such order shall be punishable under the Indian Penal Code (Act XLV of 1860).
- (xxii) The time at which the period of prescription or limitation of right of action referred to in Article 235 of the Treaty shall begin again to run shall be at the expiration of six months after the coming into force of the Treaty, and the period to be allowed within which presentation of negotiable instruments for acceptance or payment and notice of non-acceptance or non-payment or protest may be made under Article 236 shall be the period ending the ninth day of February, 1924.

- (xxv) Articles 242 and 243 of the Treaty shall not be deemed to confer rights within His Majesty's dominions on the nationals of any High Contracting Party other than Hungarian Nationals, and so far as may be necessary for the purpose of Article 242 of the Treaty, the Indian Patents and Designs (Temporary Rules) Act, 1915 (except Section 2 of that Act) shall in relation to Hungarian nationals continue in force, and shall be deemed as from the date when the Treaty came into force to have continued in force, as if references therein to subjects of a State at war with His Majesty included references to Hungarian nationals.
- (xxvi) The duly qualified tribunal for the purposes of Article 245 of the Treaty shall be the Controller of Patents and Designs appointed under the Indian Patents and Designs Act, 1911.
- (xxvii) The notices to be given by creditors resident in India under paragraph 5 of the Annex to Section III of Part X of the Treaty shall be given together with the particulars required by that paragraph to the Administrator.

2. For the purposes of the foregoing provisions of this Order but not including the Schedule therein referred to—

The expression "enemy debt" has the meaning assigned to it by paragraph 2 of the Annex to Section III of Part X of the Treaty, and includes any sum which under the Treaty is to be treated or dealt with in like manner as an enemy debt.

The expression "nationals" in relation to any State includes the Sovereign or former Sovereign and the subjects or citizens of that State and any company or corporation incorporated therein according to the law of that State and in the case of a Protectorate the natives thereof.

The expression "British nationals in India" includes any person who, being a British national, resides or carries on business in India and any subject of a State in India.

The expression "nationals of the former Kingdom of Hungary" does not include persons who, within eighteen months of the coming into force of the Treaty show to the satisfaction of the Administrator that they have acquired *ipso facto* in accordance with its provisions the nationality of an Allied or Associated Power including those who under Article 62 of the Treaty obtained such nationality with the consent of the competent authorities, or who acquired such nationality by virtue of previous rights of citizenship.

The Interpretation Act, 1889, applies for the interpretation of this Order in like manner as it applies for the interpretation of an Act of Parliament, and as if this Order were an Act of Parliament.

Schedule.

Sections III to VII of Part X of the Treaty.

SECTION III.

DEBTS.

ARTICLE 231.

There shall be settled through the intervention of Clearing Offices to be established by each of the High Contracting Parties within three months of the notification referred to in paragraph (e) hereafter the following classes of pecuniary obligations:

(1) Debts payable before the war and due by a national of one of the Contracting Powers, residing within its territory, to a national of an Opposing Power, residing within its territory;

(2) Debts which became payable during the war to nationals of one Contracting Power residing within its territory and arose out of transactions or contracts with the national of an Opposing Power, resident within its territory, of which the total or partial execution was suspended on account of the existence of a state of war;

(3) Interest which has accrued due before and during the war to a national of one of the Contracting Powers in respect of securities issued or taken over by an Opposing Power, provided that the payment of interest on such securities to the nationals of that Power or to neutrals has not been suspended during the war;

(4) Capital sums which have become payable before and during the war to nationals of one of the Contracting Powers in respect of securities issued by one of the Opposing Powers, provided that the payment of such capital sums to nationals of that Power or to nationals has not been suspended during the war.

In the case of interest or capital sums payable in respect of securities issued or taken over by the former Austro-Hungarian Government the amount to be credited and paid by Hungary will be the interest of capital in respect only of the debt for which Hungary is liable in accordance with Part IX (Financial Clauses) of the present Treaty, and the principles laid down by the Reparation Commission.

The proceeds of liquidation of enemy property, rights and interests mentioned in Section IV and in the Annex thereto will be accounted for through the Clearing Offices, in the currency and at the rate of exchange hereinafter provided in paragraph (d), and disposed of by them under the conditions provided by the said Section and Annex.

The settlements provided for in this Article shall be effected according to the following principles and in accordance with the Annex to this Section :

(a) Each of the High Contracting Parties shall prohibit, as from the coming into force of the present Treaty, both the payment and the acceptance of payment of such debts, and also all communications between the interested parties with regard to the settlement of the said debts otherwise than through the Clearing Offices ;

(b) Each of the High Contracting Parties shall be respectively responsible for the payment of such debts due by its nationals except in the cases where before the war the debtor was in a state of bankruptcy or failure, or had given formal indication of insolvency, or where the debt was due by a company whose business has been liquidated under emergency legislation during the war ;

(c) The sums due to the nationals of one of the High Contracting Parties by the nationals of an Opposing State will be debited to the Clearing Office of the country of the debtor, and paid to the creditor by the Clearing Office of the country of the creditor ;

• (d) Debts shall be paid or credited in the currency of such one of the Allied and Associated Powers, their colonies or protectorates, or the British Dominions or India, as may be concerned. If the debts are payable in some other currency they shall be paid or credited in the currency of the country concerned, whether an Allied or Associated Power, Colony, Protectorate, British Dominion or India, at the pre-war rate of exchange.

For the purpose of this provision the pre-war rate of exchange shall be defined as the average cable transfer rate prevailing in the Allied or Associated country concerned during the month immediately preceding the outbreak of war between the said country concerned and Austria-Hungary.

If a contract provides for a fixed rate of exchange governing the conversion of the currency in which the debt is stated into the currency of the Allied or Associated country concerned, then the above provisions concerning the rate of exchange shall not apply.

In the case of the new State of Poland and the Czecho-Slovak State, the currency in which and the rate of exchange at which debts shall be paid or credited shall be determined by the Reparation Commission provided for in Part VIII, unless they shall have been previously settled by agreement between the States interested ;

(e) The provisions of this article and of the Annex hereto shall not apply as between Hungary on the one hand and any one of the Allied and Associated Powers, their colonies, or protectorates, or any one of the British Dominions or India on the other hand, unless within a period of one month from the deposit of the ratification of the present Treaty by the Power in question, or of the ratification on behalf of such Dominion or of India, notice to that effect is given to Hungary by the Government of such Allied or Associated Power or of such Dominion or of India as the case may be ;

(f) The Allied and Associated Powers which have adopted this Article and the Annex hereto may agree between themselves to apply them to their respective nationals established in their territory so far as regards matters between their nationals and Hungarian nationals. In this case the payments made by application of this provision will be subject to arrangements between the Allied and Associated Clearing Offices concerned.

ANNEX.

1.

Each of the High Contracting Parties will, within three months from the notification provided for in Article 231, paragraph (e), establish a Clearing Office for the collection and payment of enemy debts.

Local Clearing Offices may be established for any particular portion of the territories of the High Contracting Parties. Such Local Clearing Offices may perform all the functions of a central Clearing Office in their respective districts, except that all transactions with the Clearing Office in the Opposing State must be effected through the central Clearing Office.

2.

In this Annex the pecuniary obligations referred to in the first paragraph of Article 231 are described as "enemy debts," the persons from whom the same are due as "enemy debtors," the persons to whom they are due as "enemy creditors," the Clearing Office in the country of the creditor is called the "Creditor Clearing Office," and the Clearing Office in the country of the debtor is called the "Debtor Clearing Office."

The High Contracting Parties will subject contraventions of paragraph (a) of Article 231 to the same penalties as are at present provided by their legislation for trading with the enemy. These who have not prohibited trading with the enemy will enact provisions punishing the abovementioned contraventions with severe penalties. The High Contracting Parties will similarly prohibit within their territory all legal process relating to payment of enemy debts, except in accordance with the provisions of this Annex.

4.

The Government guarantee specified in paragraph (b) of Article 231 shall take effect whenever, for any reason, a debt shall not be recoverable, except in a case where at the date of the outbreak of war the debt was barred by the laws of prescription in force in the country of the debtor, or where the debtor was at that time in a state of bankruptcy or failure or had given formal indication of insolvency, or where the debt was due by a company whose business has been liquidated under emergency legislation during the war. In such case the procedure specified by this Annex shall apply to payment of the dividends.

The terms "bankruptcy" and "failure" refer to the application of legislation providing for such judicial conditions. The expression "formal indication of insolvency" bears the same meaning as it has in English law.

5.

Creditors shall give notice to the Creditor Clearing Office within six months of its establishment of debts due to them, and shall furnish the Clearing Office with any documents and information required of them.

The High Contracting Parties will take all suitable measures to trace and punish collusion between enemy creditors and debtors. The Clearing Offices will communicate to one another any evidence and information which might help the discovery and punishment of such collusion.

The High Contracting Parties will facilitate as much as possible postal and telegraphic communication at the expense of the parties concerned and through the intervention of the Clearing Offices between debtors and creditors desirous of coming to an agreement as to the amount of their debt.

The Creditor Clearing Office will notify the Debtor Clearing Office of all debts declared to it. The Debtor Clearing Office will, in due course, inform the Creditor Clearing Office which debts are admitted and which debts are contested. In the latter case, the Debtor Clearing Office will give the grounds for the non-admission of debt.

When a debt has been admitted in whole or in part, the Debtor Clearing Office will at once credit the Creditor Clearing Office with the amount admitted, and at the same time notify it of such credit.

7.

The debt shall be deemed to be admitted in full and shall be credited forthwith to the Creditor Clearing Office unless within three months from the receipt of the notification or such longer time as may be agreed to by the Creditor Clearing Office notice has been given by the Debtor Clearing Office that it is not admitted.

8.

When the whole or part of a debt is not admitted the two Clearing Offices will examine into the matter jointly and will endeavour to bring the parties to an agreement.

9.

The Creditor Clearing Office will pay to the individual creditor the sums credited to it out of the funds placed at its disposal by the Government of its country and in accordance with the conditions fixed by the said Government, retaining any sum considered necessary to cover risks, expenses or commissions.

10.

Any person having claimed payment of an enemy debt which is not admitted in whole or in part shall pay to the Clearing Office, by way of fine, interest at 5 per cent., on the part not admitted. Any person having unduly refused to admit the whole or part of a debt claimed from him shall pay, by way of fine, interest at 5 per cent., on the amount with regard to which his refusal shall be disallowed.

Such interest shall run from the date of expiration of the period provided for in paragraph 7 until the date on which the claim shall have been disallowed or the debt paid.

Each Clearing Office shall in so far as it is concerned take steps to collect the fines above provided for, and will be responsible if such fines cannot be collected.

The fines will be credited to the other Clearing Office, which shall retain them as a contribution towards the cost of carrying out the present provisions.

11.

The balance between the Clearing Offices shall be struck every three months and the credit balance paid in cash by the debtor State within one month.

Nevertheless, any credit balances which may be due by one or more of the Allied and Associated Powers shall be retained until complete payment shall have been effected of the sums due to the Allied or Associated Powers or their nationals on account of the war.

12.

To facilitate discussion between the Clearing Offices each of them shall have a representative at the place where the other is established.

13.

Except for special reasons all discussions in regard to claims will, so far as possible, take place at the Debtor Clearing Office.

14.

In conformity with Article 231, paragraph (b), the High Contracting Parties are responsible for the payment of the enemy debts owing by their nationals.

The Debtor Clearing Office will therefore credit the Credit Clearing Office with all debts admitted, even in case of inability to collect them from the individual debtor. The Governments concerned will, nevertheless, invest their respective Clearing Offices with all necessary powers for the recovery of debts which have been admitted.

15.

Each Government will defray the expenses of the Clearing Office set up in its territory, including the salaries of the staff.

16.

Where the two Clearing Offices are unable to agree whether a debt claimed is due, or in case of a difference between an enemy debtor and an enemy creditor or between the Clearing Offices, the dispute shall either be referred to arbitration if the parties so agree under conditions fixed by agreement between them, or referred to the mixed Arbitral Tribunal provided for in Section VI hereafter.

At the request of the Creditor Clearing Office the dispute may, however, be submitted to the jurisdiction of the Courts of the place of domicile of the debtor.

17.

Recovery of sums found by the Mixed Arbitral Tribunal, the Court, or the Arbitration Tribunal to be due shall be effected through the Clearing Offices as if these sums were debts admitted by the Debtor Clearing Office.

18.

Each of the Governments concerned shall appoint an agent who will be responsible for presentation to the Mixed Arbitral Tribunal of the cases conducted on behalf of its Clearing Office. This agent will exercise a general control over the representatives or counsel employed by its nationals.

Decisions will be arrived at on documentary evidence, but it will be open to the Tribunal to hear the parties in person, or according to their preference by their representatives approved by the two Governments, or by the agent referred to above, who shall be competent to intervene along with the party or to re-open and maintain a claim abandoned by the same.

19.

The Clearing Offices concerned will lay before the Mixed Arbitral Tribunal all the information and documents in their possession, so as to enable the Tribunal to decide rapidly on the cases which are brought before it.

20.

Where one of the parties concerned appeals against the joint decision of the two Clearing Offices he shall make a deposit against the costs, which deposit shall only be refunded when the first judgment is modified in favour of the appellant and in proportion to the success he may attain, his opponent in case of such a refund being required to pay an equivalent proportion of the costs and expenses. Security accepted by the Tribunal may be substituted for a deposit.

A fee of 5 per cent. of the amount in dispute shall be charged in respect of all cases brought before the Tribunal. This fee shall, unless the Tribunal directs otherwise, be borne by the unsuccessful party. Such fee shall be added to the deposit referred to. It is also independent of the security.

The Tribunal may award to one of the parties a sum in respect of the expenses of the proceedings.

Any sum payable under this paragraph shall be credited to the Clearing Office of the successful party as a separate item.

21.

With a view to the rapid settlement of claims, due regard shall be paid in the appointment of all persons connected with the Clearing Offices or with the Mixed Arbitral Tribunal to their knowledge of the language of the other country concerned.

Each of the Clearing Offices will be at liberty to correspond with the other and to forward documents in its own language.

22.

Subject to any special agreement to the contrary between the Governments concerned debts shall carry interest in accordance with the following provisions :

Interest shall not be payable on sums of money due by way of dividend, interest, or other periodical payments which themselves represent interest on capital.

The rate of interest shall be 5 per cent. per annum, except in cases where, by contract, law or custom, the creditor is entitled to payment of interest at a different rate. In such cases the rate to which he is entitled shall prevail.

Interest shall run from the date of commencement of hostilities (or, if the sum of money to be recovered fell due during the war, from the date at which it fell due) until the sum is credited to the Clearing Office of the creditor.

Sums due by way of interest shall be treated as debts admitted by the Clearing Offices and shall be credited to the Creditor Clearing Office in the same way as such debts.

23.

Where by decision of the Clearing Offices or the Mixed Arbitral Tribunal a claim is held not to fall within Article 231, the creditor shall be at liberty to prosecute the claim before the Courts or to take such other proceedings as may be open to him.

The presentation of a claim to the Clearing Office suspends the operation of any period of prescription.

24.

The High Contracting Parties agree to regard the decisions of the Mixed Arbitral Tribunal as final and conclusive, and to render them binding upon their nationals.

25.

In any case where a Creditor Clearing Office declines to notify a claim to the Debtor Clearing Office, or to take any step provided for in this Annex intended to make effective in whole or in part a request of which it has received due notice, the enemy creditor shall be entitled to receive from the Clearing Office a certificate setting out the amount of the claim, and shall then be entitled to prosecute the claim before the Courts or to take such other proceedings as may be open to him.

SECTION IV.**PROPERTY, RIGHTS AND INTERESTS.****ARTICLE 232.**

1. The question of private property, rights and interests in an enemy country shall be settled according to the principles laid down in this Section and to the provisions of the Annex hereto.

(a) The exceptional war measures and measures of transfer (defined in paragraph 3 of the Annex hereto) taken in the territory of the former Kingdom of Hungary with respect to the property, rights and interests of nationals of Allied or Associated Powers, including companies and associations in which they are interested, when liquidation has not been completed, shall be immediately discontinued or stayed and the property, rights and interests concerned restored to their owners.

(b) Subject to any contrary stipulations which may be provided for in the present Treaty, the Allied and Associated Powers reserve the right to retain and liquidate all property, rights and interests which belong at the date of the coming into force of the present Treaty to nationals of the former Kingdom of Hungary or companies controlled by them, and are within the territories, colonies, possessions and protectorates of such Powers (including territories ceded to them by the present Treaty) or which are under the control of those Powers.

The liquidation shall be carried out in accordance with the laws of the Allied or Associated State concerned and the owner shall not be able to dispose of such property, rights or interests nor to subject them to any charge without the consent of that State.

Persons who within six months of the coming into force of the present Treaty show that they have acquired *ipso facto* in accordance with its provisions the nationality of an Allied or Associated Power, including those who under Article 62 obtain such nationality with the consent of the competent authorities or in virtue of previous rights of citizenship (*perlinenza*), will not be considered as nationals of the former Kingdom of Hungary within the meaning of this paragraph.

(c) The price or the amount of compensation in respect of the exercise of the right referred to in paragraph (b) will be fixed in accordance with the methods of sale or valuation adopted by the laws of the country in which the property has been retained or liquidated.

(d) As between the Allied and Associated Powers and their nationals on the one hand and nationals of the former Kingdom of Hungary on the other hand, as also between Hungary on the one hand and the Allied and Associated Powers and their nationals on the other hand, all the exceptional war measures, or measures of transfer, or acts done or to be done in execution of such measures as defined in paragraphs 1 and 3 of the Annex hereto shall be considered as final and binding upon all persons except as regards the reservations laid down in the present Treaty.

(e) The nationals of Allied and Associated powers shall be entitled to compensation in respect of damage or injury inflicted upon their property, rights or interests, including any company or association in which they are interested in the territory of the former Kingdom of Hungary, by the application either of the exceptional war measures or measures of transfer mentioned in paragraphs 1 and 3 of the Annex hereto. The claims made in this respect by such nationals shall be investigated, and the total of the compensation shall be determined by the Mixed Arbitral Tribunal provided for in Section VI or by an arbitrator appointed by that Tribunal. This compensation shall be borne by Hungary, and may be charged upon the property of nationals of the former Kingdom of Hungary, or companies controlled by them, as defined in paragraph (b), within the territory or under the control of the claimant's State. This property may be constituted as a pledge for enemy liabilities under the conditions fixed by paragraph 4 of the Annex hereto. The payment of this compensation may be made by the Allied or Associated State, and the amount will be debited to Hungary.

(f) Whenever a national of an Allied or Associated Power is entitled to property which has been subjected to a measure of transfer in the territory of the former Kingdom of Hungary and expresses a desire for its restitution, his claim for compensation in accordance with paragraph (e) shall be satisfied by the restitution of the said property if it still exists in specie.

In such case Hungary shall take all necessary steps to restore the evicted owner to the possession of the property, free from all encumbrances or burdens with which it may have been charged after the liquidation, and to indemnify all third parties injured by the restitution.

If the restitution provided for in this paragraph cannot be effected, private agreements arranged by the intermediation of the powers concerned or the Clearing Offices provided for in the Annex to section III may be made, in order to secure that the national of the Allied or Associated Power may secure compensation for the injury referred to in paragraph (e) by the grant of advantages or equivalents which he agrees to accept in place of the property, rights or interests of which he was deprived.

Through restitution in accordance with this Article, the price or the amount of compensation fixed by the application of paragraph (e) will be reduced by the actual value of the property restored, account being taken of compensation in respect of loss of use or deterioration.

(g) The rights conferred by paragraph (f) are reserved to owners who are nationals of Allied or Associated Powers within whose territory legislative measures prescribing the general liquidation of enemy property, rights or interests were not applied before the signature of the Armistice.

(h) Except in cases where, by application of paragraph (f), restitutions in specie have been made, the net proceeds of sales of enemy property, rights or interests wherever situated carried out either by virtue of war legislation, or by application of this Article, and in general all cash assets of enemies, other than proceeds of sales of property or cash assets in Allied or Associated countries belonging to persons covered by the last sentence of paragraph (b) above shall be dealt with as follows:—

(1) As regards Powers adopting Section III and the Annex thereto, the said proceeds and cash assets shall be credited to the Power of which the owner is a national, through the Clearing Office established thereunder; any credit balance in favour of Hungary resulting therefrom shall be dealt with as provided in Article 173, Part VIII (Reparation), of the present Treaty.

(2) As regards Powers not adopting Section III and the Annex thereto, the proceeds of the property, rights and interests, and the cash assets, of the nationals of Allied or Associated Powers held by Hungary shall be paid immediately to the person entitled thereto or to his Government; the proceeds of the property, rights and interests, and the cash assets, of nationals of the former Kingdom of Hungary, or companies controlled by them, as defined in paragraph (b), received by an Allied or Associated power shall be subject to disposal by such Power in accordance with its laws and regulations and may be applied in payment of the claims and debts defined by this Article or paragraph 4 of the Annex hereto. Any such property, rights and interests or proceeds thereof or cash assets not used as above provided may be retained by the said Allied or Associated Power, and if retained, the cash value thereof shall be dealt with as provided in Article 173, Part VII (Reparation), of the present Treaty.

(i) Subject to the provisions of Article 250, in the case of liquidations effected in new States, which are signatories, of the present Treaty as Allied and Associated Powers or States which are not entitled to share in the reparation payments to be made by Hungary, the proceeds of liquidations effected by such States shall, subject to the rights of the Reparation Commission under the present Treaty, particularly under Article 165, Part VIII (Reparation), and 194, Part IX (Financial Clauses), be paid direct to the owner. If, on the application of that owner, the Mixed Arbitral Tribunal provided for by Section VI of this Part, or an arbitrator appointed by that Tribunal, is satisfied that the conditions of the sale or measures taken by the Government of the State in question outside its general legislation were unfairly prejudicial to the price obtained, they shall have discretion to award to the owner equitable compensation to be paid by that State.

(j) Hungary undertakes to compensate her nationals in respect of the sale or retention of their property, rights or interests in Allied or Associated States.

(k) The amount of all taxes or imposts on capital levied or to be levied by Hungary on the property, rights and interests of the nationals of the Allied or Associated Powers from November 3, 1918, until three months from the coming into force of the present Treaty, or, in the case of property, rights or interests which have been subjected to exceptional measures of war, until restitution in accordance with the present Treaty, shall be restored to the owners.

II. Subject to the preceding provisions, all measures other than those above referred to taken by the *de jure* or *de facto* authorities in the territory of the former Kingdom of Hungary between November 3, 1918, and the coming into force of the present Treaty, and causing injury to the property, rights and interests of the Allied and Associated Powers or their nationals, including companies and associations in which they were interested, are declared null and void.

The provisions of paragraphs (a), (c), (f), (h) and (k) above apply to property, rights and interests which belong to nationals of the Allied and Associated Powers, including companies and associations in which they were interested, and which have been the subject of injurious measures such as expropriation, confiscation, seizure, requisition, destruction or deterioration effected as the result either of laws or regulations or of acts of violence on the part of the *de jure* or *de facto* authorities which have existed in Hungary, or of the Hungarian population.

III. Companies and associations include in particular the Orthodox Greek communities established in Buda-Pesth and other Hungarian towns, as well as pious and other foundations, when nationals of the Allied and Associated Powers are interested in such communities or foundations.

IV. No forfeiture on account of failure to complete any formality or make any declaration imposed by Hungarian laws or decrees promulgated since the Armistice and before the coming into force of the present Treaty shall be valid as against nationals of the Allied and Associated Powers, including companies and associations in which they were interested.

ARTICLE 233.

Hungary undertakes, with regard to the property, rights and interests, including companies and associations in which they were interested, resorted to nationals of Allied and Associated Powers in accordance with the provisions of Article 232;

(a) to restore and maintain, except as expressly provided in the present Treaty, the property, rights and interests of the nationals of Allied or Associated Powers in the legal position obtaining in respect of the property, rights and interests of nationals of the former Kingdom of Hungary under the laws in force before the war;

(b) not to subject the property, rights or interests of the nationals of the Allied or Associated Powers to any measures in derogation of property rights which are not applied equally to the property, rights and interests of Hungarian nationals, and to pay adequate compensation in the event of the application of these measures.

ANNEX.

1.

In accordance with the provisions of Article 232, paragraph (d), the validity of vesting orders and of orders for the winding up of business or companies, and of any other

orders, directions, decisions or instructions of any court or any department of the Government of any of the High Contracting Parties made or given, or purporting to be made or given, in pursuance of war legislation with regard to enemy property, rights and interests is confirmed. The interests of all persons shall be regarded as having been effectively dealt with by any order, direction, decision or instruction dealing with property in which they may be interested, whether or not such interests are specifically mentioned in the order, direction, decision or instruction. No question shall be raised as to the regularity of a transfer of any property, rights or interests dealt with in pursuance of any such order, direction, decision or instruction. Every action taken with regard to any property, business or company, whether as regards its investigation, sequestration, compulsory administration, use, requisition, supervision or winding up, the sale or management of property, rights or interests, the collection or discharge of debts, the payment of costs, charges or expenses, or any other matter whatsoever, in pursuance of orders, directions, decisions or instructions of any court or of any department of the Government of any of the High Contracting Parties, made or given, or purporting to be made or given, in pursuance of war legislation with regard to enemy property, rights or interests, is confirmed. Provided that the provisions of this paragraph shall not be held to prejudice the titles to property heretofore acquired in good faith and for value and in accordance with the laws of the country in which the property is situated by nationals of the Allied and Associated Powers.

The provisions of this paragraph do not apply to such of the abovementioned measures as have been taken by the former Austro-Hungarian Government in invaded or occupied territory, nor to such of the abovementioned measures as have been taken by Hungary or the Hungarian authorities since November 3, 1918, all of which measures shall be void.

2.

No claim of action shall be made or brought against any Allied or Associated Power or against any person acting on behalf of or under the direction of any legal authority or department of the Government of such a Power by Hungary or by any Hungarian national or by or on behalf of any national of the former Kingdom of Hungary wherever resident in respect of any act or omission with regard to his property, rights or interests during the war or in preparation for the war. Similarly no claim or action shall be made or brought against any person in respect of any act or omission under or in accordance with the exceptional war measures, laws or regulations of any Allied or Associated Power.

3.

In Article 232 and this Annex the expression "exceptional war measures" includes measures of all kinds, legislative, administrative, judicial or other, that have been taken or will be taken hereafter with regard to enemy property, and which have had or will have the effect of removing from the proprietors the power of disposition over their property, though without affecting the ownership, such as measures of supervision, of compulsory administration, and of sequestration; or measures which have had or will have as an object the seizure of, the use of, or the interference with enemy assets, for whatsoever motive under whatsoever form or in whatsoever place. Acts in the execution of these measures include all detentions, instructions, orders or decrees of Government departments or courts applying these measures to enemy property, as well as acts performed by any person connected with the administration or the supervision of enemy property, such as the payment of debts, the collecting or credits, the payment of any costs, charges or expenses, or the collecting of fees.

Measures of transfer are those which have affected or will affect the ownership of enemy property by transferring it in whole or in part to a person other than the enemy owner, and without his consent, such as measures directing the sale, liquidation or devolution of ownership in enemy property, or the cancelling of titles or securities.

All property, rights and interests of nationals of the former Kingdom of Hungary within the territory of any Allied or Associated Power and the net proceeds of their sale, liquidation or other dealing therewith may be charged by that Allied or Associated Power in the first place with payment of amounts due in respect of claims by the nationals of that Allied or Associated Power with regard to their property, rights and interests, including companies and associations in which they are interested, in territory of the former Kingdom of Hungary or debts owing to them by Hungarian nationals, and with payment of claims growing out of acts committed by the former Austro-Hungarian Government or by any Hungarian authorities since July 28, 1914, and before that Allied or Associated Power entered into the war. The amount of such claims may be assessed by an arbitrator appointed by M. Gustave Ador, if he is willing, or if no such appointment is made by him, by an arbitrator appointed by the Mixed Arbitral Tribunal provided for in Section VI. They may be charged in the second place with payment of the amounts due in respect of claims by the nationals of such Allied or Associated Power with regard to their property, rights and interests in the territory of other enemy Powers, in so far as those claims are otherwise unsatisfied.

5.

Notwithstanding the provisions of article 232, where immediately before the outbreak of war a company incorporated in an Allied or Associated State had rights in common with a company controlled by it and incorporated in Hungary to the use of trade-marks in third countries, or enjoyed the use in common with such company of unique means of reproduction of goods or articles for sale in third countries, the former company shall alone have the right to use these trade-marks in third countries to the exclusion of the Hungarian company, and these unique means of reproduction shall be handed over to the former company, notwithstanding any action taken under war legislation in force in the Austro-Hungarian Monarchy with regard to the latter company or its business, industrial property or shares. Nevertheless the former company, if requested, shall deliver to the latter company derivative copies permitting the continuation of production of articles for use in Hungary.

6.

Up to the time when restitution is carried out in accordance with Article 232, Hungary is responsible for the conservation of property, rights and interests of the nationals of Allied or Associated Powers, including companies and associations in which they are interested, that have been subjected by her to exceptional war measures.

7.

Within one year from the coming into force of the present Treaty the Allied or Associated Powers will specify the property, rights and interests over which they intend to exercise the right provided in Article 232, paragraph (f).

8.

The restitution provided in Article 232 will be carried out by order of the Hungarian Government or of the authorities which have been substituted for it. Detailed accounts of the action of administrators shall be furnished to the interested persons by the Hungarian authorities upon request, which may be made at any time after the coming into force of the present Treaty.

9.

Until completion of the liquidation provided for by article 232, paragraph (b), the property, rights and interests of the persons referred to in that paragraph will continue to be subject to exceptional war measures that have been or will be taken with regard to them.

10.

Hungary will, within six months from the coming into force of the present Treaty, deliver to each Allied or Associated Power all securities, certificates, deeds or other documents of title held by its nationals and relating to property, rights or interests situated in the territory of that Allied or Associated Power, including any shares, stock, debentures, debenture stock or other obligations of any company incorporated in accordance with the laws of that Power.

Hungary will at any time on demand of any Allied or Associated Power furnish such information as may be required with regard to the property, rights and interests of Hungarian nationals within the territory of such Allied or Associated Power, or with regard to any transactions concerning such property, rights or interests effected since July 1, 1914.

11.

The expression "cash assets" includes all deposits or funds established before or after the existence of a state of war, as well as all assets coming from deposits, revenues, or profits collected by administrators, sequestrators, or others from funds placed on deposit or otherwise, but does not include sums belonging to the Allied or Associated Powers or to their component States, Provinces or Municipalities.

12.

All investments wheresoever effected with the cash assets of nationals of the High Contracting Parties, including companies and associations in which such nationals were interested, by persons responsible for the administration of enemy properties or having control over such administration, or by order of such persons or of any authority whatsoever, shall be annulled. These cash assets shall be accounted for irrespective of any such investment.

13.

Within one month from the coming into force of the present Treaty, or on demand at any time, Hungary will deliver to the Allied and Associated Powers all accounts, vouchers, records, documents and information of any kind which may be within Hungarian territory, and which concern the property, rights and interests of the nationals of those Powers, including companies and associations in which they are interested, that have been subjected to an exceptional war measure, or to a measure of transfer either in the territory of the former Kingdom of Hungary or in territory occupied by that Kingdom or its allies.

The controllers, supervisors, managers, administrators, sequestrators, liquidators and receivers shall be personally responsible under guarantee of the Hungarian Government for the immediate delivery in full of these accounts and documents, and for their accuracy.

14.

The provisions of Article 232 and this Annex relating to property, rights and interests in an enemy country, and the proceeds of the liquidation thereof, apply to debts, credits and accounts, Section III regulating only the method of payment.

In the settlement of matters provided for in Article 232 between Hungary and the Allied or Associated Powers, their colonies or protectorates, or anyone of the British Dominions or India, in respect of any of which a declaration shall not have been made that they adopt Section III, and between their respective nationals, the provisions of Section III respecting the currency in which payment is to be made and the rate of exchange and of interest shall apply unless the Government of the Allied or Associated Power concerned shall within six months of the coming into force of the present Treaty notify Hungary that one or more of the said provisions are not to be applied.

15.

The provisions of Article 232 and this Annex apply to industrial, literary and artistic property which has been or will be dealt with in the liquidation of property, rights, interests, companies or businesses under war legislation by the Allied or Associated Powers, or in accordance with the stipulations of Article 232, paragraph (b).

SECTION V.

CONTRACTS, PRESCRIPTIONS, JUDGMENTS.

ARTICLE 234.

(a) Any contract concluded between enemies shall be regarded as having been dissolved as from the time when any two of the parties became enemies, except in respect of any debt or other pecuniary obligation arising out of any act done or money paid thereunder, and subject to the exceptions and special rules with regard to particular contracts or classes of contracts contained herein or in the Annex hereto.

(b) Any contracts of which the execution shall be required in the general interest, within six months from the date of the coming into force of the present Treaty, by the Government of the Allied or Associated Power of which one of the parties is a national, shall be excepted from dissolution under this Article.

When the execution of the contract thus kept alive would, owing to the alteration of trade conditions, cause one of the parties substantial prejudice the Mixed Arbitral Tribunal provided for by Section VI shall be empowered to grant to the prejudiced party equitable compensation.

(c) Having regard to the provisions of the constitution and law of the United States of America and of Japan, neither the present Article, nor Article 235, nor the Annex hereto shall apply to contracts made between nationals of these States and nationals of the former Kingdom of Hungary; nor shall Article 240 apply to the United States of America or its nationals.

(d) The present Article and the Annex hereto shall not apply to contracts the parties to which became enemies by reason of one of them being an inhabitant of territory of which the sovereignty has been transferred, if such party shall acquire under the present Treaty the nationality of an Allied or Associated Power, nor shall they apply to contracts between nationals of the Allied and Associated Powers between whom trading has been prohibited by reason of one of the parties being in Allied or Associated territory in the occupation of the enemy.

(e) Nothing in the present Article or the Annex hereto shall be deemed to invalidate a transaction lawfully carried out in accordance with a contract between enemies if it has been carried out with the authority of one of the belligerent Powers.

ARTICLE 235.

(a) All periods of prescription, or limitation of right of action, whether they began to run before or after the outbreak of war, shall be treated in the territory of the High Contracting Parties, so far as regards relations between enemies, as having been suspended for the duration of the war. They shall begin to run again at earliest three months after the coming into force of the present Treaty. This provision shall apply to the period prescribed for the presentation of interest or dividend coupons or for the presentation for repayment of securities drawn for repayment or repayable on any other ground.

(b) Where, on account of failure to perform any act or comply with any formality during the war, measures of execution have been taken in the territory of the former Kingdom of Hungary to the prejudice of a national of an Allied or Associated Power, the claim of such national shall, if the matter does not fall within the competence of the Courts of an Allied or Associated Power, be heard by the Mixed Arbitral Tribunal provided for by section VI.

(c) Upon the application of any interested person who is a national of an Allied or Associated Power the Mixed Arbitral Tribunal shall order the restoration of the rights which have been prejudiced by the measures of execution referred to in paragraph (b), wherever, having regard to the particular circumstances of the case, such restoration is equitable and possible.

If such restoration is inequitable or impossible the Mixed Arbitral Tribunal may grant compensation to the prejudiced party to be paid by the Hungarian Government.

(d) Where a contract between enemies has been dissolved by reason either of failure on the part of either party to carry out its provisions or of the exercise of a right stipulated in the contract itself the party prejudiced may apply to the Mixed Arbitral Tribunal for relief. The Tribunal will have the powers provided for in paragraph (c).

(e) The provisions of the preceding paragraphs of this Article shall apply to the nationals of Allied and Associated Powers who have been prejudiced by reason of measures referred to above taken by the authorities of the former Hungarian Government in invaded or occupied territory, if they have not been otherwise compensated.

(f) Hungary shall compensate any third party who may be prejudiced by any restitution or restoration ordered by the Mixed Arbitral Tribunal under the provisions of the preceding paragraphs of this Article.

(g) As regards negotiable instruments, the period of three months provided under paragraph (a) shall commence as from the date on which any exceptional regulations applied in the territories of the interested Power with regard to negotiable instruments shall have definitely ceased to have force.

ARTICLE 236.

As between enemies no negotiable instrument made before the war shall be deemed to have become invalid by reason only of failure within the required time to present the instrument for acceptance or payment or to give notice of non-acceptance or non-payment to drawers or indorsers or to protest the instrument, nor by reason of failure to complete any formality during the war.

Where the period within which a negotiable instrument should have been presented for acceptance or for payment, or within which notice of non-acceptance or non-payment should have been given to the drawer or indorser, or within which the instrument should have been protested, has elapsed during the war, and the party who should have presented or protested the instrument or have given notice of non-acceptance or non-payment has failed to do so during the war, a period of not less than three months from the coming into force of the present Treaty shall be allowed within which presentation, notice of non-acceptance or non-payment or protest may be made.

ARTICLE 237.

Judgments given by the Court of an Allied or Associated Power in all cases which, under the present Treaty, they are competent to decide, shall be recognised in Hungary as final, and shall be enforced without it being necessary to have them declared executory.

If a judgment or measure of execution in respect of any dispute which may have arisen has been given during the war by a judicial authority of the former Kingdom of Hungary against a national of an Allied or Associated Power, or a company or association in which one of such nationals was interested, in a case in which either such national or such company or association was not able to make their defence, the Allied and Associated national who has suffered prejudice thereby shall be entitled to recover compensation to be fixed by the Mixed Arbitral Tribunal provided for in Section VI.

At the instance of the national of the Allied or Associated Power the compensation above-mentioned may, upon order to that effect of the Mixed Arbitral Tribunal, be effected where it is possible by replacing the parties in the situation which they occupied before the judgment was given by the Hungarian Court.

The above compensation may likewise be obtained before the Mixed Arbitral Tribunal by the nationals of Allied or Associated Powers who have suffered prejudice by judicial measures taken in invaded or occupied territories, if they have not been otherwise compensated.

ARTICLE 238.

For the purpose of Sections III, V, IV and VII, the expression "during the war" means for each Allied or Associated Power the period between the commencement of the state of war between that Power and the former Austro-Hungarian Monarchy and the coming into force of the present Treaty.

ANNEX.

I. *General Provisions.*

1.

Within the meaning of Articles 234, 235 and 236, the parties to a contract shall be regarded as enemies when trading between them shall have been prohibited by or otherwise become unlawful under laws, orders or regulations to which one of those parties was subject. They shall be deemed to have become enemies from the date when such trading was prohibited or otherwise became unlawful.

The following classes of contracts are excepted from dissolution by Article 234 and, without prejudice to the rights contained in Article 232 (b), remain in force subject to the application of domestic laws, orders or regulations made during the war by the Allied and Associated Powers and subject to the terms of the contracts:

- (a) Contracts having for their object the transfer of estates or of real or personal property where the property therein had passed or the object had been delivered before the parties became enemies;
- (b) Leases and agreements for leases of land and houses;
- (c) Contracts of mortgage, pledge or lien;
- (d) Concessions concerning mines, quarries or deposits;
- (e) Contracts between individuals or companies and States, provinces, municipalities or other similar juridical persons charged with administrative functions, and concessions granted by States, provinces, municipalities or other similar juridical persons charged with administrative functions.

3.

If the provisions of a contract are in part dissolved under Article 234, the remaining provisions of that contract shall, subject to the same application of domestic laws as is provided for in paragraph 2, continue in force if they are severable, but where they are not severable the contract shall be deemed to have been dissolved in its entirety.

II. *Provisions relating to certain classes of Contracts.**Stock Exchange and Commercial Exchange Contracts.*

4.

(a) Rules made during the war by any recognised Exchange or Commercial Association providing for the closure of contracts entered into before the war by an enemy are confirmed by the High Contracting Parties, as also any action taken thereunder provided:

- (1) that the contract was expressed to be made subject to the rules of the Exchange or Association in question;
- (2) that the rules applied to all persons concerned;
- (3) that the conditions attaching to the closure were fair and reasonable.

(b) The preceding paragraph shall not apply to rules made during the occupation by Exchanges or Commercial Associations in the districts occupied by the enemy.

(c) The closure of contracts relating to cotton "futures" which were closed as on July 31st 1914, under the decision of the Liverpool Cotton Association, is also confirmed.

Security.

5.

The sale of a security held for an unpaid debt owing by an enemy shall be deemed to have been valid irrespective of notice to the owner if the creditor acted in good faith and with reasonable care and prudence, and no claim by the debtor on the ground of such sale shall be admitted.

This stipulation shall not apply to any sale of securities effected by an enemy during the occupation in regions invaded or occupied by the enemy.

*Negotiable Instruments.***6.**

As regards Powers which adopt Section III and the Annex thereto the pecuniary obligations existing between enemies and resulting from the issue of negotiable instruments shall be adjusted in conformity with the said Annex by the instrumentality of the Clearing Offices, which shall assume the rights of the holder as regards the various remedies open to him.

7.

If a person has either before or during the war become liable upon a negotiable instrument in accordance with an undertaking given to him by a person who has subsequently become an enemy, the latter shall remain liable to indemnify the former in respect of his liability notwithstanding the outbreak of war.

III. *Contracts of Insurance.*

Contracts of insurance entered into by any person with another person who subsequently became an enemy will be dealt with in accordance with the following paragraphs.

Fire Insurance.

Contracts for the insurance of property against fire entered into by a person interested in such property with another person who subsequently became an enemy shall not be deemed to have been dissolved by the outbreak of war, or by the fact of the person becoming an enemy, or on account of the failure during the war and for a period of three months thereafter to perform his obligations under the contract, but they shall be dissolved at the date when the annual premium becomes payable for the first time after the expiration of a period of three months after the coming into force of the present Treaty.

A settlement shall be effected of unpaid premiums which became due during the war or of claims for losses which occurred during the war.

10.

Where by administrative or legislative action an insurance against fire effected before the war has been transferred during the war from the original to another insurer, the transfer will be recognised and the liability of the original insurer will be deemed to have ceased as from the date of the transfer. The original insurer will, however, be entitled to receive on demand full information as to the terms of the transfer, and if it should appear that these terms were not equitable they shall be amended so far as may be necessary to render them equitable.

Furthermore, the insured shall, subject to the concurrence of the original insurer, be entitled to retransfer the contract to the original insurer as from the date of the demand.

*Life Insurance.***11.**

Contracts of life insurance entered into between an insurer and a person who subsequently became an enemy shall not be deemed to have been dissolved by the outbreak of war, or by the fact of the person becoming an enemy.

Any sum which during the war became due upon a contract deemed not to have been dissolved under the preceding provision shall be recoverable after the war with the addition of interest at five per cent. per annum from the date of its becoming due up to the day of payment.

Where the contract has lapsed during the war owing to non-payment of premiums, or has become void from breach of the conditions of the contract, the assured or his representatives or the persons entitled shall have the right at any time within twelve months of the coming into force of the present Treaty to claim for the insurer the surrender value of the policy at the date of its lapse or avoidance.

Where the contract has lapsed during the war owing to non-payment of premiums the payment of which has been prevented by the enforcement of measures of war, the assured or his representative or the persons entitled shall have the right to restore the contract on payment of the premiums with interest at five per cent. per annum within three months from the coming into force of the present Treaty.

12.

Where contracts of life insurance have been entered into by a local branch of an insurance company established in a country which subsequently became an enemy country, the contract shall, in the absence of any stipulation to the contrary in the contract itself, be governed by the local law, but the insurer shall be entitled to demand from the insured or his representatives the refund of sums paid on claims made or enforced under measures taken during the war, if the making or enforcement of such claims was not in accordance with the terms of the contract itself or was not consistent with the laws or treaties existing at the time when it was entered into.

13.

In any case where by the law applicable to the contract the insurer remains bound by the contract notwithstanding the non-payment of premiums until notice is given to the insured of the termination of the contract, he shall be entitled, where the giving of such notice was prevented by the war, to recover the unpaid premiums with interest at five per cent. per annum from the insured.

14.

Insurance contracts shall be considered as contracts of life assurance for the purpose of paragraphs 11 to 13 when they depend on the probabilities of human life combined with the rate of interest for the calculation of the reciprocal engagements between the two parties.

Marine Insurance.

15.

Contracts of marine insurance including time policies and voyage policies entered into between an insurer and a person who subsequently became an enemy shall be deemed to have been dissolved on his becoming an enemy, except in cases where the risk undertaken in the contract had attached before he became an enemy.

Where the risk had not attached, money paid by way of premium or otherwise shall be recoverable from the insurer.

Where the risk had attached, effect shall be given to the contract notwithstanding the party becoming an enemy, and sums due under the contract either by way of premiums or in respect of losses shall be recoverable after the coming into force of the present Treaty.

In the event of any agreement being come to for the payment of interest on sums due before the war to or by the nationals of States which have been at war and recovered after the war, such interest shall in the case of losses recoverable under contracts of marine insurance run from the expiration of a period of one year from the date of the loss.

16.

No contract of marine insurance with an insured person who subsequently became an enemy shall be deemed to cover losses due to belligerent action by the Power of which the insurer was a national or by the allies or associates of such Power.

17.

Where it is shown that a person who had before the war entered into a contract of marine insurance with an insurer who subsequently became an enemy entered after the outbreak of war into a new contract covering the same risk with an insurer who was not an enemy, the new contract shall be deemed to be substituted for the original contract as from the date when it was entered into, and the premiums payable shall be adjusted on the basis of the original insurer having remained liable on the contract only up till the time when the new contract was entered into.

Other Insurances.

18.

Contracts of insurance entered into before the war between an insurer and a person who subsequently became an enemy, other than contracts dealt with in paragraphs 9 to 17, shall be treated in all respects on the same footing as contracts of fire insurance between the same persons would be dealt with under the said paragraphs.

*Re-insurance.***19.**

All treaties of re-insurance with a person who became an enemy shall be regarded as having been abrogated by the person becoming an enemy, but without prejudice in the case of life or marine risk which had attached before the war to the right to recover payment after the war for sums due in respect of such risks.

Nevertheless if, owing to invasion, it has been impossible for the re-insured to find another re-insurer, the treaty shall remain in force until three months after the coming into force of the present Treaty.

Where a re-insurance treaty becomes void under this paragraph, there shall be an adjustment of accounts between the parties in respect both of premiums paid and payable, and of liabilities for losses in respect of life or marine risks which had attached before the war. In the case of risks other than those mentioned in paragraphs 11 to 17 the adjustment of accounts shall be made as at the date of the parties becoming enemies without regard to claims for losses which may have occurred since that date.

20.

The provisions of the preceding paragraph will extend equally to re-insurance existing at the date of the parties becoming enemies of particular risks undertaken by the insurer in a contract of insurance against any risks other than life or marine risks.

21.

Re-insurance of life risks effected by particular contract and not under any general treaty remain in force.

22.

In case of a re-insurance effected before the war of a contract of marine insurance, the cession of a risk which had been ceded to the re-insurer shall, if it had attached before the outbreak of war, remain valid and effect be given to the contract notwithstanding the outbreak of war; sums due under the contract of re-insurance in respect either of premiums or of losses shall be recoverable after the war.

23.

The provisions of paragraphs 16 and 17 and the last part of paragraph 15 shall apply to contracts for the re-insurance of marine risks.

Section VI.**MIXED ARBITRAL TRIBUNAL.****ARTICLE 239.**

(a) Within three months from the coming into force of the present Treaty, a mixed Arbitral Tribunal shall be established between each of the Allied and Associated Powers on the one hand and Hungary on the other hand. Each such Tribunal shall consist of three members. Each of the Governments concerned shall appoint one of these members. The President shall be chosen by agreement between the two Governments concerned.

In case of failure to reach agreement, the President of the Tribunal and two other persons, either of whom may in case of need take his place, shall be chosen by the Council of the League of Nations, or, until this is set up, by M. Gustave Ador if he is willing. These persons shall be nationals of powers that have remained neutral during the war.

If in case there is a vacancy a Government does not proceed within a period of one month to appoint as provided above a member of the Tribunal, such member shall be chosen by the other Government from the two persons mentioned above other than the President.

The decision of the majority of the members of the Tribunal shall be the decision of the Tribunal.

(b) The mixed Arbitral Tribunals established pursuant to paragraph (a) shall decide all questions within their competence under Sections III, IV, V and VII.

In addition, all questions, whatsoever their nature, relating to contracts concluded before the coming into force of the present Treaty between nationals of the Allied and Associated Powers and Hungarian nationals shall be decided by the Mixed Arbitral Tribunal, always excepting questions which, under the laws of the Allied, Associated or Neutral Powers, are within the jurisdiction of the national courts of those Powers. Such questions shall be decided by the national courts in question, to the exclusion of the Mixed Arbitral Tribunal. The party who is a national of an Allied or Associated Power may nevertheless bring the case before the Mixed Arbitral Tribunal if this is not prohibited by the laws of his country.

(c) If the number of cases justifies it, additional members shall be appointed and each Mixed Arbitral Tribunal shall sit in divisions. Each of these divisions will be constituted as above.

(d) Each Mixed Arbitral Tribunal will settle its own procedure except in so far as it is provided in the following Annex, and is empowered to award the sums to be paid by the loser in respect of the costs and expenses of the proceedings.

(e) Each Government will pay the remuneration of the member of the Mixed Arbitral Tribunal appointed by it and of any agent whom it may appoint to represent it before the Tribunal. The Tribunal shall keep record of the questions and cases submitted and the proceedings thereon, with the dates of such proceedings.

ARTICLE 240.

At the request of the national of an Allied or Associated Power, the redress may, whenever possible, be effected by the Mixed Arbitral Tribunal directing the replacement of the parties in the position occupied by them before the judgment was given by the Court of the former Kingdom of Hungary.

SECTION VII.

INDUSTRIAL PROPERTY.

ARTICLE 241.

Subject to the stipulations of the present Treaty, rights of industrial, literary and artistic property, and such property is defined by the International Conventions of Paris and of Berne, mentioned in articles 220 and 222, shall be re-established or restored, as from the coming into force of the present Treaty, in the territories of the High Contracting Parties, in favour of the persons entitled to the benefit of them at the moment when the state of war commenced, or their legal representatives. Equally, rights which, except for the war, would have been acquired during the war in consequence of an application made for the protection of industrial property, or the publication of a literary or artistic work, shall be recognised and established in favour of those persons who would have been entitled thereto, from the coming into force of the present Treaty.

Nevertheless, all acts, done by virtue of the special measures taken during the war under legislative, executive or administrative authority of any Allied or Associated Power in regard to the rights of nationals of the former Kingdom of Hungary in industrial, literary or artistic property shall remain in force and shall continue to maintain their full effect.

No claim shall be made or action brought by Hungary or Hungarian nationals or by or on behalf of nationals of the former Kingdom of Hungary in respect of the use during the war by the Government of any Allied or Associated Power, or by any persons acting on behalf or with the assent of such Government of any rights in industrial, literary or artistic property nor in respect of the sale, offering for sale, or use of any products, articles or apparatus whatsoever to which such rights applied.

Unless the legislation of any one of the Allied or Associated Powers in force at the moment of signature of the present Treaty otherwise directs, sums due or paid in respect of the property of persons referred to in article 232 (b) in virtue of any act or operation resulting from the execution of the special measures mentioned in the second paragraph of this article shall be dealt with in the same way as other sums due to such persons are directed to be dealt with by the present Treaty; and sums produced by any special measures taken by the Government of the former Kingdom of Hungary in respect of rights in industrial, literary or artistic property belonging to the nationals of the Allied or Associated Powers shall be considered and treated in the same way as other debts due from Hungarian nationals.

Each of the Allied and Associated Powers reserves to itself the right to impose such limitations, conditions or restrictions on rights of industrial, literary or artistic property (with the exception of trademarks) acquired before or during the war, or which may be subsequently acquired in accordance with its legislation, by Hungarian nationals, whether by granting licences, or by the working, or by preserving control over their exploitation, or in any other way, as may be considered necessary for national defence, or in the public interest, or for assuring the fair treatment by Hungary of the rights of industrial, literary and artistic property held in Hungarian territory by its nationals, or for securing the due fulfilment of all the obligations undertaken by Hungary in the present Treaty. As regards rights of industrial, literary and artistic property acquired after the coming into force of the present Treaty, the right so reserved by the Allied and Associated Powers shall only be exercised in cases where these limitations, conditions or restrictions may be considered necessary for national defence or in the public interest.

In the event of the application of the provisions of the preceding paragraph by any Allied or Associated Power, there shall be paid reasonable indemnities or royalties, which shall be dealt with in the same way as other sums due to Hungarian nationals are directed to be dealt with by the present Treaty.

Each of the Allied or Associated powers reserves the right to treat as void and of no effect any transfer in whole or in part of or other dealing with rights of or in respect of industrial, literary or artistic property effected after July 23, 1924, or in the future, which would have the result of defeating the objects of the provisions of this article.

The provisions of this article shall not apply to rights in industrial, literary or artistic property which have been dealt with in the liquidation of businesses or companies under war legislation by the Allied or Associated Powers, or which may be so dealt with by virtue of article 232, paragraph (b).

ARTICLE 242.

A minimum of one year after the coming into force of the present Treaty shall be accorded to the nationals of the High Contracting Parties without extension fees or other penalty, in order to enable such persons to accomplish any act, fulfil any formality, pay any fees, and generally satisfy any obligation prescribed by the laws or regulations of the respective States relating to the obtaining, preserving or opposing rights to, or in respect of, industrial property either acquired before July 28, 1914, or which, except for the war, might have been acquired since that date as a result of application made before the war or during its continuance, but nothing in this article shall give any right to re-open interference proceedings in the United States of America where a final hearing has taken place.

All rights in, or in respect of, such property which may have lapsed by reason of any failure to accomplish any act, fulfil any formality, or make any payment, shall revive but subject in the case of patents and designs to the imposition of such conditions as each Allied or Associated Power may deem reasonably necessary for the protection of persons who have manufactured or made use of the subject-matter of such property while the rights had lapsed. Further, where rights to patents or designs belonging to Hungarian nationals are revived under this Article, they shall be subject in respect of the grant of licenses to the same provisions as would have been applicable to them during the war as well as to all the provisions of the present Treaty.

The period from July 28, 1914, until the coming into force of the present Treaty shall be excluded in considering the time within which a patent should be worked or a trade mark or design used, and it is further agreed that no patent, registered trade mark or design in force on July 28, 1914, shall be subject to revocation or cancellation by reason only of the failure to work such patent or use such trade mark or design for two years after the coming into force of the present Treaty.

ARTICLE 243.

The rights of priority provided by Article 4 of the International Convention for the Protection of Industrial Property of Paris of March 20, 1883, revised at Washington in 1911, or by any other Convention or Statute, for the filing or registration of applications for patents or models of utility, and for the registration of trade marks, designs and models which had not expired on July 28, 1914, and those which have arisen during the war, or would have arisen but for the war, shall be extended by each of the High Contracting Parties in favour of all nationals of the other high Contracting Parties for a period of six months after the coming into force of the present Treaty.

Nevertheless, such extension shall in no way affect the right of any of the High Contracting Parties or of any person who before the coming into force of the present treaty was *bona fide* in possession of any rights of industrial property conflicting with rights applied for by another who claims rights of priority in respect of them, to exercise such rights by itself or himself personally, or by such agents or licensees as derived their rights from it or him before the coming into force of the present Treaty: and such persons shall not be amenable to any action or other process of law in respect of infringement.

ARTICLE 244.

No action shall be brought and no claim made by nationals of the former Kingdom of Hungary, or by persons residing or carrying on business within the territory of that Kingdom on the one part, and on the other part by persons residing or carrying on business in the territory of the Allied or Associated Powers, or persons who are nationals such Powers respectively, or by any one deriving title during the war from such persons by reason of any action which has taken place within the territory of the other party between the date of the existence of a state of war and that of the coming into force of the present Treaty, which might constitute an infringement of the rights of industrial property or rights of literary and artistic property, either existing at any time during the war or revived under the provisions of articles 242 and 243.

Equally, no action for infringement of industrial, literary or artistic property rights by such persons shall at any time be permissible in respect of the sale or offering for sale for a period of one year after the signature of the present Treaty in the territories of the Allied or Associated Powers on the one hand or Hungary on the other, of products or articles manufactured, or of literary or artistic works published, during the period between the existence of a state of war and the signature of the present Treaty, or against those who have acquired and continue to use them. It is understood, nevertheless, that this provision shall not apply when the possessor of the rights was domiciled or had an industrial and commercial establishment in the districts occupied by the Austro-Hungarian armies during the war.

This article shall not apply as between the United States of America on the one hand and Hungary on the other.

ARTICLE 245.

Licenses in respect of industrial, literary or artistic property concluded before the war between nationals of the Allied or Associated Powers or persons residing in their territory or carrying on business therein, on the one part, and nationals of the former Kingdom of

Hungary, on the other part, shall be considered as cancelled as from the date of the existence of a state of war between the former Austro-Hungarian Monarchy and the Allied or Associated Power. But, in any case, the former beneficiary of a contract of this kind shall have the right, within a period of six months after the coming into force of the present Treaty, to demand from the proprietor of the rights the grant of a new licence, the conditions of which, in default of agreement between the parties, shall be fixed by the duly qualified tribunal in the country under whose legislation the rights had been acquired, except in the case of licences held in respect of rights acquired under the law of the former Kingdom of Hungary. In such cases the conditions shall be fixed by the Mixed Arbitral Tribunal referred to in section VI of this Part. The tribunal may, if necessary, fix also the amount which it may deem just should be paid by reason of the use of the rights during the war.

No licence in respect of industrial, literary or artistic property, granted under the special war legislation of any Allied or Associated Power, shall be affected by the continued existence of any licence entered into before the war, but shall remain valid and of full effect, and a licence so granted to the former beneficiary of a licence entered into before the war shall be considered as substituted for such licence.

Where sums have been paid during the war in respect of the rights of persons referred to in Article 232 (b) by virtue of a licence or agreement concluded before the war in respect of rights of industrial property or for the reproduction or the representation of literary, dramatic or artistic works, these sums shall be dealt with in the same manner as other debts or credits of such persons as provided by the present Treaty.

This article shall not apply as between the United States of America on the one hand and Hungary on the other.

L. BIRLEY,

Chief Secretary to the Government of Bengal.

No. M. 198.

Simla, the 24th July, 1923.

RESOLUTION.

The Governor General in Council has had under consideration the Report of the Committee appointed by the Government of Bihar and Orissa under section 18 of the Indian Mines Act, 1901, to enquire into the accident which occurred on the 4th January last at the Pargelia Colliery of the Bengal Coal Company in the district of Manbhum,

Bihar and Orissa, and resulted in the loss of 74 lives. The Report which was published in the Provincial Gazette with Bihar and Orissa Government resolution No. 280-Com., dated the 27th March 1923, shows that the accident was due to an explosion of coal-dust caused by a faultily placed shot. While recommending the adoption of additional precautions to minimise the recurrence of similar explosions at the mine, the Committee drew attention to the fact that owing to the introduction of coal-cutting machinery, which produced dust in greater quantity and of finer consistency than the old system of hand-cutting, the danger of explosions from coal-dust had greatly increased in Indian mines. In their opinion, however, the facts established by the enquiry were an insufficient foundation on which to base recommendations of general application, and they accordingly recommended that the danger arising from coal-dust should be systematically investigated without delay by a representative Committee.

2. The Governor General in Council has accepted this recommendation and is pleased to appoint the following Committee to investigate the dangers arising from coal-dust in Indian mines :—

Chairman.

Mr. D. Penman, Officiating Chief Inspector of Mines in India.

Members.

Mr. J. R. Wardlaw, nominated by the Indian Mining Association.
 Mr. J. G. Foster, nominated by the Indian Mining Association.
 Mr. H. C. Read, nominated by the Indian Mining Federation.
 Mr. H. K. Nag, nominated by the Indian Mining Federation.
 Mr. G. Naysmith, nominated by the Colliery Managers' Association.
 Mr. J. H. Lang, officiating Inspector of Mines in India (*also Secretary*).

The terms of reference are :—

To enquire into the danger of explosions of coal-dust in Indian coal mines ; to make experiments on different kinds of coal-dust with a view to determine their liability to explode or otherwise ; and to report what means, if any, are necessary or desirable to provide against the risk of coal-dust explosions in Indian coal mines.

ORDERED that a copy of the Resolution be forwarded to the Government of Bihar and Orissa, the Chairman and the Members of the Committee, the Indian Mining Association, the Indian Mining Federation, and to the Association of Colliery Managers in India.

ORDERED also that the Resolution be published in the Supplement to the *Gazette of India* for general information.

NOTIFICATION

No. 1964L., dated Calcutta, the 2nd August, 1923.—With reference to the foot-notes to the Report of the Select Committee on the Calcutta Municipal (No. II) Bill, 1923, published in the *Calcutta Gazette*, dated the 25th July, 1923 and in continuation of this office notification No. 1848L., dated the 23rd July, 1923, it is notified that Mr. S. W. Goode, I.C.S., M.L.C., has appended the following Note of Dissent to the Report :—

THE CALCUTTA MUNICIPAL (No. II) BILL, 1923.**Note of dissent by Mr. S. W. Goode, I.C.S., M.L.C.**

On the whole I would be disposed to make the qualification for the franchise accrue in the twelve months ending the 31st March instead of the twelve months ending the 30th of September. If this is done, it becomes possible for the Corporation and Government to collaborate in the preparation of an electoral roll, since the roll will then in most respects serve for the purposes of both the municipal election and the election for the Legislative Council. There will thus be a considerable economy in expenditure and labour.

Again, it is very desirable that the Corporation should have some interest in insisting on the correctness of the electoral roll prepared for the Legislative Council in respect of Calcutta. If the Corporation is merely a paid agent of Government for this purpose, it is not certain that they will take sufficient interest in the preparation of the roll, but if the electoral rolls for the Legislative Council and the Corporation are in most respects identical and are prepared by one process, the zealous attention with which the Corporation watches the preparation of its own roll will serve to ensure the accuracy of the roll for the Legislative Council.

The saving in money and labour will of course be mutually shared by the Corporation and Government.

2. The main argument in favour of adopting 30th of September as the end of the qualifying year is that a more up-to-date roll will be thereby obtained. This is undoubtedly true, and the ideal roll is of course one which corresponds most closely with facts as they exist at the time of the election. This criterion should not, however, determine the question entirely, but the decision should in my opinion be based on the balance of convenience. As a matter of fact, there will be comparatively few people qualifying in a year ending with the 30th of September, who would not have qualified in a year ending with the 31st March. An electoral roll which is based on a qualifying year ending shortly before the election must obviously coincide with the conditions as they exist at the date of election a little more closely than a roll based on earlier qualifications, but in practice the differences in the two rolls may be slight. It has been suggested that the date fixed in the Bill is a democratic solution since certain persons who have obtained the franchise under the new Act would be barred from voting if the qualifying year were to end on the 31st March. This view is surely mistaken. The persons enfranchised under the new Act will ordinarily have possessed the qualifications entitling them to the franchise in the year ending the 31st March 1923, no less than in the year ending the 30th September 1923.

Finally, I think it is necessary to attach considerable weight to the views of the Corporation executive. Reasons have been given for holding that there will be difficulty in preparing the electoral roll with proper thoroughness and care if qualifications continue to accrue up to the 30th of September prior to the election. On the whole I think there are strong grounds for holding that in the present case the qualifying year should be made to end on the 31st March.

Secretary to the Government of Bengal and
Secretary to the Bengal Legislative Council.

(2) For the purposes of this regulation :—

(a) the production of any certified copy of an entry made in the electoral roll of any constituency shall be conclusive evidence of the right of any elector named in that entry to stand for election or to subscribe a nomination paper, as the case may be, unless it is proved that the candidate is disqualified under rule 5 or rule 6 or that the proposer or seconder, as the case may be, is disqualified under sub-rule (4) of rule 11, and

(b) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(3) Nothing contained in clause (ii), clause (iii), clause (iv), or clause (v) of sub-regulation (1) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

XXII. (1) The returning officer shall endorse on each nomination paper his decision accepting or rejecting the same and, if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(2) The scrutiny shall be completed on the day appointed in this behalf under clause (b) of sub-rule (2) of rule 11 and no adjournment of the proceedings shall be allowed.

XXIII. On completion of the scrutiny of nominations and after the expiry of the period within which candidatures may be withdrawn under sub-rule (8) of rule 11, the returning officer shall forthwith prepare a list of valid nominations and cause it to be affixed in some conspicuous place in his office.

XXIV. If the number of duly nominated candidates is greater than the number of vacancies the returning officer shall forthwith publish in the local official Gazette, and in such other manner as the Local Government may prescribe, and in such places in the constituency as he may consider necessary, the names of the candidates as given in the nomination papers in alphabetical order.

Voting.

XXV. The Local Government shall appoint the hour at which the poll shall commence and the hour at which it shall close on the date appointed for the poll under clause (c) of sub-rule (2) of rule 11. The hours so fixed shall be published by notification in the local official Gazette, and in such other manner as the Local Government may direct.

XXVI. (1) The returning officer shall select for each constituency as many polling stations as he thinks necessary and shall publish, in such manner as the Local Government may prescribe, a list showing the polling stations so selected, and the polling areas for which they have respectively been selected.

(2) The returning officer shall appoint a presiding officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the presiding officer as he thinks necessary.

XXVII. (1) The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

- (a) the polling officers, the candidates, and one agent of each candidate (hereinafter referred to as the polling agent) appointed in writing by the candidate, and authorised in this behalf by the returning officer,
- (b) the police or other public servants on duty, and
- (c) such other persons as the presiding officer may from time to time admit for the purpose of identifying electors.

(2) The presiding officer shall close the polling station at the hour appointed in that behalf by the Local Government under Regulation XXV, so as to prevent the admission thereto of any voter after that hour, provided that all voters present at the polling station before it is so closed shall be entitled to have their votes recorded.

XXVIII. Each polling station shall be furnished with such number of compartments, in which voters can record their votes screened from observation, as the returning officer thinks necessary.

XXIX. (1) The returning officer shall provide at each polling station materials sufficient for the purpose of enabling voters to mark the ballot papers, instruments for stamping the official mark on such papers, as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

(2) The official mark shall be kept secret, and a period of not less than seven years shall intervene between the use of the same official mark at elections for the same constituency.

XXX. Every ballot box shall be so constructed that the ballot papers can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show the ballot box empty to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

XXXI. Before the polling station is open for the recording of votes, the presiding officer shall read to such persons as may be present the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, and shall explain the substance thereof in the vernacular of the district.

XXXII. Immediately before a ballot paper is delivered to an elector, it shall be marked on the back with the official mark, and the number, name and description of the elector as stated in the electoral roll shall be called out, and the number of the elector shall be entered on the counterfoil, and a mark shall be placed in a copy of the electoral roll against the number of the elector, to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. On the counterfoil shall be entered the name of the constituency and the name or distinctive number of the polling station.

XXXIII. The elector, on receiving the ballot paper, shall forthwith proceed into one of the compartments in the polling station, and there make a mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the back of the outerfoil paper, and fold it up so as to conceal his vote, and, after shewing to the presiding officer the official mark, shall put his ballot paper, so folded up, into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

XXXIV. If the voter, owing to illiteracy or infirmity, is unable to read a ballot paper or to make a mark thereon the presiding officer shall mark the vote in the ballot paper according to the direction of the voter. The voter shall then himself or with the assistance of the presiding officer put the ballot paper folded up into the ballot box.

XXXV. At any time before a ballot paper is delivered to an elector, the presiding officer or polling officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or polling agent, put to the elector the following questions:—

- (1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,
- (2) Have you already voted at the present election in this constituency? and, at a general election
- (3). Have you already voted at this general election for the Legislative Council in any other general constituency?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative, the second question in the negative, and, at a general election, the third question also in the negative.

XXXVI. The ballot paper shall be in Form I annexed to these regulations and shall contain the names of the candidates arranged alphabetically in the order of their surnames. The ballot papers shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

XXXVII. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to mark a ballot paper in the same manner as any other voter. Such ballot paper (hereinafter referred to as a "tendered ballot paper") shall be of a colour different from the other ballot papers, and, instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the voter and his number on the electoral roll and the name of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the returning officer. The name of the voter and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form II annexed to these regulations, which shall bear the heading "Tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

XXXVIII. If any polling agent declares and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the presiding officer may require such person to enter in the list of challenged votes (which shall be in Form III annexed to these regulations) his name and address, or, if he is unable to write, to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned in the manner provided in Regulation XXXV answers the first question in the affirmative and the other questions in the negative, he shall be allowed to vote after he has been informed of the penalty for personation. The presiding officer shall make a note of the circumstances, and of his decision on the list of challenged votes.

XXXIX. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the presiding officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt paper, and the latter shall, together with its counterfoil, be marked as cancelled.

XL. A presiding officer, polling officer or polling agent who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by the returning officer of the constituency in which he is entitled to vote to be entitled to vote at the election for the constituency in connection with which he is employed or for any other constituency, be allowed to record his vote at that polling station. The name of the polling station at which he would otherwise have been entitled to vote shall be entered in the counterfoil of the ballot paper together with his number in the electoral roll for the constituency in which that polling station is situated.

XLI. Such ballot paper shall be placed in an envelope and sealed by the presiding officer and returned with the certificate referred to in Regulation XL to the returning officer who has granted the same, and such returning officer shall cause such vote to be included among the other votes given for the candidate designated by the voter.

XLII. The presiding officer of each polling station, as soon as practicable after the close of the poll, shall, in the presence of any candidates or polling agents who may be present, make up into separate parcels and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal :—

- (5) the marked copy of the electoral roll ;
- (6) the counterfoils of the ballot papers ;

- (8) the list of challenged votes ;

and shall deliver such packets to the returning officer.

XLIII. The packets shall be accompanied by a statement in Form IV made by the presiding officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under Regulation XL.

Counting of votes.

XLIV. The returning officer shall as soon as may be practicable after the close of the poll, appoint a date, time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents.

XLV. (1) No person shall be allowed to be present at the counting of the votes except the returning officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-rule (6) of rule 14.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

XLVI. On the day and at the time appointed under Regulation XLIV the returning officer shall, before he commences to count the votes, read the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present, and shall then proceed as follows :—

- (a) The ballot box or boxes relating to each polling station shall be opened one after another, and the returning officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. Such statement shall not be shewn to any candidate or agent.
- (b) The returning officer shall then mix together all the ballot papers so taken out from the ballot boxes and distribute them in convenient bundles to the persons appointed to assist in counting the votes.
- (c) When the ballot papers have been so distributed, but not before the returning officer shall allow the candidates and their agents reasonable opportunity to inspect, without handling, the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "rejected." If any candidate or agent present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or agent shall be allowed to see the serial number on the back of any ballot paper.

- (d) The returning officer shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates, or agents as may desire to affix them, and shall cause adequate precautions to be taken for their custody.

- (a) it has not on its back the official mark,
- (b) the number of votes recorded thereon exceeds the number of vacancies to be filled,
- (c) no vote is recorded thereon,
- (d) it is void for uncertainty,
- (e) it bears any mark by which the elector can be identified.

(2) The decision of the returning officer as to the validity of a ballot paper shall be final, subject only to reversal on an election petition claiming the seat.

XLVIII. The returning officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counterfoils of the ballot papers. He shall verify the statement submitted by the presiding officer under Regulation XLIII by comparing it with the number of counted votes and rejected ballot papers, the unused ballot papers in his possession and the tendered votes list, shall then reclose and reseal each packet which has been opened by him, and shall record on each packet a description of its contents and date of the election to which it refers.

LII. The packets aforesaid shall be retained for a period of one year and shall thereafter be destroyed subject to any direction to the contrary made by the Local Government, or by a competent Court or by Commissioners appointed to hold an enquiry in respect of an election.

LVII. Any ballot paper which is not duly marked, or on which more than one mark is placed against any candidate's name, or on which votes are given to more candidates than there are members to be elected, or on which a mark is placed in such a manner as to make it doubtful to which candidate it has been given, or, in the case of a University constituency, on which the signature of the elector is not duly attested, shall be invalid.

LVIII. (1) The returning officer shall appoint a date, time and place for the counting of votes, and shall give notice thereof in writing to the candidates.

 - (ii) the number of votes declared invalid and rejected;
 - (iii) the names of the persons declared elected;
- (d) permit any candidate or his agent to take a copy of, or an extract from, the return;
- (e) seal up in separate packets the counted and rejected ballot papers, and record on each such packet a description of its contents and the name of the constituency and the date of the election to which it refers.

LXVIII. The Local Government shall appoint and notify in such manner as it thinks fit the date referred to in Regulation LXI for sending ballot papers to electors and the date referred to in Regulation LXII for the attestation of ballot papers.

Special Regulations applicable to the Presidency and Burdwan (European) constituency.

LXIX. In the case of an election for the Presidency and Burdwan (European) constituency, Regulations XLVI to XLIX shall not be applicable and the following Regulations LXX to LXXXIII inclusive shall be substituted therefor, and shall apply.

LXX. In the following regulations—

- (1) the expression “continuing candidate” means any candidate not elected and not excluded from the poll;
- (2) the expression “first preference” means the figure “1”; the expression “second preference” means the figure “2”; and the expression “third preference” means the figure “3”, set opposite the name of any candidate, and so on;
- (3) the expression “transferable paper” means a ballot paper on which a second or subsequent preference is recorded for a continuing candidate;
- (4) the expression “non-transferable paper” means a ballot paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to be a non-transferable paper in any case in which—

- (a) the names of two or more candidates (whether continuing or not) are marked with the same figure, and are next in order of preference; or
- (b) the name of the candidate next in order of preference (whether continuing or not) is marked—
 - (i) by a figure not following consecutively after some other figure on the ballot paper; or
 - (ii) by two or more figures.
- (5) the expression “original vote” in regard to any candidate means a vote derived from a ballot paper on which a first preference is recorded for that candidate;
- (6) the expression “transferred vote” in regard to any candidate means a vote derived from a ballot paper on which a second or subsequent preference is recorded for that candidate;
- (7) the expression “surplus” means the number of votes by which the total number of the votes, original and transferred, credited to any candidate, exceeds the quota.

LXXI. The ballot paper shall contain the names of the candidates arranged alphabetically in the order of their surnames. It shall be in the form set out in Form IX annexed to these regulations.

LXXII. (1) Every elector shall have one vote only.

(2) An elector in giving his vote—

- (a) must place on his ballot paper the figure 1 in the square opposite the name of the candidate for whom he votes;
- (b) may, in addition, place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the squares opposite the names of other candidates in the order of his preference.

LXXIII. A ballot paper shall be invalid on which—

- (a) the figure 1 is not marked; or
- (b) the figure 1 is set opposite the name of more than one candidate; or is so placed as to render it doubtful to which candidate it is intended to apply; or
- (c) the figure 1 and some other figure are set opposite the name of the same candidate;
- (d) any mark is made by which the voter may afterwards be identified.

LXXIV. On the day appointed under Regulation XLIV for the counting of votes, the returning officer shall open the ballot box, and, after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection, and after rejecting any that are invalid, shall arrange the remainder in parcels according to the first preferences recorded for each candidate.

LXXV. The returning officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him, and he shall ascertain the total number of valid papers.

LXXVI. The returning officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

LXXVII. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be declared elected.

LXXVIII. (1) If at any time the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate, as being next in order of the voters' preference.

(2) (a) If the votes credited to an elected candidate consist of original votes only, the returning officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(b) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the returning officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(c) In either case the returning officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the returning officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (a) If the total number of transferable papers is greater than the surplus, the returning officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored.

If two or more fractional parts are of equal magnitude, that fractional part shall be deemed to be the larger which arises from the larger sub-parcel, and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(d) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate from and to whom the transfer is made.

(5) (a) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(b) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the returning officer shall decide which surplus he will first deal with.

(c) The returning officer need not transfer the surplus of an elected candidate when that surplus, together with any other surplus not transferred, does not exceed the difference between the totals of the votes credited to the two continuing candidates lowest on the poll.

LXXIX. (1) If at any time no candidate has a surplus (or when under the preceding rule any existing surplus need not be transferred) and one or more vacancies remain unfilled, the returning officer shall exclude from the poll the candidate credited with the lowest number of votes, and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the returning officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with fewest original votes shall be excluded, and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the returning officer shall decide which shall be excluded.

LXXX. (1) Whenever any transfer is made under any of the preceding regulations, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with, and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in Regulation LXXIX before any other candidate is excluded.

LXXXI. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates, together with any surplus not transferred, that candidate shall be declared elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made.

LXXXII. Any candidate, or his duly authorized representative in his absence, may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the returning officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the returning officer shall forthwith re-examine and recount the same accordingly. The

returning officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count:

Provided that nothing herein shall make it obligatory on the returning officer to recount the same votes more than once.

LXXXIII. (1) The returning officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counter-foils of the ballot papers. He shall verify the statement submitted by the presiding officer under Regulation XLIII by comparing it with the number of counted votes and rejected ballot papers, the unused ballot papers in his possession and the tendered votes list, shall then reclose and reseal each packet which has been opened by him, seal up in separate packets the counted and rejected ballot papers, and record on each packet a description of its contents, the name of the constituency and the date of the election to which it refers.

(2) The returning officer shall prepare and certify a return setting forth—

- (i) the number of valid votes given to each candidate,
- (ii) the number of votes declared invalid and rejected,
- (iii) the number of tendered ballot papers issued to electors as shown in the ballot paper account,
- (iv) the names of the persons declared elected;

and permit any candidate or representative duly authorised under sub-rule (6) of rule 14 to take a copy of or an extract from the return.

34C. As soon as it is known that a lunatic, who has been admitted to a Mental Hospital or asylum in this Presidency, is domiciled elsewhere than in that province, the fact (with details of the case) should be brought to the notice of the Local Government, so that action for the removal of the lunatic may, if advisable, be initiated early with the Government of the province of domicile, under section 35 of the Act.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 2060L., dated Calcutta, the 9th August, 1923.—With reference to the footnotes to the Report of the Select Committee on the Bengal Tenancy (Utbandi Amendment) Bill, 1923, published in the *Calcutta Gazette* of the 25th July, 1923 and in continuation of this office notification No. 1845L., dated the 23rd July, 1923, it is notified that Mr. Syed Erfan Ali, M.L.C., has appended the following Note of Dissent to the Report :—

THE BENGAL TENANCY (UTBANDI AMENDMENT) BILL, 1923.

Note of dissent by Mr. Syed Erfan Ali, M.L.C.

I sign this report subject to this note of dissent. I cannot agree to the payment of any premium by the tenants of *utbandi* lands, the provision for which is made in section 180A, sub-sections (7) and (9). The tenants of *utbandi* lands are invariably on the lands for generations whether the lands be under regular cultivation or occasionally lying fallow. There is no doubt that the tenants of *utbandi* lands would have got the occupancy right but for section 180 of the Bengal Tenancy Act. Under cover of this section, the zamindars have all along been taking special advantage over the poor tenants and the tenants were also under great disabilities and sufferance for generations. When this was detected and it was thought reasonable to change the status of the poor tenants and put them into equal rights and privileges with their brothers in other districts of the province, it cannot for a moment be taken as an equitable suggestion to impose any premium on the tenants for the simple reason of the abeyance of their asserting their just rights ever so long. I once more protest against imposing any premium at all on the tenants at such a juncture. It is a long delayed right and privilege, which they are going to get after a great many years' subjection. I may now quote an extract from a letter addressed by the Secretary to the Government of Bengal to the Secretary to the Government of India, Legislative Department, dated the 27th September 1883 :—

“Finally, in regard to *utbandi* lands, the Lieutenant-Governor does not see that any exception to the general rule is needed. As far as he is aware, the *utbandi* tenure is only special as regards the system on which rent is paid, and does not affect the legal attributes of the land. It is not so much that one raiyat cultivates one *utbandi* holding one year, and a different raiyat another year, as that rent is paid only on the extent of the land actually cultivated for the year, and by measurement at harvest time according to the actual outturn of the crop. The Lieutenant-Governor understands that prescriptive rights of occupancy under section VIII of 1869 are now actually acquired in these *utbandi* lands, and he would not by any provision impede the growth of such rights.”

This and another extract from a very recent Report of the Administration of Bengal (1921-22) will substantiate my statement very strongly. It runs under the heading of *Utbandi Tenures* thus :—“.....” In Nadia one-third of the district is covered by *utbandi* tenancies, some of which have none of the characteristics of *utbandi*. In some cases rent is paid for all the lands every year and the tenant has acquired an occupancy right, though neither he nor the landlord was aware of it. Generally speaking, the same tenant goes back to the same lands year after year and generation after generation, and the fields have definite boundaries.”

I now leave it to the discretion of the Members of the Bengal Legislative Council.

No. 2090 L., dated Calcutta, the 13th August, 1923.—With reference to the foot-note to the Report of the Select Committee on the Bengal Municipal (No. II) Bill, 1923, published in the *Calcutta Gazette* of the 25th July, 1923 and in continuation of this office notification No. 1848 L., dated the 23rd July, 1923, it is notified that Mr. D. J. Cohen, M.L.C., has appended the following Note of Dissent to the Report :—

THE CALCUTTA MUNICIPAL (No. II) BILL, 1923.**Note of Dissent by Mr. D. J. Cohen, M.L.C.**

I take exception to the enactment of the rule that the qualifying year should end on the 30th September of the official year of election. The fact has been overlooked that the large body of men who have been enfranchised under clauses (b) and (c) of section 20, *i. e.*, tenants, occupiers and owners of huts, will practically be to a certain extent disfranchising because of the very short time which will be available for the preparation of the draft electoral roll, it may not be possible to include all these people in the roll. It has to be borne in mind that the requisite qualification of these men is that their names must be entered in the special register provided for in clauses (b) and (c). The entry of these names in the special register is dependent on the order of the Executive Officer which is in turn dependent in the first place on the applications of these persons and secondly on proofs being adduced before the Executive Officer of payment of rates and rents. These applications cannot be made till after the 1st of October because their qualifications depend on having paid rates or rents up to the 30th September. The Executive Officer is sure to be flooded with applications in the month of October, and it will hardly be possible to dispose of them satisfactorily before at least 4 to 6 weeks with the limited time that will be at the disposal of the Executive, the consequence will be that the work will be hurriedly pushed through unsatisfactorily and many names that should have found a place in the roll will be omitted. This number will certainly be larger than the small number for whose benefit the time is being extended, and as a result by taking the 30th September as the qualifying year the disadvantages will be very much greater than the advantages. It is an exaggerated idea that a large number of people will be omitted if the qualifying year ends on the 31st March. It is well known that a very small percentage of houses change hands during a period of six months, and in so far as tenants are concerned, clauses (b) and (c) provides—if my reading of them be correct—that a person shifting his residence within a particular ward can still claim to have his name inserted in the roll, provided he proves that he resided in that particular ward for six months of that year.

Another argument for my contention that the qualifying year should be taken as the year ending 31st March, is that it will be in keeping with the rule for the Bengal Council Election and the work can be got through up to a certain extent, together. This will mean a saving of a large sum of money. It is true that the franchise has been extended in the New Calcutta Municipal Act, but we all know, that the qualifications of electors for the Council elections have been taken from the present Calcutta Municipal Act and now that we have extended the franchise in the New Municipal Act, it will not be very long before the Council will adopt the new qualifications. The money that will then be saved will be even greater than will be the case now if the qualifying year be taken as the year ending 31st March.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 2nd July 1923:—

No. 20 of 1923.

A

BILL

further to amend the Code of Civil Procedure, 1908, for certain purposes.

WHEREAS it is expedient further to amend the Code of Civil Procedure, 1908, for certain purposes hereinafter appearing; V of 1908. It is hereby enacted as follows:

Short title.

1. This Act may be called the Code of Civil Procedure (Amendment) Act, 1923.

Amendment of section 60, Act V of 1908.

2. In clause (i) of sub-section (1) of section 60 of the Code of Civil Procedure, 1908, for the word "twenty," wherever it occurs, the word "forty," and for the word "forty" the word "eighty" shall be substituted. V of 1908.

STATEMENT OF OBJECTS AND REASONS.

Under proviso (i) of sub-section (1) of section 60 of the Code of Civil Procedure, 1908, the salary or allowances of public officers and servants of railway companies and local authorities while on duty are protected from attachment in execution of decrees to the extent of—

- (1) the whole of the salary, where the salary does not exceed Rs. 20 a month;
- (2) Rs. 20 monthly, where the salary exceeds Rs. 20, but does not exceed Rs. 40, a month, and
- (3) one moiety of the salary in any other case.

It is considered that the amount of salary immune from attachment should be raised proportionately to the rise in the cost of living on the ground that, when the Code was drafted in 1908, the initial pay of Government servants in almost all Departments was low compared with the present rates. It is, therefore, proposed that the limits of Rs. 20 and Rs. 40 in (1) and (2) above should be raised to Rs. 40 and Rs. 80, respectively.

W. M. HAILEY.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 2nd July 1923 :—

NO. 21 OF 1923.

A

BILL

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, for certain purposes hereinafter appearing; It is hereby enacted as follows :—

Amendment of section 364, Act V of 1898.

2. In section 364 of the Code of Criminal Procedure, 1898 (hereinafter referred to as the said Code),—

(a) in sub-section (3) the words "unless he is a Presidency Magistrate," shall be omitted; and

(b) in sub-section (4), for the words and figures "or section 362, sub-section (2A)" the following shall be substituted, namely :—

"or in the course of a trial held by a Presidency Magistrate."

Substitution of new section for section 388, Act V of 1898

3. For section 388 of the said Code the following section shall be substituted, namely :—

Suspension of execution of sentence of imprisonment.

"388. (1) When an offender has been sentenced to fine only and to imprisonment in default of payment of the fine, and the fine is not paid forthwith, the Court may—

(a) order that the fine shall be payable either in full on or before a date not more than thirty days from the date of the order, or in two or three instalments, of which the first shall be payable on or before a date not more than thirty days from the date of the order and the other or others at an interval or at intervals, as the case may be, of not more than thirty days, and

(b) suspend the execution of the sentence of imprisonment and release the offender, on the execution by the offender of a bond with or without sureties, as the Court thinks fit, conditioned for his appearance before the Court on the date or dates on or before which payment of the fine or the instalments thereof, as the case may be, is to be made; and, if the amount of the fine or of any instalment, as the case may be, is not realised on or before the latest date on which it is payable under the order, the Court may direct the sentence of imprisonment to be carried into execution at once.

- (2) The provisions of sub-section (1) shall be applicable also in any case in which an order for the payment of money has been made on non-recovery of which imprisonment may be awarded and the money is not paid forthwith; and, if the person against whom the order has been made, on being required to enter into a bond as is referred to in that sub-section, fails to do so, the Court may at once pass sentence of imprisonment."

Amendment of
section 562, Act
V of 1898.

4. After sub-section (1) of section 562 of the said Code the following sub-section shall be inserted, namely:—

Conviction and
release with
admonition.

- "(1A) In any case in which a person is convicted of theft, theft in a building, dishonest misappropriation, cheating or any offence under the Indian Penal Code punishable with not more than two years' imprisonment and no previous conviction is proved against him, the Court before whom he is so convicted may, if it thinks fit, having regard to the age, character, antecedents or physical or mental condition of the offender and to the trivial nature of the offence or any extenuating circumstances under which the offence was committed, instead of sentencing him to any punishment, release him after due admonition."

Amendment of
Schedule V, Act
V of 1898.

5. In Schedule V to the said Code, in Form XXXVIIA,—

- (a) the words "until the day of" shall be omitted; and
(b) for the words "on that day;" and for the words "on the said day of next," and for the words "on the day of next;" the words "on the following date (or dates), namely:—" shall be substituted.

Repeal.

6. Sections 98 and 104 of the Code of Criminal Procedure (Amendment) Act, 1923, are hereby repealed. XVIII
1923.

STATEMENT OF OBJECTS AND REASONS.

Section 97 of the Code of Criminal Procedure (Amendment) Act, 1923 (XVIII of 1923), inserts a new sub-section (2A) in section 362 of the Code of 1898, requiring a Presidency Magistrate in appealable cases to make a memorandum of the substance of the examination of the accused person, which shall be signed by him and shall form part of the record, and new sub-section (4) lays down that in non-appealable cases it shall not be necessary for a Presidency Magistrate to record the evidence or frame a charge. Section 98 of the Act of 1923 inserts the words and figures "or section 362, sub-section (2A)" after the figures "263" in sub-section (4) of section 364 of the Code. The last amendment, which was introduced by the Joint Committee who reported on the Bill which passed into law as Act XVIII of 1923, was considered to be purely consequential upon the insertion of new sub-section (2A) in section 362. The effect of this amendment is that, while new sub-section (2A) has imposed an additional formality in connection with the examination of an accused person by a Presidency Magistrate in appealable cases, the formalities attending such examination have been materially relaxed in another respect; and that a memorandum of the substance of the evidence has been regarded as sufficient in appealable cases, while a full record in the form of question and answer is required in non-appealable cases. The Joint Committee did not intend that the amendments introduced would have this effect. It is accordingly proposed to remove these anomalies and to make it clear that, in cases where an appeal lies, the Presidency Magistrate shall take down a memorandum of the examination of the accused person as already provided in new sub-section (2A) of section 362, and that in non-appealable cases no record of the examination of the accused need be made. Clause 2 of this Bill gives effect to this.

2. The object of clauses 3 and 4 of the Bill is to give effect to some of the recommendations made by the Indian Jails Committee in paragraphs 438, 439 and 440 of their Report. These follow generally the lines of their recommendations, and opportunity has been taken to remodel the provisions of section 388 of the Code of Criminal Procedure.

Sheriff's Proclamation of Sale.

TO be peremptorily sold pursuant to the order of High Court made in suit No. 810 of 1916 wherein Kali Charan Pandit and others are plaintiffs and Sreemutty Bhabosundari Dassee and others are defendants and dated the 6th March 1922 by the Sheriff of Calcutta in his sale-room on the ground floor of the High Court on Friday, the twenty-third day of November 1923, at 12 o'clock noon, the undermentioned property belonging to the estate of the deceased defendant Johar Lal Pandit. The land and tiled hut being premises No. 45-1, Corporation Street in the town of Calcutta, containing by estimation 2 cottahs and 4 chitaks a little more or less and comprised in holding No. 62, Block No VIII of the South Division of the town of Calcutta and the annual revenue of annas 15-3 is payable to the Calcutta Collectorate in respect thereof and buttet and bounded as follows :—

That is to say, on the north by the Corporation Street, on the south by the land of Anrita Nath Das, on the east by the house and premises No. 46B, Corporation Street and on the west by the temple of Dharruma Settola Thacour. It appears from a search in the Municipal office that the said premises No. 45-1, Corporation Street was formerly No. 45-1, Jhanbazar Street and Jhanbazar Street was named Corporation Street in 1904. It appears from a search in the Registrar of Assurances' office from the year 1865 to 1923 that a Bengali mortgage was executed by Bhabosundari Dassee, widow of Behari Lal Pandit, in favour of Ananda Prosad Ghose, dated 23rd February 1909, for Rs. 500, interest at the rate of one rupee per cent. per month on Rs. 100 in respect of her undivided half share of and in the premises Nos. 45 and 45-1, Corporation Street in the town of Calcutta. It also appears that by a deed of relinquishment executed by Bhabosundari Dassee in favour of Johar Lal Pandit on 30th September 1915, Bhabosundari Dassee relinquished her interest in the half share in respect of 45 and 45-1, Corporation Street to Johar Lal Pandit. By a decree made in suit No. 810 of 1916 of this Hon'ble Court wherein Kali Charan Pandit and others were plaintiffs and Sreemutty Bhabosundari Dassee and Johar Lal Pandit were defendant it was *inter alia* ordered and decreed that the said deed of relinquishment is void beyond the life-time of the said Bhabosundari Dassee. It also appears that by an indenture of mortgage, dated the 30th September 1915, Johar Lal Pandit executed a mortgage in favour of Satyanandon Shaw, of No. 125-1, Manicktolla Street, in respect of his half share and of the remaining half share belonging to Bhabosundari Dassee in respect of 45 and 45-1, Corporation Street for Rs. 3,000, interest at 9 per cent. From the recital in the said mortgage, dated the 30th September 1915, it appears that the mortgagee Ananda Prosad Ghose, named in the mortgage, dated the 23rd February 1909, is dead and his claim has been paid off out of the sum of Rs. 3,000 being the amount of the consideration of the said mortgage, dated the 30th September 1915. It also appears from search that on the 17th October 1917 a reconveyance was executed by Satyanandon Shaw in favour of Johar Lal Pandit releasing and reconveying the properties included in the mortgage, dated the 30th September 1915, in respect of the said premises Nos. 45, and 45-1, Corporation Street, Calcutta.

It also appears from search in the Registry office that on the 17th day of October 1917, Johar Lal Pandit executed a conveyance in favour of Satyanandon Shaw in respect of his half share in 45 and 45-1, Corporation Street for Rs. 5,390-10. The sums for the recovery of which the sale are being made are the amount mentioned in the allocatur Rs. 862-8 as costs under the decree, dated the 9th day of December 1918, and the present costs of execution besides the costs of sale.

The condition of sale may be seen at the office of the Sheriff of Calcutta on any day before the sale and will be produced at the sale.

STATEMENT OF OBJECTS AND REASONS.

The tea-gardens of the Western Duars in the Jalpaiguri district lie in a narrow strip of submontane country covering a total area of about 475 square miles, of which under 300 square miles is occupied by the tea-gardens while the balance is comprised of villages and Government estates including several khasmahal bazars. About thirteen years ago the Duars Committee was appointed to enquire into the sanitary and economic conditions of the tea-gardens. They were of opinion that action should be taken to improve the collection of vital statistics and the medical and sanitary arrangements in the tea-gardens. The Government of Eastern Bengal and Assam decided that a reliable record should be obtained of births and deaths among the coolie population, and the Jalpaiguri Labour Act of 1912 was accordingly passed, and under its provisions the Civil Surgeon submits an annual report on its working, referring also to such matters as sanitation, water-supply and medical relief. In 1920 it was suggested that an Act was necessary under which the tea-garden proprietors could be required to take proper steps to secure the health of their labour force.

The object of the present Bill is to create a new local authority, viz., a statutory Board of Health similar to the Asansol Mines Board of Health to exercise wide powers for the organization of public health in tea-garden areas and for enforcing the execution of measures which may in the opinion of the Board be necessary.

2. The Bill in the first instance applies only to the district of Jalpaiguri but might under the proviso to clause 1(3) be extended to other districts, *e.g.*, to the district of Darjeeling. Under clause 4 the Local Government is given power to define the limits of "a Tea-garden Area" for the purposes of the Bill.

3. The representation of the different interests concerned on the Tea-gardens Board of Health (clauses 5 and 6) has been fixed in consultation with the tea industry. It is intended that the Board shall consist mainly of tea-garden managers who are directly interested in the health of their coolies, while Government would probably use one of its nominations to give representation to the *jotedars* who are liable to assessment under clause 14.

4. The Tea-garden Area Fund (clauses 12 and 13) will be obtained by the levy of a cess at rates and under procedure to be fixed by rule. This cess will be assessed on owners of tea-gardens and on landholders, which word by the definition in clause 3(b) will include not only Government in its capacity as zamindar but also the *jotedars* holding land under Government. It will also include shopkeepers in khasmahal bazars and *ijaradars* in the Government *hatis*.

5. The District Board will be relieved to a very large extent of all responsibility for medical and public health measures in a tea-garden area. Generally speaking, the Tea-garden Board of Health is likely also to relieve the District Board of its obligation to provide water-supply in these areas. These are the matters for which it was intended that the public works cess should ordinarily be reserved when it was handed over to District Boards in 1913. It is therefore reasonable that the District Board should be required to make some contribution towards the Tea-Garden Area Fund, the amount to be determined by Government after considering the proposals of the Tea-garden Board of Health and the views of the District Board, provided that the contribution shall in no case exceed the amount realised as public works cess in the tea-garden area. It may be stated that the question of making the District Board a Board of Health for the tea-garden area has been considered, but in view of the special problems involved, it was considered advisable to create an *ad hoc* authority rather than to add to the duties and responsibilities of the District Board.

6. The Board of Health will mainly work through its Medical Officer of Health; this post is one of primary importance to the successful working of the Board and to secure the proper independence of the officer appointed, certain powers regarding his appointment, dismissal, etc., are vested under clause 18 in the Local Government.

7. Clause 20 states the ordinary conveniences or comforts which a tea-garden owner is required to provide for his labour force, and clause 22 *inter alia* vests power in the Board to enforce the obligations imposed under clause 20.

8. Clause 27 which provides for the licensing and thereby the control of private parks or markets is essential to enable the Board to ensure the purity of food-stuffs.

It will be seen that an appeal from an order of the Board refusing to grant a license may be preferred to the Divisional Commissioner.

9. In clause 32 the jurisdiction of district, local and union boards is barred in respect of sanitary measures in tea-garden areas.

10. The Local Government and the Board are given wide powers to make rules and by-laws respectively for carrying out the purposes of the Act. It will be seen that the powers of the Board in this respect are confined mainly to obtaining information on such matters as vital statistics, to providing for water-supply, sanitation and conservancy in the tea-garden area, to preventing the outbreak or spread of epidemic disease, to regulating the type of accommodation for the labour force, and to abating nuisances which may be injurious to the public health in a tea-garden area.

11. Clause 38 is important in providing that offences under the proposed Act shall not be tried by any Court inferior to that of a Magistrate of the first class or a Subdivisional Magistrate.

(ii) after clause (p) the following shall be inserted, namely:—

“(p1) prescribing the conditions as to the rate of interest and the period and method of repayment of loans granted by the District Board to Union Boards under section 100A.”

STATEMENT OF OBJECTS AND REASONS.

The general amendment and consolidation of the Bengal Local Self-Government Act of 1885, is long overdue, and it is intended at a very early date to lay a measure of this kind before the Legislative Council. In the meantime it is proposed to include certain minor amendments in a short amending Bill. Controversial matters have, on the whole, been avoided, although it is recognized that there may be differences of opinion regarding the proposed *mela* tax.

2. It is considered desirable to take provision to tax motor vehicles since the volume of motor traffic is increasing in rural areas. As drafted, the clause will cover horse-drawn vehicles.

3. Sections 7, 10, 11, 15 and 25 of the present Act vest certain powers of appointment in the Divisional Commissioner, these powers prior to 1908 having been vested in the Local Government. The devolution of power effected by the amending Act V of 1908 was to some extent undone by the enactment of section 29 B in the Bengal Laws Act of 1914. Section 29 B to some extent supersedes the provisions of the earlier sections 7, 10, etc. The nomination of the Municipal Commissioners rests with the Local Government and not the Divisional Commissioner, and having regard to the fact that District Boards are now, generally speaking, of greater importance than the majority of the municipal boards in Bengal, it is considered advisable to give the Local Government the same power of nomination in respect of rural bodies as they already enjoy in respect of municipal boards. This is done in clause 3 of the present Bill, and at the same time the Local Government are required to nominate persons who may represent minorities or be especially fitted for membership of the District Board.

4. In clause 4 of the Bill, more time is given for forwarding a copy of the proceedings of the District Board to the District Magistrate. No comment is necessary on clause 5 of the Bill.

5. Clause 7 provides for the investment of surplus moneys of District Fund in the Imperial Bank or in other banks approved by the Local Government.

It also authorizes the levy of a tax on carriages, which term includes motor vehicles.

6. Power is also taken to impose a tax on *melas*, fairs, etc. It is a matter of common knowledge that these gatherings are frequently the foci of infectious disease which is disseminated to all parts of the province. At present local bodies are unable to provide funds for the proper sanitation of places where such gatherings occur, and are unable to take measures for preventing the outbreak, and for restricting the spread, of infectious disease. If a small tax is imposed on persons for frequenting *melas*, fairs, etc., sufficient revenue may probably be realized to enable local authorities to organize the necessary medical and sanitary measures. It is recognized that there are difficulties in collecting such a tax within the *mela* limits since in Bengal these are ordinarily not well defined, and it is therefore proposed to limit the impost to a surcharge on railway or steamer tickets where these can be levied within a reasonable distance of the *mela* site. The sanction of the Governor-General in Council to a surcharge of this kind is required under the Bill in the case of a railway. It is provided that the amount realized by means of such surcharge should be utilized in providing for the safety, convenience and health of persons frequenting the *mela*, fair, etc.

7. Power is also taken to regulate private markets. The grant of licenses is intended as a sanitary rather than a revenue measure.

8. Power is taken to grant loans to Union Boards. It is thought that the Union Boards may be able to take some steps to cope with the water-supply problem in rural areas and in that case District Boards may render some assistance by lending money to Union Boards on the security of the Union Fund on reasonable terms (*vide* clauses 8 and 13).

Clause 8 of the Bill also enables the District Board to provide for the subsistence charges of indigent persons whom it may have sent to a hospital in any part of British India for the treatment of a special disease.

9. Clause 9 will enable the District Board to establish scholarships for the furtherance of primary education. It is at present able to give scholarships merely for technical or other special forms of education, although the promotion of primary education is an important function of local bodies.

10. In clause 10 power is taken to levy tolls in the case of a bridge which has cost only Rs. 5,000 whereas under the present Act tolls can only be levied if a bridge has cost not less than Rs. 10,000.

3. After Chapter V of the said Act the following Chapter shall be inserted, namely :—

"CHAPTER VA.

SPECIAL PROVISIONS RELATING TO CERTAIN CLASSES OF SHIPPING.

Liability to tax of occasional shipping

44A. The provisions of this Chapter shall, notwithstanding anything contained in the other provisions of this Act, apply for the purpose of the levy and recovery of tax in the case of any person who resides out of British India and carries on business in British India in any year as the owner or charterer

of a ship (such person hereinafter in this Chapter being referred to as the principal), unless the Income-tax Officer is satisfied that there is an agent of such principal from whom the tax will be recoverable in the following year under the other provisions of this Act.

Return of profits
and gains.

44B. (1) Before the departure from any port in British India of any ship in respect of which the provisions of this Chapter apply, the master of the ship shall prepare and furnish to the Income-tax Officer a return of the full amount paid or payable to the principal, or to any person on his behalf, on account of the carriage of all passengers, live-stock or goods shipped at that port since the last arrival of the ship thereat.

(2) On receipt of the return, the Income-tax Officer shall assess the amount referred to in sub-section (1), and for this purpose may call for such accounts or documents as he may require, and one-twentieth of the amount so assessed shall be deemed to be the amount of the profits and gains accruing to the principal on account of the carriage of the passengers, live-stock and goods shipped at the port.

(3) When the profits and gains have been assessed as aforesaid, the Income-tax Officer shall determine the sum payable as tax thereon at the rate for the time being applicable to the total income of a company, and such sum shall be payable by the master of the ship, and a port-clearance shall not be granted to the ship until the Customs-collector, or other officer duly authorised to grant the same, is satisfied that the tax has been duly paid.

Adjustment.

44C. Nothing in this Chapter shall be deemed to prevent a principal from claiming, in any year following that in which any payment has been made on his behalf under this Chapter, that an assessment be made of his total income in the previous year, and that the tax payable on the basis thereof be determined in accordance with the other provisions of this Act, and, if he so claims, any such payment as aforesaid shall be treated as a payment in advance of the tax and the difference between the sum so paid, and the amount of tax found payable by him shall be paid by him or refunded to him, as the case may be."

PART VI.

**Bills Introduced in the Council of State and Legislative Assembly,
Reports of Select Committees presented to the Council and
Assembly and Bills published under Rule 18 of the Indian Legis-
lative Rules.**

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 11th July 1923:—

No. 27 of 1923.

A Bill further to amend the Indian Lunacy Act, 1912.

WHEREAS it is expedient further to amend the Indian Lunacy Act, 1912; It is hereby enacted as follows:— IV of 1912.

Short title.

1. This Act may be called the Indian Lunacy (Amendment) Act, 1923.

Amendment of
section 20, Act IV
of 1912.

2. To section 20 of the Indian Lunacy Act, 1912, the IV of 1912.
following proviso shall be added, namely:—

“Provided that no reception order shall continue to have effect—

- (a) after the expiry of thirty days from the date on which it was made, unless the lunatic has been admitted to the place mentioned therein within that period, or
- (b) after the discharge, under the provisions of this Act, of the lunatic from such place or from any asylum to which he may have been removed.”

STATEMENT OF OBJECTS AND REASONS.

It has been brought to notice that as the Indian Lunacy Act, 1912, stands at present, a person, once the subject of a reception order for detention in a mental hospital, remains permanently subject to it, and can be taken to a mental hospital and confined therein legally at any subsequent period of his life, notwithstanding that the order may not have been acted on for a considerable period after being made or that the person may have been discharged from such a hospital as recovered from the mental disorder which occasioned the issue of the order. This was never the intention of the law, and in practice the defect has never caused any miscarriage of justice, but a flaw undoubtedly exists and it is considered desirable to remove it. The Bill proposes to remedy the defect by amending section 20 of the Act so as to render a reception order inoperative after 30 days if it has not been acted upon or, if it has been acted upon within that period, after the discharge of the person to whom it relates from the detention authorised by it.

And it is hereby further notified that the said scheme shall come into operation on the vesting of the said securities in the said Treasurer of Charitable Endowments.

The First Schedule above referred to.

Two Government Promissory Notes of Rs. 25,000 each Nos. 198896 of the 3½ per cent. Loan of 1900-01 and 189985 of the 3½ per cent. Loan of 1884-85, total amount Rs. 50,000.

The Second Schedule above referred to.

1. The endowment hereby created shall be called "The Raj Lakhee Mallik Charity Fund" having for its object the relief of Hindus or others, both male and female, who have been rendered decrepit by reason of poverty, physical infirmity, or extreme old age, and who are residents of Bengal.

2. The Collector for the time being of the district of 24-Parganas shall administer the fund under section 5 (1) of Act VI of 1890.

The said Collector shall appropriate and apply the interest of the said Government Promissory Notes for Rs. 50,000 which shall be paid to him by the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal as and when the same shall accrue due towards monthly payments in manner hereinafter described to sixty-five poor old decrepit Hindus or others both male and female.

4. The first batch of sixty-five (65) recipients will be selected by the donor Babu Priya Nath Mallik, and the first batch of tickets will be supplied by him. In the event of a vacancy among the said recipients, it will be filled up by the donor as long as he lives and is able to make selections. After his death or incapacity other methods of selection may be decided upon by the said Collector, due weight being given to any recommendations by the donor or his representatives.

5. The said Collector shall enter or cause to be entered in a register the name, father's name, address, age and other particulars of each recipient together with particulars of the peculiar affliction from which each may suffer, whether it be from poverty, incurable disease, physical infirmity or extreme old age.

6. No person shall be admitted to the benefits of the charity unless he or she be suffering from poverty, some incurable disease, physical infirmity or extreme old age, and is thereby rendered incapable of earning a livelihood.

7. The said register shall be kept separately for each sect and sex, viz:—(I) for Hindu males, (II) for Hindu females, (III) for Muhammadan males, (IV) for Muhammadan females and so on and shall have an alphabetical index.

8. As long as the donor lives and is able a ticket signed by him and sealed with his seal shall be issued to each recipient and shall have written or printed thereon the name of the recipient with the number of the register on which each name appears and marked "Not transferable."

9. A dole of Rs. 2 shall be granted monthly to each recipient throughout life subject to discontinuance as hereinafter provided. The doles shall be distributed at 8 o'clock in the morning on the first day of every month according to English Calendar, and also an extra dole of Rs. 2 shall be paid once in a year to each recipient for winter clothing on the 1st day of October in every year in addition to the monthly payment for October. The above doles shall be paid at the gate of the house of the author of the Trust at No. 55, North Chackerbere Road, Bhowanipore, or preferably in the Children's Park belonging to the Corporation of Calcutta and separated only by a 20 feet road towards the east from the said house No. 55.

11. On the first day of every English month the Collector or an official to be selected by him shall proceed to the place of distribution, viz., the house of the author of the Trust or the Children's Park at Bhowanipore, and distribute the doles to as many of the recipients as shall be personally present. It shall be the duty of the author of the Trust or his representative by him duly appointed to supervise the distribution and he shall render to the Collector or his substitute all possible assistance in such distribution. In the event of the absence of a usual recipient his dole shall be kept for the next day of payment when if the recipient attends the distribution it shall be paid to him or her and if he or she does not attend on that day it may be paid to one or more Omedors who may be present on payment days at the discretion of the disbursing officer.

12. Neither the author of the Trust nor his heirs, assignees or representatives shall have any authority to interfere with the charity fund created hereby save and except those aforesaid.

13. The issue of a ticket to a recipient under clause 8 shall not create any permanent interest or right in such recipient to share in the said fund but shall be a token only for purposes of ready identification.

14. If any recipient shall attempt to transfer his or her ticket whether voluntarily or for consideration to any other person, the recipient's name may forthwith be struck off the register at the discretion of the donor (during his superintendence of the charity) or by the Collector.

15. If the donor or the Collector has reason to believe that any recipient has lost or parted with possession of his or her ticket or that any person is attempting to impersonate a recipient payment of the dole of such recipient may be held back from the person presenting the ticket until enquiries have been made.

16. If any recipient through infirmity, illness or accident is prevented from attending the distribution his or her dole may be paid to any messenger from him or her attending the distribution if the distributing officer shall be satisfied of the genuineness of the case.

17. The dole of any recipient may be discontinued either temporarily or entirely if the donor, while supervising, or the Collector, as the case may be, shall have reason to believe that the recipient is no longer in need of assistance or has ceased to be one of the classes of recipients contemplated by clause 6 of this scheme or is of bad character or is a disloyal or criminal person.

18. Any doles or surplus income not distributed for any reason may be accumulated for not longer than six months and shall be distributed among other persons coming under clause 6 of this scheme who are not on the register.

(3) Nothing contained in clause (ii), clause (iii), clause (iv), or clause (v) of sub-regulation (1) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

21. (1) The returning officer shall endorse on each nomination paper his decision accepting or rejecting the same and, if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

23. If the number of duly nominated candidates is greater than the number of vacancies the returning officer shall forthwith publish in the local official Gazette, and in such other manner as the Local Government may prescribe, and in such places in the constituency as he may consider necessary, the names of the candidates as given in the nomination papers in alphabetical order.

Voting.

24. The Local Government shall appoint the hour at which the poll shall commence and the hour at which it shall close on the date appointed for the poll under clause (c) of sub-rule (2) of rule 11. The hours so fixed shall be published by notification in the local official Gazette, and in such other manner as the Local Government may direct.

25. (1) The returning officer shall select for each constituency as many polling stations as he thinks necessary and shall publish in such manner as the Local Government may prescribe, a list showing the polling stations so selected, and the polling areas for which they have respectively been selected.

(2) The returning officer shall appoint a presiding officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the presiding officer as he thinks necessary.

26. (1) The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

(a) the polling officers, the candidates, and one agent of each candidate (hereinafter referred to as the polling agent) appointed in writing by the candidate, and authorised in this behalf by the returning officer,

(b) the police or other public servants on duty, and

(c) such other persons as the presiding officer may from time to time admit for the purpose of identifying electors.

(2) The presiding officer shall close the polling station at the hour appointed in that behalf by the Local Government under Regulation 24, so as to prevent the admission thereto of any voter after that hour, provided that all voters present at the polling station before it is so closed shall be entitled to have their votes recorded.

27. Each polling station shall be furnished with such number of compartments, in which voters can record their votes screened from observation, as the returning officer thinks necessary.

28. (1) The returning officer shall provide at each polling station materials sufficient for the purpose of enabling voters to mark the ballot papers, instruments for stamping the official mark on such papers, as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

(2) The official mark shall be kept secret, and a period of not less than seven years shall intervene between the use of the same official mark at elections for the same constituency.

29. Every ballot box shall be so constructed that the ballot papers can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show the ballot box empty to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

30. Before the polling station is open for the recording of votes, the presiding officer shall read to such persons as may be present the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, and shall explain the substance thereof in the vernacular of the district.

31. Immediately before a ballot paper is delivered to an elector, it shall be marked on the back with the official mark, and the number, name and description of the elector as stated in the electoral roll shall be called out, and the number of the elector shall be entered on the counterfoil, and a mark shall be placed in a copy of the electoral roll against the number of the elector, to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. On the counterfoil shall be entered the name of the constituency and the name or distinctive number of the polling station.

32. The elector, on receiving the ballot paper, shall forthwith proceed into one of the compartments in the polling station, and there make a mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions

set out on the back of the outerfoil paper, and fold it up so as to conceal his vote, and, after shewing to the presiding officer the official mark, shall put his ballot paper, so folded up, into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

33. If the voter, owing to illiteracy or infirmity, is unable to read a ballot paper or to make a mark thereon the presiding officer shall mark the vote in the ballot paper according to the direction of the voter. The voter shall then himself or with the assistance of the presiding officer put the ballot paper folded up into the ballot box.

34. At any time before a ballot paper is delivered to an elector, the presiding officer or polling officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or polling agent, put to the elector the following questions:—

- (1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,
- (2) Have you already voted at the present election in this constituency? and, at a general election
- (3) Have you already voted at this general election for the Legislative Assembly in any other general constituency?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative, the second question in the negative, and, at a general election, the third question also in the negative.

35. The ballot paper shall be in Form I annexed to these regulations and shall contain the names of the candidates arranged alphabetically in the order of their surnames. The ballot papers shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

36. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to mark a ballot paper in the same manner as any other voter. Such ballot paper (hereinafter referred to as a "tendered ballot paper") shall be of a colour different from the other ballot papers, and, instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the voter and his number on the electoral roll and the name of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the returning officer. The name of the voter and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form II annexed to these regulations, which shall bear the heading "Tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

37. If any polling agent declares and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the presiding officer may require such person to enter in the list of challenged votes (which shall be in Form III annexed to these regulations) his name and address, or, if he is unable to write, to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned in the manner provided in Regulation 34 answers the first question in the affirmative and the other questions in the negative, he shall be allowed to vote after he has been informed of the penalty for personation. The presiding officer shall make a note of the circumstances, and of his decision on the list of challenged votes.

38. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the presiding officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoiled paper, and the latter shall, together with its counterfoil, be marked as cancelled.

39. A presiding officer, polling officer or polling agent who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by the returning officer of the constituency in which he is entitled to vote

to be entitled to vote at the election for the constituency in connection with which he is employed or for any other constituency, be allowed to record his vote at that polling station. The name of the polling station at which he would otherwise have been entitled to vote shall be entered in the counterfoil of the ballot paper together with his number in the electoral roll for the constituency in which that polling station is situated.

40. Such ballot paper shall be placed in an envelope and sealed by the presiding officer and returned with the certificate referred to in Regulation 39 to the returning officer who has granted the same, and such returning officer shall cause such vote to be included among the other votes given for the candidate designated by the voter.

41. The presiding officer of each polling station, as soon as practicable after the close of the poll, shall, in the presence of any candidates or polling agents who may be present, make up into separate parcels and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal:—

- (1) each ballot box in use at each station unopened but with the key attached;
- (2) the unused ballot papers;
- (3) the tendered ballot papers;
- (4) the spoilt ballot papers;
- (5) the marked copy of the electoral roll;
- (6) the counterfoils of the ballot papers;
- (7) the tendered votes list; and
- (8) the list of challenged votes;

and shall deliver such packets to the returning officer.

42. The packets shall be accompanied by a statement in Form IV made by the presiding officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under Regulation 39.

Counting of votes.

43. The returning officer shall as soon as may be practicable after the close of the poll, appoint a date, time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents.

44. (1) No person shall be allowed to be present at the counting of the votes except the returning officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-rule (6) of rule 14.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

45. On the day and at the time appointed under Regulation 43 the returning officer shall, before he commences to count the votes, read the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present, and shall then proceed as follows:—

- (a) The ballot box or boxes relating to each polling station shall be opened one after another, and the returning officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. Such statement shall not be shewn to any candidate or agent.
- (b) The returning officer shall then mix together all the ballot papers so taken out from the ballot boxes and distribute them in convenient bundles to the persons appointed to assist in counting the votes.
- (c) When the ballot papers have been so distributed, but not before the returning officer shall allow the candidates and their agents reasonable opportunity to inspect, without handling, the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "rejected." If any candidate or agent present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or agent shall be allowed to see the serial number on the back of any ballot paper.

- (d) *The returning officer shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates, or agents as may desire to affix them, and shall cause adequate precautions to be taken for their custody.*

46. (1) A ballot paper shall be rejected if—

- (a) it has not on its back the official mark,
- (b) the number of votes recorded thereon exceeds the number of vacancies to be filled,
- (c) no vote is recorded thereon,
- (d) it is void for uncertainty,
- (e) it bears any mark by which the elector can be identified.

(2) The decision of the returning officer as to the validity of a ballot paper shall be final, subject only to reversal on an election petition claiming the seat.

47. The returning officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counterfoils of the ballot papers. He shall verify the statement submitted by the presiding officer under Regulation 42 by comparing it with the number of counted votes and rejected ballot papers, the unused ballot papers in his possession and the tendered votes list, shall then reclose and reseal each packet which has been opened by him, and shall record on each packet a description of its contents and date of the election to which it refers.

48. The returning officer shall then prepare and certify a return setting forth—

- (1) the result of the verification referred to in Regulation 47,
- (2) the names of the candidates for whom valid votes have been given,
- (3) the number of valid votes given for each candidate,
- (4) the name of the candidate elected,
- (5) the number of votes declared invalid, and
- (6) the number of tendered votes given,

and shall permit any candidate or any representative duly authorised under sub-rule (6) of rule 14 to take a copy of or an extract from such return.

49. The returning officer shall, after reporting the result of the election under rule 14, forward the return and all the packets relating to the election in his possession to the Secretary to the Bengal Legislative Council.

50. While in the custody of the Secretary to the Bengal Legislative Council, the packets of ballot papers whether counted, rejected or tendered, and of the counterfoils thereof, shall not be opened and their contents shall not be inspected or produced except under the order of a competent Court or of Commissioners appointed to hold an enquiry in respect of an election, but all other documents relating to the election shall be open to public inspection subject to such conditions and to the payment of such fee, if any, as the Local Government may impose.

51. The packets aforesaid shall be retained for a period of one year and shall thereafter be destroyed subject to any direction to the contrary made by the Local Government, or by a competent Court or by Commissioners appointed to hold an enquiry in respect of an election.

53. On or before the date fixed in this behalf by the Local Government the returning officer shall send by registered post to each elector a ballot paper, together with an intimation of the date appointed by him for the counting of votes and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

The ballot paper, together with such intimation, shall be sent to the latest known address of the elector as registered in the office of the Chamber, Association or Sabha comprising the constituency.

The form of the ballot paper in the case of an Indian Commerce constituency, shall be in Form V annexed to these regulations.

54. Any elector may send his ballot paper to the returning officer after recording his vote thereon in accordance with the instructions on the ballot paper; provided that voting papers which are not received by the returning officer before the date fixed for the counting of the votes shall be rejected.

55. Any ballot paper which is not duly marked, or on which more than one mark is placed against any candidate's name, or on which votes are given to more candidates than there are members to be elected, or on which a mark is placed in such a manner as to make it doubtful to which candidate it has been given, shall be invalid.

56. (1) The returning officer shall appoint a date, time and place for the counting of votes, and shall give notice thereof in writing to the candidates.

(2) On the day appointed the returning officer shall—

- (a) after scrutiny, separate, or cause to be separated, the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection;
- (b) count, or cause to be counted, the votes given to each candidate, and declare the candidate, or candidates, with the largest number of valid votes to be elected;
- (c) upon the completion of counting, prepare and certify a return setting forth—
 - (i) the number of valid votes given for each candidate;
 - (ii) the number of votes declared invalid and rejected;

- (e) seal up in separate packets the counted and rejected ballot papers, and record on each such packet a description of its contents and the name of the constituency and the date of the election to which it refers.

57. The Local Government shall appoint and notify in such manner as it think fit the date referred to in Regulation 53.

Special Regulations applicable to the Landholders' Constituency.

58. In the case of an election for the landholders' constituency Regulations 24 to 48 shall not be applicable and the following Regulations 59 to 66 inclusive, shall be substituted therefor, and shall apply.

59. The ballot paper, together with such intimation, shall be sent to the address of the elector as shown in the electoral roll.

60. On or before such date as may be appointed by the Local Government in this behalf, but not later than 5 P.M. on that date, each elector desirous of recording his vote shall sign the declaration on the back of the ballot paper in the presence and at the office of an attesting officer, and the attesting officer shall thereupon attest his signature.

61. The elector shall then proceed to a place set apart for that purpose by the attesting officer, and screened from observation, and there shall record his vote on the ballot paper in accordance with the instructions contained therein, and after placing the ballot paper in an envelope, and closing the same, shall deliver it to the attesting officer.

62. If an elector is unable to read or write, or by reason of some physical defect is incapacitated from recording his vote, the attesting officer shall assist him in such manner as may be necessary to mark the ballot paper and to sign the declaration thereon.

63. The attesting officer shall, as soon as possible after 5 P.M. of the day appointed as the latest date for the attestation of ballot papers, despatch all the envelopes so delivered to him to the returning officer by registered post in a packet securely sealed with his official seal, and shall also enclose a list, in Form VII annexed to these regulations, of the electors whose ballot papers he has attested.

64. A ballot paper that is not duly attested, or marked, or on which more than one mark is placed against any candidate's name or on which votes are given to more candidates than there are members to be elected or on which a mark is placed in such a manner as to render it doubtful to which candidate it has been given, shall be invalid.

65. (1) The returning officer shall appoint a date, time and place for the counting of votes, and shall give notice thereof in writing to the candidates.

(2) On the day appointed the returning officer shall fold the lower portion of every ballot paper along the dotted line on the back so as to conceal the names of the elector and of the attesting officer and should seal down the portion thus folded with the official seal and thereafter shall—

- (a) after scrutiny, separate or cause to be separated the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection;
- (b) count, or cause to be counted, the votes given to each candidate and declare the candidate, or candidates, with the largest number of votes to be elected;
- (c) upon the completion of the counting, prepare and certify a return setting forth—

 - (ii) the number of votes declared invalid and rejected;
 - (iii) the name of the person declared elected;
- (d) permit any candidate or his agent to take a copy of, or an extract from, the return;
- (e) seal up in separate packets the counted and rejected ballot papers, and record on each such packet a description of its contents and the name of the constituency and the date of the election to which it refers.

66. The Local Government shall appoint and notify in such manner as it thinks fit the date referred to in Regulation 59 for sending ballot papers to electors and the date referred to in Regulation 60 for the attestation of ballot papers.

Special Regulations applicable to the Bengal (European) constituency.

67. In the case of an election for the Bengal (European) constituency, Regulations 45 to 48 shall not be applicable and the following Regulations 68 to 81 inclusive shall be substituted therefor, and shall apply.

68. In the following regulations—

- (1) the expression “continuing candidate” means any candidate not elected and not excluded from the poll;
- (2) the expression “first preference” means the figure “1”; the expression “second preference” means the figure “2”; and the expression “third preference” means the figure “3”, set opposite the name of any candidate, and so on;
- (3) the expression “transferable paper” means a ballot paper on which a second or subsequent preference is recorded for a continuing candidate;
- (4) the expression “non-transferable paper” means a ballot paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to be a non-transferable paper in any case in which—

- (a) the names of two or more candidates (whether continuing or not) are marked with the same figure, and are next in order of preference; or
- (b) the name of the candidate next in order of preference (whether continuing or not) is marked—
 - (i) by a figure not following consecutively after some other figure on the ballot paper; or
 - (ii) by two or more figures.
- (5) the expression “original vote” in regard to any candidate means a vote derived from a ballot paper on which a first preference is recorded for that candidate;
- (6) the expression “transferred vote” in regard to any candidate means a vote derived from a ballot paper on which a second or subsequent preference is recorded for that candidate;
- (7) the expression “surplus” means the number of votes by which the total number of the votes, original and transferred, credited to any candidate, exceeds the quota.

69. The ballot paper shall contain the names of the candidates arranged alphabetically in the order of their surnames. It shall be in the form set out in Form VIII annexed to these regulations.

70. (1) Every elector shall have one vote only.

(2) An elector in giving his vote—

- (a) must place on his ballot paper the figure 1 in the square opposite the name of the candidate for whom he votes;
- (b) may, in addition, place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the squares opposite the names of other candidates in the order of his preference.

71. A ballot paper shall be invalid on which—

- (a) the figure 1 is not marked; or
- (b) the figure 1 is set opposite the name of more than one candidate; or is so placed as to render it doubtful to which candidate it is intended to apply; or
- (c) the figure 1 and some other figure are set opposite the name of the same candidate;
- (d) any mark is made by which the voter may afterwards be identified.

72. On the day appointed under Regulation 43 for the counting of votes, the returning officer shall open the ballot box, and, after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word “rejected” and the ground of rejection, and after rejecting any that are invalid, shall arrange the remainder in parcels according to the first preferences recorded for each candidate.

73. The returning officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him, and he shall ascertain the total number of valid papers.

74. The returning officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

75. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be declared elected.

76. (1) If at any time the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate, as being next in order of the voters' preference.

(2) (a) If the votes credited to an elected candidate consist of original votes only, the returning officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(b) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the returning officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(c) In either case the returning officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the returning officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (a) If the total number of transferable papers is greater than the surplus, the returning officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored.

If two or more fractional parts are of equal magnitude, that fractional part shall be deemed to be the larger which arises from the larger sub-parcel, and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(d) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate from and to whom the transfer is made.

(5) (a) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(b) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the returning officer shall decide which surplus he will first deal with.

(c) The returning officer need not transfer the surplus of an elected candidate when that surplus, together with any other surplus not transferred, does not exceed the difference between the totals of the votes credited to the two continuing candidates lowest on the poll.

77. (1) If at any time no candidate has a surplus (or when under the preceding rule any existing surplus need not be transferred) and one or more vacancies remain unfilled, the returning officer shall exclude from the poll the candidate credited with the lowest number of votes, and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the returning officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with the fewest original votes shall be excluded, and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the returning officer shall decide which shall be excluded.

78. (1) Whenever any transfer is made under any of the preceding regulations, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with, and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in Regulation 77 before any other candidate is excluded.

79. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates, together with any surplus not transferred, that candidate shall be declared elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made.

80. Any candidate, or his duly authorized representative in his absence, may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the returning officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the returning officer shall forthwith re-examine and recount the same accordingly. The returning officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count:

Provided that nothing herein shall make it obligatory on the returning officer to recount the same votes more than once.

81. (1) The returning officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counter-foils of the ballot papers. He shall verify the statement submitted by the presiding officer under Regulation 42 by comparing it with the number of counted votes and rejected ballot papers, the unused ballot papers in his possession and the tendered votes list, shall then reclose and reseal each packet which has been opened by him, seal up in separate packets the counted and rejected ballot papers, and record on each packet a description of its contents, the name of the constituency and the date of the election to which it refers.

(2) The returning officer shall prepare and certify a return setting forth—

- (i) the number of valid votes given to each candidate,
- (ii) the number of votes declared invalid and rejected,
- (iii) the number of tendered ballot papers issued to electors as shown in the ballot paper account,

- (b) within thirty days from that date by an officer empowered by the Governor General in Council in this behalf on the ground that the election has not been a free election by reason of the large number of cases in which undue influence or bribery has been exercised or committed ; or
- (c) on the ground that the returned candidate or his election agent or any other person acting with the connivance of the candidate or of his election agent has been guilty of the offence of bribery, undue influence or personation as defined in Chapter IX-A of the Indian Penal Code in respect of the election, by any candidate or elector within fourteen days from the date on which such returned candidate, election agent or other person is convicted of such offence.

34. The petitioner may, if he so desires, in addition to calling in question the election of the returned candidate, claim a declaration that he himself or any other candidate has been duly elected; in which case he shall join as respondents to his petition all other candidates who were nominated at the election.

35. At the time of presentation of the petition, the petitioner shall, except where the petition is presented under clause (b) of sub-rule (1) of rule 32, deposit with it the sum of one thousand rupees in cash or in Government Promissory Notes of equal value at the market rate of the day as security for the costs of the same.

(b) the President of the Commission shall, as soon as may be, cause a copy of the petition to be served on each respondent and to be published in the Gazette, and may call on the petitioner to execute a bond in such amount and with such sureties as he may require for the payment of any further costs. At any time within fourteen days after such publication, any other candidate shall be entitled to be joined as a respondent on giving security in a like amount and procuring the execution of a like bond:

Provided that the execution of such a bond by the petitioner shall not be required in any case where the petition has been presented under clause (b) of sub-rule (1) of rule 32.

(3) When in respect of an election in a constituency more petitions than one are presented, the Governor General shall refer all such petitions to the same Commissioners, who may at their discretion inquire into the petitions either in one or in more proceedings as they shall think fit.

(4) If the services of any Commissioner are not available for the purposes of the inquiry, or if, during the course of the inquiry, any Commissioner is unable to continue to attend the same, the Governor General shall appoint another Commissioner and the inquiry shall recommence before the Commission as so reconstituted:

Provided that the Commissioners may direct that any evidence already recorded may remain upon the record, in which case it shall not be necessary to re-examine those witnesses who have already been examined and discharged.

39. (1) An election petition may be withdrawn only by leave of the Commissioners or, if an application for withdrawal is made before any Commissioner has been appointed, of the Governor General.

(2) If there are more petitioners than one, no application to withdraw a petition shall be made except with the consent of all the petitioners.

(3) When an application for withdrawal is made to the Commissioners, notice thereof fixing a date for the hearing of the application shall be given to all other parties to the petition and shall be published in the Gazette.

(4) No application for withdrawal shall be granted if, in the opinion of the Governor General or of the Commissioners, as the case may be, such application has been induced by any bargain or consideration which ought not to be allowed.

(5) If the application is granted—

(a) the petitioner shall, where the application has been made to the Commissioners, be ordered to pay the costs of the respondent theretofore incurred or such portion thereof as the Commissioners may think fit;

(b) notice of the withdrawal shall be published in the Gazette by the Governor General or by the Commissioners, as the case may be; and

(c) any person who might himself have been a petitioner may, within fourteen days of such publication, apply to be substituted as petitioner in place of the party withdrawing, and, upon compliance with the conditions of rule 35 as to security, shall be entitled to be so substituted and to continue the proceedings upon such terms as the Commissioners may think fit.

40. (1) An election petition shall abate only on the death of a sole petitioner or of the survivor of several petitioners:

Provided that, where such sole petitioner was an officer empowered under clause (b) of sub-rule (1) of rule 32, the proceedings may be continued by any other officer empowered in this behalf by the Governor General in Council.

(2) Notice of the abatement of an election petition shall be published in the Gazette by the Commissioners or, if the petition abates before any Commissioner has been appointed, by the Governor-General.

(3) Any person who might himself have been a petitioner may, within fourteen days of such publication, apply to be substituted as petitioner, and, upon compliance with the conditions of rule 35 as to security, shall be entitled to be so substituted and to continue the proceedings upon such terms as the Commissioners may think fit.

41. If before the conclusion of the trial of an election petition the respondent dies or gives notice that he does not intend to oppose the petition, the Commissioners shall cause notice of such event to be published in the Gazette, and thereupon any person who might have been a petitioner may, within fourteen days of such publication, apply to be substituted for such respondent to oppose the petition and shall be entitled to continue the proceedings upon such terms as the Commissioners may think fit.

42. (1) Where at an inquiry into an election petition any candidate, other than the returned candidate, claims the seat for himself, the returned candidate or any other party may give evidence to prove that the election of such candidate would have been void if he had been the returned candidate and a petition had been presented complaining of his election:

Provided that the returned candidate or such other party as aforesaid shall not be entitled to give such evidence unless he has, within fourteen days from the date of the publication of the election petition under clause (b) of sub-rule (2) of rule 36, given notice of his intention to the Commissioners and made the deposit and procured the execution of the bond referred to in rules 35 and 36, respectively.

(2) Every notice referred to in sub-rule (1) shall be accompanied by the statement and list of particulars required by rule 33 in the case of an election petition and shall be signed and verified in like manner.

43. When at an inquiry into an election petition the Commissioners so order, the Advocate General or some person acting under his instructions shall attend and take such part therein as they may direct.

Explanation.—The expression "Advocate General" includes also a Government Advocate, or, where there is no Advocate General or Government Advocate, such other officer as the local Government may appoint in this behalf.

44. (1) Save as hereinafter provided in this rule, if, in the opinion of the Commissioners,— Grounds for declaring election void

- (b) any corrupt practice specified in Part I of Schedule V has been committed, or
- (c) the result of the election has been materially affected by the improper acceptance or refusal of any nomination or by the improper reception or refusal of a vote or the reception of any vote which is void or by any non-compliance with the provisions of the Act or the rules or regulations made thereunder, or by any mistake in the use of any form annexed thereto, or
- (d) the election has not been a free election by reason of the large number of cases in which undue influence or bribery, within the meaning either of Part I or of Part II of Schedule V has been exercised or committed,

the election of the returned candidate shall be void.

(2) If the Commissioners report that a returned candidate has been guilty by an agent (other than his election agent) of any corrupt practice specified in Part I of Schedule V which does not amount to any form of bribery other than treating as hereinafter explained or to the procuring or abetment of personation, and if the Commissioners further report that the candidate has satisfied them that—

- (a) no corrupt practice was committed at such election by the candidate or his election agent, and the corrupt practices mentioned in the report were committed contrary to the orders and without the sanction or connivance of such candidate or his election agent, and
- (b) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and
- (c) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and
- (d) in all other respects the election was free from any corrupt practice on the part of such candidate or any of his agents,

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this sub-rule "treating" means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person with the object, directly or indirectly, of inducing him or any other person to vote or refrain from voting or as a reward for having voted or refrained from voting.

45. Such recommendation may include a recommendation for the payment of costs to the Advocate-General or a person acting under his instructions, attending in pursuance of an order made under rule 43.

(3) The report shall be in writing and shall be signed by all the Commissioners. The Commissioners shall forthwith forward their report to the Governor General who, on receipt thereof, shall issue orders in accordance with the report and publish the report in the Gazette, and the orders of the Governor General shall be final.

46. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail, and their report shall be expressed in the terms of the views of the majority. Form of report

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 1st August 1922.

Summary.—During the week the rainfall was generally moderate to heavy. More rain, however, is needed for the transplantation of winter paddy seedlings on high land tracts and for the steeping of jute in some North Bengal districts. Harvesting of jute continues in full swing. Condition and prospects of standing crops have generally been improved by the recent rain except in some eastern districts where flood has caused some damage. The average price of common rice for the province has risen by about 0·64 per cent. as compared with that of the previous week.

The Report on the Census of Bengal and Sikkim, 1921, by Mr. W. H. Thompson, I.C.S., Superintendent of Census Operations, Bengal.

THE census operations of the sixth census of Bengal, which was taken on the 18th March 1921, were conducted by Mr. W. H. Thompson, I.C.S.; and separate reports have been prepared by him on Bengal and Sikkim and on the city of Calcutta. These reports have been perused with much interest by the Governor in Council, who desires to place on record the following observations regarding the operations and their results.

2. The results of the census show that the population of the province has increased from 46,305,170 in the year 1911 to 47,592,462 in the year 1921. The area of the province, exclusive of the largest rivers, is 82,244 square miles and is practically the same as it stood on the 1st April 1912, when the provinces of Bengal, Assam, and Bihar and Orissa were reconstituted. The population is now larger than that of any other province of the Indian Empire; ten years ago it was rather less than that of the United Provinces, but Bengal has now just over a million more inhabitants than that province. Between each successive census from 1872 to 1911, the population grew in an increasing proportion, which rose from 6·7 per cent. in 1872-81 to 8 per cent. in 1901-11. This increase has now fallen to 2·8 per cent., and all parts of the province have felt the disabilities of the past decade, amongst the chief of which were the phenomenal rise in prices caused by the war and the advent of influenza in disastrous epidemic form. With the exception of Howrah, Calcutta, the 24-Parganas and Khulna, the districts of Western and Central Bengal have lost population. In Northern and Eastern Bengal the districts have gained, except Pabna and Malda; as in the previous decade the Chittagong Division has been the most progressive locality in the province. The two districts which have done better in the present than in the previous decade are Jessore and Bakarganj, though Jessore still shows a small decline in population.

3. **Density.**—The average density of population is 579 persons per square mile compared with England and Wales 649, Belgium 662, the United Provinces 414, Bihar and Orissa 340, Madras 279, the Punjab 184, and Bombay 143. There are however great inequalities ranging from the sparsely populated hill tracts of Darjeeling, the Chittagong Hill Tracts and the Tripura State to the thickly populated industrial area of which Calcutta is the centre and to the centre of Eastern Bengal which supports a population of no less than 1,050 persons to the square mile. It is remarkable that the population is growing most rapidly in parts where the density is already great; but the statistics of agriculture analysed in chapter I of the report would indicate that one reason for the difference in the growth in the population to the east and to the west is to be found in the fact that the soil on the east can support considerably more persons than it can on the west.

4. **Urban population.**—The urban population of Bengal, which is dealt with in chapter II of the Report, has increased by 8·2 per cent. during the decade 1911-1921 to 3,211,304, which is 67 per thousand of the whole population. Whilst, however, the average country town has grown only 2 per cent., the average industrial and commercial town outside Calcutta has increased by 16·9 per cent. As might be expected from the results given in the preceding paragraph, the towns of Western and Central Bengal which are not industrial centres have generally lost population during the decade, but such places as Bhadreswar, Baidyabati and Champdani have together increased by more than 40 per cent. Certain towns in Northern Bengal have grown considerably, notably Bogra by 35 per cent. and the railway centre of Saidpur by 63 per cent. Dacca has increased by 10 per cent. and has now a population of 119,450 inhabitants, within 500 of that of Patna and not quite half of that of Lucknow. The jute centres in Eastern Bengal have also grown fast. Calcutta with its five suburbs, Cossipore-Chitpur, Manicktola, Tollygunge, the South Suburban Municipality and Garden Reach, and Howrah now has a population of 1,327,547 or 4·3 per cent. more than in 1911. Growth has been slower than in previous decades, but on the other hand there has been a great development in suburban passenger traffic on the railways.

5. **Migration.**—The statistics of migration in and out of the province are discussed by Mr. Thompson in chapter III of the Report. Bengal has 1,839,016 immigrants against 686,195 emigrants. These figures are however somewhat illusory, for on the whole the majority of the immigrants do not come to settle and make their homes permanently in Bengal. They come to

Bengal, take up the lion's share of the employment which industrial development has thrown open, earn a little money and then go home again. There has been a remarkable development of permanent Muhammadan emigration from the district of Mymensingh up the Brahmaputra Valley into Assam.

6. **Religion.**—Muhammadans now form 53·55 per cent. of the population, Hindus 43·72 per cent., Animists 1·79 per cent., and others 0·94 per cent. Even as far back as 1881 Muhammadans were slightly more numerous than Hindus, but from decade to decade they have increased faster mainly because they predominate on the more rapidly increasing healthier and wealthier Eastern Bengal districts. Animists now number over three-quarters of a million, Buddhists a little over a quarter of a million, and Christians some 150,000.

7. **Age, Sex and Civil Condition.**—Mr. Thompson has given more space in his reports than his predecessors did to the statistics of age, sex and civil condition and has set forth in chapters V, VI and VII some valuable figures and interesting conclusions. The vast majority of the population can only guess at their ages, a failing which is by no means confined to the illiterate classes. Nevertheless, Mr. Thompson has been able to show how the statistics can be adjusted and analysed for practical purposes. Some of the characteristics of the statistics of sex are unusual as compared with those obtaining in European countries. There are only 932 females per 1,000 males as compared with 1,101 in England, and there is a higher proportion of males at birth in urban than in rural areas. It is interesting to note that the proportion of females born per 1,000 males fell from 939 to 930 in the year 1914, and this was the average for the next five years. A similar phenomenal fall has been observed in almost all countries during the war, both in countries actually at war and in other non-belligerent countries. The universality of marriage in Bengal continues to be the most remarkable feature of the statistics of civil condition; thus, whilst only 55 females per 1,000 of the female population between the ages of 15 to 20 are unmarried in Bengal, the proportion in England and Wales is 988. The average age of a bride in Bengal is 12 years and that of the bridegroom 20 years. It is however a significant fact that the age of marriage, especially of males, is rising. The other remarkable feature of these statistics is the large proportion of widows: more than one-third of the Hindu females between 30 and 35 are widows, and the proportion rises to two-thirds between 45 and 50.

8. **Infirmities.**—The numbers afflicted with insanity (41 per 100,000), deaf-mutes (67 per 100,000) and lepers (33 per 100,000) are all less numerous than in 1911, but the number totally blind (72 per 100,000) is slightly more. Leprosy is very much less prevalent than it was 40 years ago, when it was as common in the Rajshahi and Presidency Divisions as it is now in the Burdwan Division; the greatest improvement has been in the Presidency Division where the proportion of lepers to the total population is now only 29 per cent. of what it was in 1881.

9. **Language.**—Though 80 different languages are found spoken in Bengal, there is not another province in India which presents the same homogeneity in the matter of language, except the United Provinces in which 99 per cent. speak some form of Hindi. Bengali is the mother-tongue of 92 per cent. of the total population of Bengal. The other languages most frequently spoken are Hindi and Urdu spoken by 3·8 per cent. The other languages are mainly Kherwari, Oriya, Tipra (Mrung), Eastern Paharia (Khaskura), Arakanese (Maghi), but there are many varieties of the Tibeto-Himalayan, Assam-Burmese and Dravidian languages.

10. **Education.**—Anyone who could write a letter to a friend and read an answer to it was returned as literate in the census schedules. In Bengal only 104 per mille of the population of the age of 5 and over have reached this standard—181 per mille in the case of males and 21 per mille in the case of females. There has been considerable progress since 1911 when the

corresponding proportion for males was 161 and for females only 13 ; and Bengal stands next to Burma, which leads the rest of India in this respect. The rate of literacy is highest in the Presidency Division.

11. **Caste.**—There was no sign of revolt against the caste system. As usual, the entry of caste in the census schedules created some disturbance in the public mind. Those who belong to Hindu castes low down in the social scale who have begun to share in the privilege of education put forward various extravagant claims to caste distinction by means of the adoption of a new caste name. In ancient times the king was the last appellate authority on the question of caste, and at the census attempts were made to thrust the Census Superintendent into a similar position—a position which he rightly refused to accept. These attempts however at changing caste render the statistics of caste less reliable than they were formerly and certainly make their comparison with the results of any previous census less valuable. It is not uninteresting to note that the Census Superintendent estimates that the numbers of the depressed classes in Bengal amount to 11,250,000.

12. **Occupation.**—Pasture and agriculture support some four-fifths of the population, including those who depend upon agricultural rents and their agents. About two-thirds of the total are ordinary cultivators. Industry supports only $7\frac{1}{2}$ per cent. of the population, transport $1\frac{1}{2}$ per cent., and trade a little more than 5 per cent. of the total. The professions and liberal arts support a little over $1\frac{1}{2}$ per cent. Domestic servants (less than $1\frac{1}{2}$ per cent.) are comparatively few. Along with the census a special count of handlooms was made, which shows that though hand-spinning has almost disappeared, hand-weaving with machine-made thread is still an important industry. The statistics of the industrial census obtained by means of returns which were filled up by the owners and managers of all factories with ten or more employees have been carefully tabulated and should prove valuable.

13. **Costs of the operations.**—The total additional expenditure incurred by Government and the Corporation of Calcutta on account of the census operations amounted to Rs. 3,85,771 as compared with Rs. 3,02,781 in 1911. The increase is almost entirely due to the increased rates of pay which had to be given to the clerks and others engaged in tabulation and compilation. As usual, the bulk of the work of the actual census was performed by a large host of unpaid workers who deserve great praise for the efficient performance of their duties.

14. **General.**—In conclusion His Excellency in Council desires to express his appreciation of the excellence of the organisation of the operations and the accuracy and care with which they were carried out. In particular, he wishes to thank Mr. W. H. Thompson for his services in organising and conducting the operations and for his eminently valuable and interesting report. He also desires to thank the District Officers and the numerous officials and non-officials who helped to bring the operations to a successful conclusion for their valuable services. The names of the officers commended by Mr. W. H. Thompson for their good work will be recorded in the Appointment Department.

**FINAL REPORTS ON THE FLOODS DURING 1922 IN THE DISTRICTS OF
MIDNAPORE, HOWRAH, HOOGHLY AND BANKURA.****GOVERNMENT OF BENGAL.****REVENUE DEPARTMENT.****Land Revenue.**

CALCUTTA, THE 9TH AUGUST 1923.

RESOLUTION—No. 6290L.R.**READ—**

Letter No. 207R.G., dated the 12th February 1923, from the Commissioner of the Burdwan Division, submitting with his review the final reports on the floods during the year 1922 in the districts of Midnapore, Howrah, Hooghly and Bankura.

The Governor in Council has received the final reports on the floods that occurred in the months of June and August 1922 in the districts of Midnapore, Howrah, Hooghly and Bankura. They contain a detailed description of the extent of damage done by the floods and the measures adopted for the alleviation of the distress, which is summarised in the Commissioner's review. The specific proposals made in the reports for the prevention of the recurrence of similar floods in future in those districts are under the consideration of Government.

2. The Governor in Council notices with pleasure the commendable promptitude with which the local officers dealt with the situation, and he is at the same time satisfied with the efficient manner in which the relief operations were carried out. He desires to record his appreciation of the good work done by the officers mentioned in the reports. His Excellency in Council also acknowledges the valuable assistance rendered by the several non-official organisations and gentlemen mentioned in the reports and desires that the thanks of Government be conveyed to them.

ORDER.—Ordered that this resolution together with the review of the Commissioner be published in the *Calcutta Gazette*.

By order of the Governor in Council,

M. O. McALPIN,

Secretary to the Government of Bengal.

No. 207R.—G., dated Chinsura, the 12th February 1923.

From—K. C. DE, ESQ., C.I.E., I.C.S., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I have the honour to forward herewith the final reports*, submitted by the Collectors of Midnapore, Howrah, Bankura and Hooghly, on the floods which occurred in the year 1922 in those districts together with maps* showing the areas affected thereby.

2. There were successively two extensive floods in the rivers in the above districts during the year 1922, viz., in the third and fourth weeks of June and first week of August. The first flood of June, though it did considerable damage to property in the district of Bankura and to life and property in some portion of the Arambagh subdivision of the district of Hooghly, did not cause so great distress in the districts of Midnapore and Howrah, where its strength was spent. The flood in August, however, was much more extensive and widespread and affected most parts of these districts though its effect proved very destructive in the Ghatal subdivision of the Midnapore district, Arambagh subdivision of the Hooghly district and western part of the Howrah district.

3. **Causes of the floods, extent of the inundation and damage.**—The floods were caused by excessive rainfall in Chota Nagpur and Bankura followed by abnormal local rainfall. The consequence was that the rivers Dwarkeswar (Rupnarain), Selye, Cossye and their branches and their old beds were all flooded.

Midnapore district.—In the Tamluk subdivision, thana Panskura was mainly affected. The right embankment of the river Cossye was breached at Manur on the 23rd June 1922 and the left embankment at Joyramchak on the 24th June. Small areas were thereby inundated but practically there was no damage as the floods subsided quickly. The river Cossye was again in flood on the 2nd August 1922 and on the 3rd, the zamindari embankment passing right of the Public Works Department embankment at Garhpurnsottampore gave way, but no damage was done. On the 4th August, the Durbachati khal, which forms the northern boundary of thana Panskura, broke its right embankment at Brindabanchak. There was another breach at Malida. The basin below became full with water which breached the right embankment of the Topa Khal at Jadupore. The breaches at Brindabanchak and Malida were filled up by the Public Works Department, but the one at Jadupore was allowed to remain to drain the basin. An area of 44 square miles was inundated in this part of the country in which paddy seedlings over an area of 25 square miles were wholly destroyed, though in the rest retransplantation was possible. It has been estimated that about 1,000 houses in this subdivision tumbled down, but fortunately there was no loss of human life and cattle. The distress caused by this flood was not so acute as was the case during the floods of 1920.

In the Ghatal subdivision, thanas Ghatal, Dashpore, Chandrakona and Ramjibampur were affected. The total number of breaches in the several circuits within the subdivision during the year was 70 and circuit embankments with an area of 128 square miles were broken. Besides an area of 128 square miles of protected country, 135 square miles of unprotected area were also inundated on the 3rd August 1922, or 263 square miles in all out of the total subdivisional area of 368 square miles. Besides, the sugarcane and *bhadoi* crops on an area of 4,554 acres, the *aman* crop in an area of 65,000 acres out of 110,725 acres (the total area sown) were entirely destroyed. Though retransplantation was seriously attempted, another flood of September stood in the way of the operations and *aman* could not be regrown on 27,000 acres which had entirely to depend on *boro* and *rabi* crops. Fortunately there was no loss of human life directly due to floods, but 6 cases of drowning were reported and the number of cattle lost was small. The damage to houses, however, was very great. Over 1,800 houses collapsed both in the protected and unprotected areas.

In Midnapore Sadar three thanas were affected, viz., Garhbetta, Sabong and Debra, and an area of 43 square miles in all were inundated. The Public Works Department embankment on the river Cossye at Kamalpore gave way and the Railway bridge over the Selye near Garhbetta was damaged. Crops on an area of about 17,000 acres were damaged but fresh transplantation of seedlings was possible in some of those areas. In Garhbetta thana about 2,000 acres of land were rendered unfit for cultivation by the deposit of sand.

Hooghly district.—In the Arambagh subdivision of the Hooghly district, there were three floods caused by the rise of the river Darkseswar, viz., two in June and one in August 1922. The whole of the subdivision on the east of Darkseswar and a strip of land on the western bank of the Darkseswar along its whole length were inundated. The first flood caused a breach in the Sheikpura Circuit Embankment, but before the Public Works Department could finish closing the breach, the second flood came and not only washed away the portion repaired but further widened the breach to 800 feet. The first two floods of June did not, however, cause any damage to crops as transplantation had not commenced then. But the third flood in August destroyed 1½ of the paddy seedlings and the transplanted paddy in the inundated area. Retransplantation was started after

* Not published.

the third flood had subsided and the outturn of crops in the inundated area is estimated at 60 per cent. Altogether over 1,000 huts collapsed during these floods chiefly in the affected villages within the Sheikpura Circuit Embankment, which suffered seriously. In Arambagh town some Government buildings suffered damages. There was loss of nine human lives directly or indirectly due to floods and 18 to 20 heads of cattle were lost.

Howrah district.—In the Howrah district, there were also three floods—in June, August and September—caused by the rise of the river Darkeswar, the effects of which were aggravated as in other places by the abnormal local rainfall. The first and third floods were minor ones and did very little damage. The heaviest flood of the year was the second one, which commencing from the 2nd August 1922 reached its maximum on the 5th August and affected thanas Uluberia, Amta, Singti, Bagnan, Jagatballavpore, Panchla and Doinjur. The new Public Works embankment on the Mahisrekha Khal in the Amta basin was breached. About 200 square miles were inundated and crops on 140 square miles were destroyed. Retransplantation was, however, possible in an area of about 40 square miles mainly in the upper part of the Rajapore Drainage basin. About 450 mud houses collapsed and four human lives were lost by the fall of a large mud house. The loss of cattle was very few.

Bankura district.—In the Bankura district, there were two floods, one in the last week of June and the other in the first week of August 1922. They were caused by abnormal rainfall, which caused all the rivers in the district specially Gandheshwari and Darkeswar to rise in floods in an unprecedented manner. The flood water spread over a very large area along the banks of the rivers, but owing to the undulating nature of the country, it subsided quickly. The principal damage took place along the river Selye in thanas Taldangra and Simlapal and along the river Darkeswar in thanas Bankura, Onda, Radhanagar, Indas and Kotulpore. The damage caused by the June flood to dwelling sites was insignificant, but it did considerable damage to roads and communications, railway lines, the municipal water-works at Bankura as well as to paddy seedlings. The loss of paddy seedlings was, however, made good by fresh sowing. The flood in August proved still more disastrous and it not only caused further damages to roads and communications and cultivated land, but it destroyed a large number (3,105) of dwelling houses, while 1,800 bighas of land were completely diluviated, in addition to which a thick deposit of sand was left on a very large area. Four human lives and about 150 heads of cattle were lost.

4. Relief measures undertaken.—The total amount sanctioned by Government for relief in this division was Rs. 27,000, viz :—

Rs. 20,000 for Midnapore (Ghatal subdivision),
Rs. 2,000 for Hooghly,
Rs. 1,000 for Howrah, and
Rs. 4,000 for Bankura.

Out of this allotment, Rs. 1,000 only was actually drawn by the Collector of Hooghly. This grant was supplemented by the allotments by the District Boards, public subscriptions and balances left in the hand of Collectors and Subdivisional Officers out of the funds created on previous occasions. The total amount available for relief measures from all sources was Rs. 55,753, of which Rs. 45,299 was spent including contingent charges. The balance left was Rs. 10,454, including a saving of Rs. 4,751 effected from the Government grant of Rs. 20,000 made to the Ghatal subdivision of the Midnapore district. This latter amount has been refunded into the treasury by the Subdivisional Officer. An account of relief measures undertaken in each district is briefly given below.

Midnapore.—In the Tamluk subdivision, a sum of Rs. 4,798 was spent for gratuitous relief, viz., Rs. 200 on charitable doles, Rs. 43 for distribution of cloth and Rs. 4,555 for reconstruction of houses. The total receipts were Rs. 5,030 and the amount spent including contingent expenses was also Rs. 5,030.

In the Ghatal subdivision, rescue work was started on 3rd August 1922 and continued till 5th August 1922. Relief work was also commenced on 4th August 1922 and continued till 22nd August 1922. Fourteen relief centres were opened, all of which except one were under official supervision; 8,638 men, 11,985 women and 12,057 children in all were relieved at a total cost of Rs. 4,044. Rupees 13,249 was also distributed as gratuitous relief for the rebuilding of collapsed and damaged houses. The total receipts including the Government grant of Rs. 20,000 amounted to Rs. 27,802 of which Rs. 20,306, including contingent expenses, such as boat hire, etc., was spent. In both the flooded areas of Tamluk and Ghatal subdivisions the District Board deputed doctors but fortunately there was no outbreak of any epidemic disease.

In the Sadar subdivision of the Midnapore district, Rs. 993 was given as doles in cash and Rs. 4,359 was also given as gratuitous relief for house building. The total receipts were Rs. 5,407 of which Rs. 5,372 (including a sum of Rs. 20 given as a reward) was spent.

Hooghly.—In the Arambagh subdivision of the Hooghly district, three relief centres were opened in June and the relief was continued till the end of August. The total receipts, including Government grant of Rs. 1,000, were Rs. 1,719, of which Rs. 429 was spent in the distribution of rice doles, Rs. 229 in cloth and Rs. 1,047 for reconstruction of houses and the rest in contingent expenses. Besides this, 35 maunds of rice subscribed locally were distributed.

Howrah.—In the Howrah district, a district relief fund was constituted and local relief committees were organized at Amta and Uluberia. The total receipts, including the Government grant of Rs. 1,000, were Rs. 8,723 of which Rs. 1,519 was spent on gratuitous doles of rice and Rs. 4,285 has been sanctioned for distribution for rebuilding of houses. The distribution is still being made and accounts have not yet been finally adjusted.

Bankura.—In Bankura, the June floods did not necessitate organization of any relief measures, as there was hardly any destruction of dwelling houses. The August flood, however, caused widespread destruction and steps were taken immediately to afford relief to the sufferers. A flood relief committee was started and funds were collected for the purpose.

The total receipts, including the Government grant of Rs. 4,000, were Rs. 7,071 of which Rs. 7,066 was given away as gratuitous relief chiefly for rebuilding of houses. In addition to the relief given under Government management various philanthropic bodies gave relief in the shape of doles of rice, money and material for house-building, etc.

5. **Charitable relief.**—The following non-official organizations rendered substantial relief in the areas mentioned against them :—

Ram Krishna Mission	Ghatal.
Darkeswar Flood Relief Committee, Hooghly			..	Arambagh.
Ram Krishna Mission, Kotalpore Hitasadhan Samity and the Bankura Sammilani	Bankura.

6. **Agricultural and land improvement loans.**—There was no demand for agricultural loans. A sum of Rs. 470 only was issued in thana Garhbetta. In Bankura there is, however, a demand for land improvement loans for reclamation of lands damaged by deposit of sand. The Collector has been given a further grant of about Rs. 6,000 to supplement his previous grant of Rs. 3,000.

7. **Remedial measures.**—*Midnapore.*—The drainage of the Tamluk subdivision, in the district of Midnapore, is defective and in order to mitigate the effect of future floods in this subdivision, it is necessary to take up the work of improvements of the Soadighi, Gangakhali and Sankarara Khals. The administrative approval of Government has long been accorded to the first two named schemes and Government have also undertaken their financial responsibility, though for want of funds nothing has been done as yet. The urgency of the schemes was brought to the notice of Government by Mr. Gupta during the floods in 1920. It is, however, satisfactory to note that some work in this direction has been executed by the raiyats by raising money amongst themselves.

The levelling of the present embankments is a counsel of perfection, but it cannot be carried out for a considerable number of years yet to come. The immediate necessity seems to be the improvement of the drainage of the subdivision by silt clearance of the present outlets of water.

Hooghly.—The Subdivisional Officer of Arambagh thinks that it is likely that the construction of a big sluice gate at Tuthamari in the Public Works Department Embankment where a breach was caused last year and of one or more sluice gates in the Sheikpura Circuit Embankment would prevent damages by the future floods in the Darkeswar river. The feasibility of the proposals may be considered by the Irrigation Department.

Howrah.—In Howrah, the construction of the Mohisrekha sluice in connection with the Amta Drainage Scheme has been completed. This is, however, only a self-contained portion of the main scheme, and unless the whole scheme is completed, no beneficial effects would be derived. During the last floods it was found that the basin drained by the Rajapore channel was soon free from flood water, but the Amta basin remained water-logged. It now rests with the District Board of Howrah to take the financial responsibility on which the execution of the whole scheme depends.

In paragraph 10 of his report, the Collector of Bankura has proposed that as a measure of flood prevention in the district it is necessary—

- (1) to hold an enquiry into the important question of indiscriminate deforestation in Bankura as well as in Chota Nagpur where the large rivers of the district take their rise, and
- (2) to take steps to re-excavate old irrigation tanks and bunds in the district.

The deforestation in these parts has already gone too far and it depends on a variety of circumstances over which Government have no control.

As for the second proposal, a movement has already been started in the district on co-operative lines and if the Collector thinks it desirable, he can also proceed under the Bengal Agricultural and Sanitary Improvement Act.

8. **General remarks.**—On receipt of the news of the floods, the local officers concerned were on the spot immediately, organized rescue parties and took steps for the distribution of gratuitous relief. In this work they received the co-operation of non-official gentlemen and local organizations. Local relief committees were formed to raise contributions to supplement the Government grant for those affected by the floods. The assistance given was prompt, adequate and effective. The officers of the Public Works Department worked hard and took immediate steps to close breaches, wherever possible. The

Collector of Midnapore in his letter* No. 6940R., dated the 19th November 1922 has, however, made some comments on the divisions of the Public Works Department, Irrigation Department and circles of control, so far as his district is concerned. I submit the suggestions for the consideration of Government. I visited Tamluk on 11th July 1922, Ghatal on 12th and the Sheikpura Circuit including Ghatal and Arambagh on the 13th and inspected with the Collector all the affected areas. Later on on the 12th August, I assisted in organizing the Midnapore Flood Relief Committee and on the 13th August 1922, I accompanied the Hon'ble Member for Revenue and Irrigation to the affected areas in Ghatal and parts of the Arambagh subdivision.

In their reports, the Collectors have referred to the valuable assistance they received in this connection from non-official gentlemen and philanthropic organizations. I am glad to endorse the Collectors' appreciation of their services.

Mention has been made in the reports of the good work done by the Subdivisional Officers and other officers employed on flood relief work. The Collectors inspected the flooded areas and gave necessary instructions to the officers on the spot. It was through their supervision and guidance the relief measures were successfully carried out.

The committee will themselves elect a president at a meeting to be convened at an early date by the Superintendent, Medical College Hospitals.

2. The Committee will not visit the hospitals individually but may divide into small groups of not less than three members, each group being on duty for a particular period, according to a roster to be kept for the

purpose. The committee or group should visit the hospitals at least once a month on dates to be fixed by themselves, and should inspect the internal arrangements and offer such suggestions regarding the administration of the institution as they may think proper. A visitors' book will be kept in the hospitals in which all such recommendations will be recorded. The Superintendent of the hospitals will note on the margin the action taken on each recommendation with any other remarks or explanations that he may wish to make. He will transmit a copy of the entries without delay for the consideration of the Surgeon-General with the Government of Bengal, who will take such further action as may seem necessary and report it to the Government. The members will hold office for one year from the date of their appointment.

DEPARTMENT OF AGRICULTURE, BENGAL.**First Forecast of the Cotton Crops of Bengal, 1923-24.**

(NOTE.—On an average of the five years ending 1921-22 the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

THERE are two crops, early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The “late” crop is grown in Bankura and Midnapore.

Character of the season.—The rainfall was unevenly distributed. In the Chittagong Hill Tracts and Bankura, the weather has been generally favourable throughout, elsewhere conditions proved unfavourable, in the early stage generally owing to insufficient rainfall. In the Tripura State, however, excessive rain during April hampered sowings, thereby reducing the area to some extent. The present condition is reported to be fairly favourable on the whole.

Area sown.—The area sown with the early crop is reported to be 68,803 acres this year against 70,087 acres reported in the corresponding forecast of last year.

Of the late crop, an area of 937 acres is reported to have been sown this year against 700 acres reported in the corresponding forecast of last year.

R. S. FINLOW,

Director of Agriculture, Bengal (offg.).

DACCA, the 6th August 1923.

DEPARTMENT OF AGRICULTURE, BENGAL.**First Forecast of the Sugarcane Crop of Bengal, 1923-24.**

(NOTE.—On an average of the five years ending 1921-22, the area under sugarcane in Bengal has represented some 8·2 per cent. of the total area under sugarcane in British India.)

Character of the Season.—At the outset the weather was generally favourable for planting throughout the province. During the early period of growth absence of rain adversely affected the crop to some extent, especially in the deltaic tracts. The prospects have since been greatly improved by the monsoon rain, and the present outlook is promising.

Area planted.—The total area planted with sugarcane for the province is reported to be 208,100 acres this year as against 199,400 and 200,600 acres reported, respectively, in the corresponding and final forecasts of last year.

ROBERT S. FINLOW,

Director of Agriculture, Bengal (offg.).

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 5th August 1923.

Summary.—During the week light to moderate rainfall was general throughout the Presidency. Transplantation of winter paddy seedlings and steeping of jute are being retarded for want of sufficient rain. Reaping of jute and autumn paddy continues in East and North Bengal. Harvesting of jute has also commenced at places in West Bengal. Condition and prospects of standing crops are on the whole fair; more rain is, however, needed for their growth. Insect-pests are causing damage to jute crop in parts of West and East Bengal. The average price of common rice for the Presidency has risen by about 0·54 per cent. as compared with that of the previous week.

~~Now the week ending 10th Nov. 1903.~~
Summary.—The rainfall during the week was light and scanty. More rain is urgently needed for the transplantation of winter paddy seedlings and for the growth of the standing crops generally. Harvesting of autumn paddy is progressing but that of jute is being interfered with owing to insufficiency of water for steeping. Damage to jute crop by insect pests is reported from parts of West and East Bengal. The average price of common rice for the Presidency has risen by about 0·5 per cent. as compared with that of the previous week.

DACCA, the 22nd August 1923.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JULY 1923.

I. Character of the season.—During the month under review the rainfall was defective generally throughout the Presidency, specially in the Eastern Bengal districts. The fall was, however, above the average in the 24-Parganas, Khulna, Bardwan, Bankura, Hooghly, Howrah, Jalpaiguri, Darjeeling, Malda, Bakarganj and Chittagong. The usual rainfall statement is appended.

II. Progress of agricultural operations.—Transplantation of winter paddy was well advanced in certain North Bengal districts and elsewhere it progressed slowly. In Mymensingh, Rangpur and Khulna want of rain or lowness of the rivers is retarding both steeping of jute and transplantation of *aman* paddy. The rainfall towards the latter part of the month facilitated the operation a good deal, especially in the western districts. More rain, however, was needed in the highland tracts. Reaping of autumn paddy, cutting, steeping and washing of jute were making progress in the Eastern Bengal districts, but lowness of the rivers caused difficulty in parts of Mymensingh and elsewhere as already described.

III. State of standing crops.—The condition of sugarcane and deep-water paddy was satisfactory and that of autumn crops was generally reported to be fair. The rainfall towards the latter part of the month helped the growth of the standing crops.

IV. Prospects and probable outturn.—Harvesting of autumn crops was going on. A fair to satisfactory outturn is anticipated for the Presidency as a whole. The prospects of broadcast winter rice are promising.

V. Damage to standing crops.—Damage to jute by insect-pests was reported from several districts. Standing crops were also reported to have been damaged by excessive rains and floods in parts of Jalpaiguri, Bakarganj and Chittagong.

VI. Condition of agricultural stock.—The condition of live-stock was reported to be fair. Sporadic cases of cattle-disease were, however, reported from sixteen districts.

VII. Failure of pasturage and fodder.—Insufficiency of fodder was reported only from one police-station of the Pabna district.

VIII. Prices of food-grains.—During the second-half of the month the price of common rice of the choicest quality rose in ten districts, fell in five and remained stationary in the rest. The prices varied from 6½ seers a rupee at Bogra to 9½ seers a rupee at Rajshahi.

IX. Condition of agricultural people.—The condition of the agricultural population was generally reported to be fair.

Director of Agriculture, Bengal (offy.).

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1922.

GOVERNMENT OF BENGAL.

POLICE DEPARTMENT.

CALCUTTA, THE 25TH AUGUST 1923.

RESOLUTION—No. 2611Pl.

READ—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1922.

The office of the Commissioner of Police was held throughout the year by Sir Reginald Clarke, Kt., C.I.E.

2. There was an increase in the number of reported offences mainly under local and special laws, greater attention having been paid to infractions of municipal regulations and to breaches of the Cruelty to Animals and Hackney-carriage Acts. No grave case of rioting occurred, and the number of less serious disturbances of the peace declined slightly. Though seven dacoities were reported against four in the previous year, offences against property were not so numerous on the whole, and though the value of property stolen was higher than before, a larger percentage of it was recovered by the police. The prevalence of robbery throughout the year continued to be a disquieting feature. Fewer cases were reported, it is true, but the total still remained abnormally high in spite of the more vigorous preventive action by which security was taken from 659 persons as against 589 in the previous year. There has been a considerable improvement since the power of ordering hooligans out of the metropolitan area or the province was conferred by the passing of the Goonda Act in March last. In the first six months of the year, 45 cases of robbery were reported as compared with 140 in 1922, and most of these occurred in the early part of the year before the Act was passed. Orders of removal have been passed against thirty-two goondas, while a number of others have left in order to avoid action being taken against them. In the short period during which the Act has been in existence, robbery and other forms of hooliganism have naturally not been entirely stamped out and occurrences take place, not always the work of the "goonda" class, on which public attention is apt to be focussed, but the enforcement of the Act together with a system of police patrols in areas where crime is prevalent has on the whole produced satisfactory results.

3. The registration of vehicles and the problems of traffic control continued to absorb an increasing amount of attention. Endeavours to maintain a reasonable standard in public vehicles were reflected in the largely decreased number of new taxi-cabs registered and professional licenses issued, the policy being to weed out unserviceable conveyances and to enforce a type in accordance with the revised rules. The income of the Hackney Carriage branch did not cover the expenditure incurred on it. A certain reduction in the cost of its administration has since been effected, and the question is under consideration of reducing the cost still further and at the same time adding to the fee income with a view to the attainment of financial equilibrium.

The number of persons killed and injured in accidents caused by motor vehicles declined from 1,422 in 1921 to 974. These figures show an improvement, but after making due allowance for the number of vehicles of all kinds and the congested condition of certain thoroughfares, Government cannot but hold that reckless driving is much too prevalent and is an evil which must be sternly checked.

4. The only buildings constructed during the year were some staff quarters at the new Police Hospital at Bhowanipur. For financial reasons progress with other schemes was impossible and the problem of accommodation remains unsolved, and is indeed becoming more and more difficult. As the Commissioner points out, the heavy rent-roll is increasing from year to year, for in many cases Government have no choice but to accept the accommodation available, however unsuitable, at the high rates demanded. The seriousness of the resulting situation is fully realized by Government, but adequate amelioration seems feasible only by means of a loan from which a building programme could be financed. The possibility of obtaining such a loan is again under consideration, while projects are being worked out for the provision of Government buildings at suitable centres to house the police-stations together with the investigating and patrol staff, so as to replace most of the houses at present hired at high rents. Such a measure would provide police-stations accessible to the public and would promote the health, efficiency and discipline of the force.

5. The year opened with the non-co-operation campaign in full blast. Deliberate defiance by certain sections of the population, of the orders prohibiting meetings and processions, seditious speeches and writings in which the police were subjected to vilification and the picketting of shops accompanied by intimidation produced most trying conditions in which the police maintained order with commendable loyalty and restraint. Normal conditions were gradually restored, and in spite of spasmodic attempts later to revive a waning agitation, the closing period of the year was without incident. All ranks acquitted themselves well throughout an exacting time, and the Governor in Council congratulates Sir Reginald Clarke and his force on another year of duty well done. He has also read with pleasure the list of officers whose individual services have been brought to notice by the Commissioner.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.
